Foreword

IN *TORONTONENSIS 1952*, we are attempting to continue and extend the policy of the previous editor in the hope that in the not too distant future every undergraduate will purchase a copy in each year of his sojourn at Toronto. At present, the old tradition of Torontonensis as a graduation momento rather than an annual yearbook still persists and it will take some time for this idea to change, but it is changing. Toronto is unique in this old traditional conception of a yearbook as we have been unable to find another university which has a book which is primarily for the graduating class. We feel that *Torontonensis* should be a concise summary of the undergraduate activities of the academic year which would be of interest to the students of all years. It is upon this theme that this edition was formulated.

It was our aim to record the activities of all students in as many phases of campus activity as possible. This is the ideal for which we feel that *Torontonensis* should strive. The degree of success in such a venture depends upon the students themselves and the co-operation of all student organizations for we can only reproduce the material which we receive and we assume that the various student groups wish their activities to be reported. Some groups, we are happy to say, responded enthusiastically, but others were indifferent, with the result that many activities are well covered while others have been missed completely. We would urge the students responsible for campus activities in the future to at least inform the editors of events as they take place and if possible to supply adequate copy and material.

This has been a big year at Toronto and we hope that we have included the things that have been responsible for making it such within these pages. The biggest event at any time to every student is his own graduation and, although we no longer devote this book to the graduates in particular, it would be a weak effort without them. So, to the graduating class of 5T2 we offer our heartiest congratulations. The events of topical and historical importance which took place during the present academic year are too numerous to mention here but they are presented in picture and summary in the following pages.

This year most of the campus life activity is included at the bottom of each of the graduating class biography pages in the hope that each page of the book will prove to be of interest to everyone regardless of the year in which he is enrolled. Another innovation is a summary of the year's activities in diary form near the back of the book.

We appreciate the assistance rendered us by those who worked on the editorial board for this edition. Without the time and effort given by them, some who could ill-afford it, this book would never go to press. Our only regret is that there were not more of them. It is the hope of every member of the editorial board that we have produced a yearbook which has the approval of the students of the University of Toronto.

TRINITY COLLEGE

This volume of Torontonensis is dedicated to Trinity College and to St. Michael's College who this year celebrate their hundredth anniversaries and to the men and women, both past and present, who have established and maintained the fine traditions of these colleges.

A Message from the President

THE celebrations in 1952 of the founding, one hundred years ago, of Trinity College and St. Michael's College are new reminders of the unity of the academic family known as the University of Toronto. *TORONTONENSIS* is at once an annual record of the achievements and the strength of the several colleges, faculties, schools and institutes, and also an index of the progress of the University. To a singular degree, enrolment in this complex institution enables a student to develop his own talents and to fulfil his own aspirations, while learning, through his membership in the larger community, that he cannot live by and for himself alone, and, moreover, that immediate loyalties are deepened by their extension to his university, to his nation, and to mankind. It has been well said that a man wrapped up in himself makes a very small parcel.

To the graduates of 5T2, we offer a sad, a proud, a fond and a confident "Fare you well". Commencement— our usual term in this country for graduation ceremonies—is a well-chosen word. Graduation is not a terminal. Education is a lasting process, whether we like it or not. When I say that education is a lasting process, I am not thinking merely of the skills and techniques that you have acquired during your undergraduate days. I am thinking of those abilities which are the precious and peculiar heritage of the educated citizen: the ability, in the words of a British educationist, "to think clearly, to examine thoroughly, to judge dispassionately, to pronounce impartially, to stand for what is good, to show contempt for what is bad, to keep an open mind about what is uncertain— above all, to develop, feed and sustain a passion for knowledge and to remember that, however much one may learn, it is of small volume beside all of which one is ignorant." Here there can be no room for self-satisfaction, no sense of completion; in this subject there are no final examinations and no final grades, for each day will bring new tests of mind and character. You will meet those tests, I predict, with integrity and courage.

In the memory of

His Majesty King George VI

who died February 6, 1952.

He was the only reigning monarch to visit
the University of Toronto.

Valedictory

Nicholas Ignatieff, Warden of Hart House since 1947, died suddenly on Friday, the 28th of March, 1952.

In place of the usual summary of activities, the Board of Stewards and the Committees of Hart House reprint the last speech of their beloved Warden, given on the occasion of the Annual Committees' Dinner on Thursday, the 27th of March, 1952.

The normal custom at the Committees' Dinner has been for the Warden to present a review of the past year and examine, as it were, "The State of the Union."

This year I would ask your indulgence to depart from custom and attempt something much more ambitious. My immediate excuse is that I have now been in Hart House five years and would like to assess what we are doing here in relation to the University as a whole—more than that—in relation to the important issues of the day. For everyone nowadays is agreed that extra-curricular activities at a University should be not merely recreational but should form part of the general education of the student. Certainly that is the professed aim of Hart House and of this University. How well do we live up to our professions? Let us first take a look at the world of to-day to find our bearings. I will ask you to stretch your imaginations and for a moment look at it not with your eyes but my eyes—for I was fortunate or unfortunate enough to be thrust at a very early age into those conditions, those major issues which are now shaping our destinies. How did I see them then?

I want you to come with me to a mountain-side in the Northern Caucasus and lie with me in the parched grass contemplating a beautiful and yet horrible scene. I was then fourteen. It was the late Fall of 1918 and Russia was torn by Civil War. It was one of those glorious Fall days when the sun is still warm and nature is at its most beautiful—in a reflective and nostalgic, almost tender mood. The view before me was too lovely to describe: with the Caucasian Mountains glistening in the far distance and a lovely valley at my feet, the town of Kislovodsk with its parks, gardens, villas spreading peacefully on either side of an attractive mountain stream.

But the atmosphere was not peaceful. Down in the valley and among the azalea bushes covering the foothills there was a deadly battle going on without quarter and without mercy: Russian pitted against Russian. I remember thinking acutely for the first time: what pitiful fools these grown men are to do this to each other on a day like this in a place like this. What Blasphemy!

All through those months and years of stress, excitement, misery, I was disturbed and refused to accept the authority of the explanations handed down to me by my elders and betters. As a matter of fact at eleven, when my father was Minister of Education, I had written an essay on how to bring up children which took issue with my parents regarding the methods they were applying to us. Instead of ignoring or punishing me my father tried to explain his point of view. He failed to convince me, but he won my admiration and respect and enabled me to go on disagreeing with him on all kinds of important issues while keeping our personal relations on terms of complete affection.

So when my father, and all our friends and relations, said that Communism could only be fought by force and even to hang Communists was a service to society, I could not see the point and was haunted by the spectacle of a young mother who happened to be an active Communist and wife of one of their captured leaders, hanging for three days from a gibbet erected on a hill in the middle of the town. I hated cruelty and inhumanity and condemned them as immoral whoever committed them.

I remember once that winter when the Communists were searching us for the umpteenth time and were in the process of bundling up all our remaining clothes, my mother pleaded with them not to take the clothes of her children as the house, cracked open by an earthquake, was cold and we were short of fuel. But they replied: "Citizeness, did you care about our cold and hungry children all through the years of Tsardom? It is our turn now. It won't hurt your children to go a little cold and hungry for a change!" And in my heart I felt it was just retribution.

I left Russia as a boy of fifteen with the firm conviction that the great issues I saw fought out before my eyes were not as simple as black and white. That in attempting to seek the Truth, to get at the bottom of the great issues of the day I could no longer accept the authority of parents, friends, institutions: that I would have to go on struggling for my own standard of values which could satisfy ultimately my own conscience alone.

My whole experience in World War II, when working in Strategic Intelligence, gave me a glimpse behind the veil where the real motifs and actions of men and nations stand revealed against their professions and propaganda. It was a disillusioning and sad sight I can assure you and it

reinforced my conviction that to find one's bearings in this confused and sick world a man must struggle hard, struggle alone if necessary, satisfied to accept nothing less than Truth, for in no other way can we discover a way out or charter a better course into the future.

Now what has all this got to do with us here and now, this University or our extra-curricular activities?

As far as I am concerned: everything! for is it not the prime function of a University to seek the Truth, unswervingly and unbendingly? Is it not our main hope, professed hope in higher education, that in our Universities we shall educate a generation of new men and women with new insight and superior and independent understanding who can tackle and resolve the issues which appear to defy solution today?

And what are we in fact doing toward that goal?

I must confess that often I have sat in this Great Hall and have been saddened and disillusioned by the speeches I have been forced to listen to: speeches by dignataries full of complacent platitudes, including my own speeches; speeches by leading students also reflecting complacency and insufficient awareness of the tremendous and critical issues facing our generation.

I have often thought: my generation and the one preceding me have their nerve to pontificate to these students as if we know most of the answers, are proud of our achievements, traditions, and institutions and exhort them to carry on as we have done in the past, to assure for ourselves and mankind a noble future. What inexcusable arrogance! are we not the generation who have fought two world wars to save Democracy and are now telling you that a third and more terrible war is almost inevitable; are we not the generation which has failed to solve a single great issue and is moving from one disaster to another in a fog of utter confusion and yet we appear proud and sanctimonious in our superior wisdom? Surely by this very attitude we are defeating our purpose and our hope for we are educating you in complacency and lulling you into a false security—at best supported only by force of arms which is the worst illusion of them all.

Surely all our educational energies should be devoted to awakening in you a resolve to do better than we have done; to understand what we have failed to grasp; to grapple with the issues we have dodged; to win where we have failed. To do this we can only help you with a sense of humility at our failure and not pride in our accomplishments. Instead of patronising you and tying you to our apron strings we should encourage you in independence and assumption of all the responsibility you can carry. If we really believed in the Democracy we profess we would tolerate the minimum of paternalism and encourage the maximum of initiative and self-determination.

How then do we stack up in practice? Not very well!

In the five years I have been here I have been increasingly impressed by the tremendous activity of the student body and equally impressed by the irrelevance of that activity in terms of, not only the important issues of the day, but the needs of this country or the professed goals of our educational system. You are so immersed in rushing about from one form of organized activity to another that you have hardly time for study. It is the proud boast of many that they don't have to start studying before February and if you are really bright you can get by by digging in in March. But so much of that activity adds nothing whatever to your stature and is surprisingly childish in relation to the important role you should play in Society even as University students.

True, not all your activities are childish or irrelevant. Some of your interests are on a very high and noble level: your work on behalf of the students of S.E. Asia, the work of I.S.S. and the S.C.M., in Art and Music student activities in this University are excellent and compare more than favourably with the achievements in this field of any other University on this continent. But these are not the things that absorb most of the students most of their extra-curricular time.

Our summer in Finland last year was an object lesson to me in what students properly trained for democracy and initiative can accomplish. In that poor and brave little country the students have traditionally not only run their own extra-curricular activities, owned and operated their own student Unions, but built and operated their own residences and run their athletics and student choirs.

This winter we were visited by a Scottish student debater from Glasgow University where the Student Union is owned and operated by the students largely out of beer and liquor sales. This no doubt would be a shocking idea in this community but who will deny that the Scots have more common sense, independence and initiative than most other people.

Here, on the contrary, we have the strange spectacle of students being too uninterested to take part in the active running of such institutions as Hart House in which the constitution is exceedingly democratic, and we clamour for student participation but are meeting with increasing student apathy. This apathy is directly reflected in the rapid decline in student participation in Hart House elections. Thus in the past four years the percentage vote has dropped from twenty-seven per cent of the student electorate, which was small enough, to fourteen per cent this year. To what can one attribute this growth in apathy? There may be a number of factors, but I suggest one of the principal ones is the fact that the student at this University is torn between the various forms

of organized activity; the programmes of Hart House, the S.A.C., the Colleges, Fraternities and Faculties until he has become increasingly a follower, a listener, a spectator with no time or desire to take responsibility or initiative and that I submit is a very serious state of affairs in a country like Canada with its magnificent opportunities and frontiers crying out for men of imagination and initiative.

What is the remedy? I do not suggest the remedy is easy, because I do not believe that regulation and re-organization are the best means of solving matters which involve attitudes of mind and deep-rooted complacency which is one of our main barriers to any change here.

But let us at least become aware of our opportunities and our failure to exploit them to the full.

Take the opportunity in student initiative and democracy within Hart House. Few students realize its possibilities. Its constitution is the most liberal of any student Union on this continent. The Warden is only Chairman of a Board of Stewards on which students are in the majority, and is not constitutionally possessed of a power of Veto. As a matter of fact like so many British constitutions the one in Hart House is illogical and almost impractical—but it works as long as all those concerned want it to work. According to this constitution the Board of Stewards is responsible only to the Board of Governors of the University and the Warden must presumably carry out the will of the Stewards. But the Warden is also responsible to the President as an officer of the University and presumably should carry out his policies and wishes. Constitutionally therefore, the Warden is forced into the position of serving two masters. In practice, needless to say, he seldom has to face this dilemma. But it does happen that the Stewards do over-rule or disagree with the Warden, and that is a good and important thing for training in responsibility. I do not believe you can train people for democracy successfully unless you are prepared to trust them with responsibility. Every time you use the strong arm of authority you inevitably undermine confidence in self-government and assumption of initiative and responsibility which this implies. One of the better letters I received from a student, or rather my wife received from a student, suggested that one of the things he found wrong with her husband is the way he always assumed he was right and he supposed that this came of having too many "yes-men" around him in Hart House. As far as the staff is concerned that is not true. But as far as the students are concerned I must admit I have been surprised at the ease with which they accept direction. I am not preaching rebelliousness for rebelliousness' sake; or intolerance or arrogance—but I do admire and like to find that independence of mind, that unbending devotion to principles which I think are the hall marks of a good University man.

That is why I think an independent and free University paper is so important. Free to criticize and free to laugh and ridicule—in this age of twilight of all freedom let us preserve and cherish this essential freedom.

When it comes to the actual programme of Hart House as compared with the programme of S.A.C. they are based on extremely different principles. The one in Hart House stresses the importance of the University Community: the teacher, the student and the alumnus working together. The S.A.C. stresses student initiative and self-reliance. I am not prepared to judge even after five years which is the better and more important approach. Hart House has the advantage of better planning, continuity, more business-like records and methods of procedure but I often feel we secure these advantages at a very high price: loss of student initiative. I do not think there is any doubt whatever that student initiative on most Hart House Committees is dampened by the presence of faculty chairmen, staff advisers, a set system of procedure. The student feels cramped or else he soon realizes that even if he does nothing there is always the Warden and his staff to carry the ball.

However I am not prepared to adjudicate between the two systems. All I do suggest is that I doubt whether it is educationally sound, or in the long run practical, for the University to afford the luxury of both competing systems along with the College, Faculty and Fraternity programmes.

For the time being my purpose has been to eliminate unnecessary competition and to co-operate with both the S.A.C. and the Colleges to the maximum extent possible. May I say that we in Hart House appreciate the most friendly co-operation we have always met from the S.A.C. and our friend Alec Macdonald. Our mutual situation is such that rivalry between Hart House and the S.A.C. could easily grow and develop into hostility and empire-building most detrimental to the University as a whole. This has not occurred and is not likely to occur as long as both bodies are determined to work for the good of the student body as a whole and the University as a whole.

This year we extended our experiments in co-operation in several important directions. I own that when I first heard of the Blue and White Society's project for "cultural" football dances in Hart House I shuddered. But afterwards gladly admitted that they were a most successful experiment, extremely worthwhile, beautifully organized—and cultured.

In the development of the Caledon Farm, upon which I placed high hopes, as an area where students would have real scope for imaginative enterprise in a really Canadian setting, the co-operation and initiative shown by the S.A.C., including the co-eds, has been invaluable and has given the project a new lease on life this year.

We are now facing an important area of possible mutual co-operation in the field of University

Debating. I can not accept it as sensible that in a period when all of us face the problem of dropping revenues and increasing costs, the debating organizations on this campus should enter into competitive spending on sending more debating teams on tour to other Universities than we have ever done before. If this is a competition in prestige between Hart House and the S.A.C. then I condemn it wholeheartedly without any attempt to apportion blame. I am sure common sense will prevail and the student officials concerned will settle this issue with due regard for the student body and the prestige of the University as a whole.

Returning to Hart House and the functioning of its Committees I do not think we should accept the view that student initiative must remain at a comparatively low ebb because of our system. I have little faith or respect for system—any system to be useful must be flexible. We can and should experiment with giving students greater responsibilities and scope for initiative on our Committees. Let me cite one such experiment.

Two years ago we were faced with the problem of replacing the conductor of our Glee Club. Dr. Peaker was hard to replace for he had been one of the most prominent musical directors in the city, extremely experienced and popular with the students. There were a number of candidates for the position—one or two with considerable experience. On the other hand I knew that some of the students wanted one of their own number, a man who had just graduated, to be given this position. It seemed important to me to try to put our faith in youth for a change, so we asked Ward McAdam to take over and for a year the Glee Club operated even without a faculty chairman. The esprit de corps, the initiative and energy developed in that club in the last couple of years have been quite remarkable. This year faced with financial stringency they worked harder than ever, gave outside concerts in order to pay for their exchange visit with Rochester University and are as fine a club as Hart House has ever had with regard to quality and better than I have ever seen it in terms of discipline and co-operation among its members.

What about the relation of Hart House to the perennial problem of the Student Union or women using the House? First of all let us glance at the very controversial question of men and women in extra-curricular activities at a University: whether it is educationally better to have them do all things together, as is claimed by more and more institutions and educators on this continent, or is it better to reserve certain areas where men and women can do things apart.

Last spring I was showing the famous author J. B. Priestly around the House and he said: "I am so glad you have Hart House reserved for men only." And I said "I am suprised to hear a radical like you say that." He replied: "I have always thought that at a University a certain degree of separation of the sexes is important because this whole business of sex is very much a matter of proximity and the more they are together the less they can think of anything else and at a University it is important that they should think about other things."

That is putting it rather bluntly but on the whole I agree and consider it very important that certain areas should be reserved for men and women to meet and discuss and do things separately. But is is also very important that many things, and some of the best things at University, they should do together. Now there is no donbt that men in this University boast of far greater facilities than women or co-educational facilities. It is not a good balance. But how it is to be remedied is largely a problem of economics. How much can the University and the student stand? I am willing to wager that if you add up all the fees for extra-curricular activities paid by a student here: the Hart House fee of $15.00, the faculty and college fees and the year fees, the total far exceeds the cost of extra-curricular activities in any of the major Universities on this continent. Few realize that Hart House has only been able to stay out of the red due to a substantial grant from the University which now exceeds $30.000 a year.

If the Colleges insist on developing a co-educational extra-curricular programme, if Wymilwood becomes a Women's building, then I am sure that both economically and educationally it is not feasible to have both Hart House and a Student Union at this University and the sooner these issues are faced squarely and realistically the better it will be for all concerned.

In the meantime our Deed of Gift is flexible enough so that as long as we preserve Hart House as a purely men's club in spirit we can go a long way in co-operation with the S.A.C. and the women of this University in declaring special occasions to enable both men and women to enjoy the good and important things we have together. That is exactly what the Board of Stewards has been doing in the last couple of years and this method is not exhausted yet.

And finally I come to the problems of Hart House Staff and Hart House finances. To many business executives these problems are inter-related under the heading of—Overhead. To me that immediately suggests the wrong approach and the wrong emphasis. The emphasis should be on the Human factor. I am quite certain that any institution whether in business, or Government and more particularly an educational institution, which places its reliance on organizational charts or systems and treats its employees as mere cyphers is not essentially efficient because all efficient organization, whether in peace or war, Government or business, depends primarily on personal relations and effective team-work and you cannot get effective team-work if you treat people as

cyphers. I can say without hesitation that one of the most rewarding experiences in my Wardenship of Hart House has been working with as devoted and co-operative a team as you have in its staff. It is a condition I can take no credit for— the personal relations developed here were one of its principal and most valued traditions.

Let me translate this devotion into practical terms. By Christmas it appeared fairly obvious that we were facing a disastrous year financially. It was not merely the fact that our revenues had gone down as expected and costs were going up above expectations, but our custom in the Great Hall had fallen for some inexplicable reason so seriously as to threaten us with a huge deficit. In fact the numbers eating in the Great Hall dropped between thirty and forty per cent below the figures last year with a student registration only five per cent lower.

I am happy to report that the crisis was averted and in spite of a loss in our Food Service we shall still meet our budget. How was it done? The answer does not lie with the Comptroller alone, who happens to be a Scot and has pulled some extraordinary rabbits out of the hat. It was accomplished largely by extreme economies and co-operative efforts of a loyal staff in all directions. For instance, when the Food Service Staff were appraised of our difficulties a third of the whole personnel accepted voluntarily, holidays with no pay at Christmas, thus saving the House a considerable sum of money. Where in modern industry could you get such an example of loyalty and devotion—to accept a voluntary cut in your pay cheque at Christmas to help their employers?

A great deal of our improved financial position has come from the operations of the Tuck Shop and Lunch Room where we were forced to reduce staff since last year in order to make more money. It has meant more work for Mr. Marshall and Mr. Lefeuvre and their assistants. But all who have had anything to do with them know that they work down there with the same zeal as if they were in business for themselves and anxious to please their customers. This House owes them a real debt of gratitude.

The fact is we have no time servers here. All and everyone of them from the Comptroller down are keen and interested in their work and anxious to help you and help each other in every way they can.

And now before closing it gives me great pleasure to do honour on your behalf to the man who, with Burgon Bickersteth and Roy Gilley, must share the responsibility of making Hart House an educational institution whose real source of strength and whose most valuable tradition lies in its human relations. I refer to the Comptroller of the House, Mr. Rae Cowan, who is this year celebrating his twenty-fifth anniversary with Hart House. To save him embarrassment I will cut my remarks about him short, but this you must know if you do not know it already. I have seldom met a man who is so sincere in shunning the limelight and who is more ready to give a helping hand to all who need it. As a good son of Scotland he is even tighter with the funds entrusted to his care than he is with his own. He is a man of peace but will bend to no man when he fights for a principle in which he believes. As a colleague and friend his loyalty knows no bounds. This House and this University knows no better servant and I hope they will know how to appreciate the services of men of such calibre for they are indeed rare in our generation.

On your behalf and that of the Board of Stewards I now present Mr. Cowan with this Illuminated Resolution which has been prepared and framed for him by Mr. John Barnes, Graduate member of our Art Committee. With this Resolution go our warmest thanks and best wishes for many more years of useful service in Hart House.

Cross - Section

CROSS-SECTION '52 will be the third annual publication of the Architectural Society. This year's editorial staff is attempting to follow its predecessor in making the '52 edition something more than the usual conception of a yearbook.

In addition to class news, sports events, and Float Parade photos, which are common to all publications of this nature, there are many other fields which present interesting material for the editors.

Our students have been stung by the renaissance bug for travel. The conversational hum in the fall is punctuated by happy anecdotes ranging from Mexican bull fights to the Festival of Britain. This wander thirst has so taken root that one of our travelling scholarship winners has not been seen since he left for Europe about two years ago.

Besides photos and sketches from abroad, our ten day sketch camp at Dorset Forest Ranger Camp near Minden, Ontario, provides ample material for publication. Our only regret regarding this and the rest of the magazine, is that we cannot reproduce sketches and photographs in colour which is so much a part of school life.

One of our greatest joys comes from the quality of architectural models and drawings which are requirements of design presentation. Personal pride and a friendly spirit of competition always turns a call date into a hectic day of expectancy and utter exhaustion.

It is the photographs of the models, the anecdotes of travel, and discussions from emminent visiting architects, which make CROSS-SECTION interesting not only to the student, but also to the layman.

For the first time in its four year history, the Southam Trophy came to The Varsity. It is awarded at the annual conference of the Canadian University Press, for general excellence in a college newspaper above three thousand circulation. The judges commented that The Varsity showed a good balance and a competent general coverage presented in a lively fashion, that the paper was literate, mature, and almost "too adult".

This has been a year of innovations, precedents and resignations. (1) Barbara Browne became editor and Elinor Strangweys managing editor, following the resignation of Jack Gray in the fall, to establish a new precedent—four of the five members of the senior editorial staff this year were women. Charged with "shockingly bad taste" and breach of contract the editor, supported by her staff, resigned over the "humour" issue . . . (2) Responsible for a special series of features on campus personalities, Pearl Parnes, Feature Editor, helps Murray Watkins, staff mortician, deliver up one of her "Campus Profiles" to the relative posterity of The Varsity Morgue . . . The paper was hard hit by the streetcar strike in January. Deadline was moved back two hours at which time staff and copy climbed into a truck bound for Oshawa and the printing plant to insure that The Varsity comes out as usual. (3) Makeup Editor Marg Welch is shown at Oshawa taking a late story over the phone . . . (4) Movie Editor Frank Moritsugu ponders over a grammatical originality in his Balcony Viewpoint column as pointed out by Science Editor Jim Anderson. Moritsugu also contributed a full length feature article, one of the several to be instituted this year . . . (5) Assistant Harold Nelson and News Editor Ian Montagnes are shown discussing the details of a news story, that they are assigning, to two senior staff writers.

A YEAR OF FIRSTS

The Varsity has been a special issue sort of paper this year. Besides covering the Russian student visit controversy, The Varsity put out the Manitoban Issue, which helped the paper win the Southam Trophy, the well-received Education Issue, the Trinity centennial issue as well as such old standbys as the literary issue and the homecoming issue. The "humour" issue resulted in the suspension of the paper and the resignation of the editor. The most notable precedent that The Varsity set this year was to transfer the editorial page from inside the paper to the back page. It was hoped that this change would prompt greater interest in this department.

(6) One of the most popular additions to The Varsity was the regular series of cartoons that appeared daily over the editorials. Shown poised with pen in hand, ready to produce another masterpiece is the staff cartoonist Hugh Niblock being watched by CUP Editor Ralph Wintrob . . . (7) For those who wished to be amused The Varsity began a regular series of weekly Entertainment Pages containing articles of general interest, reviews and a callboard of forthcoming cultural events in Toronto. Music Editor Chris Helleiner usually held David Peddie, Drama Editor, in check long enough to get the paper out. Peddie also contributed to the daily Balcony Viewpoint column . . . (8) For the literates The Varsity established a weekly book page edited by Anne Carnwath, shown with her assistant Elinor Bernstein . . . (9) About the most sober group of hard working editors this year was the ever-dependable sports staff. Here Carol Logan, Women's Sports Editor, and David Rotenbergn, assistant sports editor, are shown having a chat about punctuation with Sports Editor Mal Crawford . . . (10) Responsible for the increased number of pictures that The Varsity was able to use due to the use of plastic cuts were Fraser MacKintosh, (1) assistant, and Ted Sparrow, photo, editor shown checking cuts. Trinity University Review Editorial Board.

Trinity University Review

IN THIS, the Centenary Year of Trinity College, *the Trinity University Review* performed its time-honoured function of providing students of the College with an outlet for their literary libidos. Modesty forbids that we of the Review Board extol the merits of the young Lampmans in our midst; candour compels us to set down the verdict of our best friend and severest critic, the Book Review Editor of *The Varsity*. With a sense of critical integrity rare in this day and age of superficial cavilling, *The Varsity* critic gave our poetry "at least two readings", and a natural critical insight did the rest:

> *Perhaps we could call them the Metaphysically Anguished School of Poets, and divide their poems into two main types, the I-wander-lonely-as-a-cloud poems, and the God-poems . . . . we cannot refrain from commenting on the "search for something or other" theme which permeates REVIEW poetry . . . the Great Search is too much for us.*

"But not for us," we cry, we who are eternally dedicated to the unending search for spiritual truth. Excelsior! To the metaphysically anguished barricades, citizens!

The search for truth, however, cannot always be carried on in those lofty realms where only poets and critics dare set foot. The truth that lies imbedded in the hard and flinty rocks of present day existence was mined in essay and story; past truth was quarried and set down for a life beyond life in the pages of the Anniversary Issue of *the Review*.

Thus have we maintained the Great Tradition, thus have we mirrored fearlessly and courageously the defeats, triumphs and contortions of the questing spirit in our time.

THE staff of *Toike Oike* has enjoyed itself again this year producing, as usual, the ultimate in literary masterpieces. Four issues, in magazine style, have reached our public's eager hands. Published every now and then, and especially when the Engineering Society Executive felt that a plug for some major event was imperative, these milestones in journalistic progress have sent Skule morale rocketing, and have affected morals only slightly—Skulemen being what they are.

The green Freshman issue, at the beginning of the session, brought guidance and hope to the class of 5T5. This was accomplished with new and sound editorials, a little history, welcoming addresses, poems, welcome addresses, jokes, welcoming addresses, maps and inside tips to help the stranger start off on the right side of night and day life in "Hogtown", and of course, the usual welcoming addresses.

The red Skule Nite edition (which came out in a fashionable manner—days after all the Skule Nite tickets had been sold), carried on very well in the firm tradition established by the first edition.

"Ditto" describes the third edition quite satisfactorily, and if you've read it yourself, no further comments are necessary.

The final (The Lord be praised) edition is now being pressed and rumour is that it will most certainly be straightened out by the time that studying for Journalism exam becomes necessary.

Anyway, with April 1952, another historic year has come to a close, leaving us with several unprinted articles of interest—all of the uninteresting articles have been faithfully published. And anyway, no Skuleman wants to read unprintable literature.

This is the last that you will hear from *Toike Oike 1951-52.* The staff, after duly considering all of its difficulties, wishes (in the absence of any real evidence pro and con) to congratulate the Staff on their brilliant showing.

Congratulations also to Doug Christie on his acceptance of the exalted title of Editor for 1952-53. We weep for him, especially since the old files are so threadbare that new material will have to be scrounged from some, as yet undiscovered, source.

In any case, TOIKE OIKE FOREVER.

Hya Yaka

THE 1952 edition of the official publication of the Faculty of Dentistry marks the forty-eighth year of continuous publication. We are proud of the fact that each succeeding edition is somewhat less tardy in its appearance. The ultimate will be reached when the graduating class, for whom the publication is primarily intended, will receive their copies before interest in undergraduate activities has waned. The current issue resembles its predecessors. This implies that we feel that we have hit upon a good thing.

If *Hya Yaka* fails to compete with the foremost literary magazines of the campus, we may be unambitious. Admittedly our product may be little more than a glossy variety of the college yearbook. It boasts of pictures, biographical sketches and write-ups of class activities. We aim to print material which will be of permanent interest. We estimate the measure of our success in that copies never go unclaimed and that none end up in the wastebaskets of the Common Room.

The editor wishes to thank the members of his staff and the student contributors who made the magazine possible. May success attend the efforts of the Graduates of '52.

Arrival

Royal

At three minutes past noon Her Royal Highness Princess Elizabeth and Prince Philip were officially greeted by Chancellor Massey, President Smith and Warden Ignatieff.

Many changes have occurred within this small group pictured on the Hart House steps. Elizabeth has ascended the throne, Chancellor Massey has been appointed Governor General, the Queen's representative to Canada, and the University was shocked to learn of the untimely death of Warden Ignatieff on the night following his address to the Hart House Committee Dinner.

HIS EXCELLENCY, THE GOVERNOR GENERAL OF CANADA

The Right Honourable Vincent Massey, C.H.,B.A.('10),M.A.,LL.D., D.C.L., Chancellor of the University, who became Canada's first native son to be appointed Governor General of Canada. This historic event took place in Ottawa on February 28th, 1952.

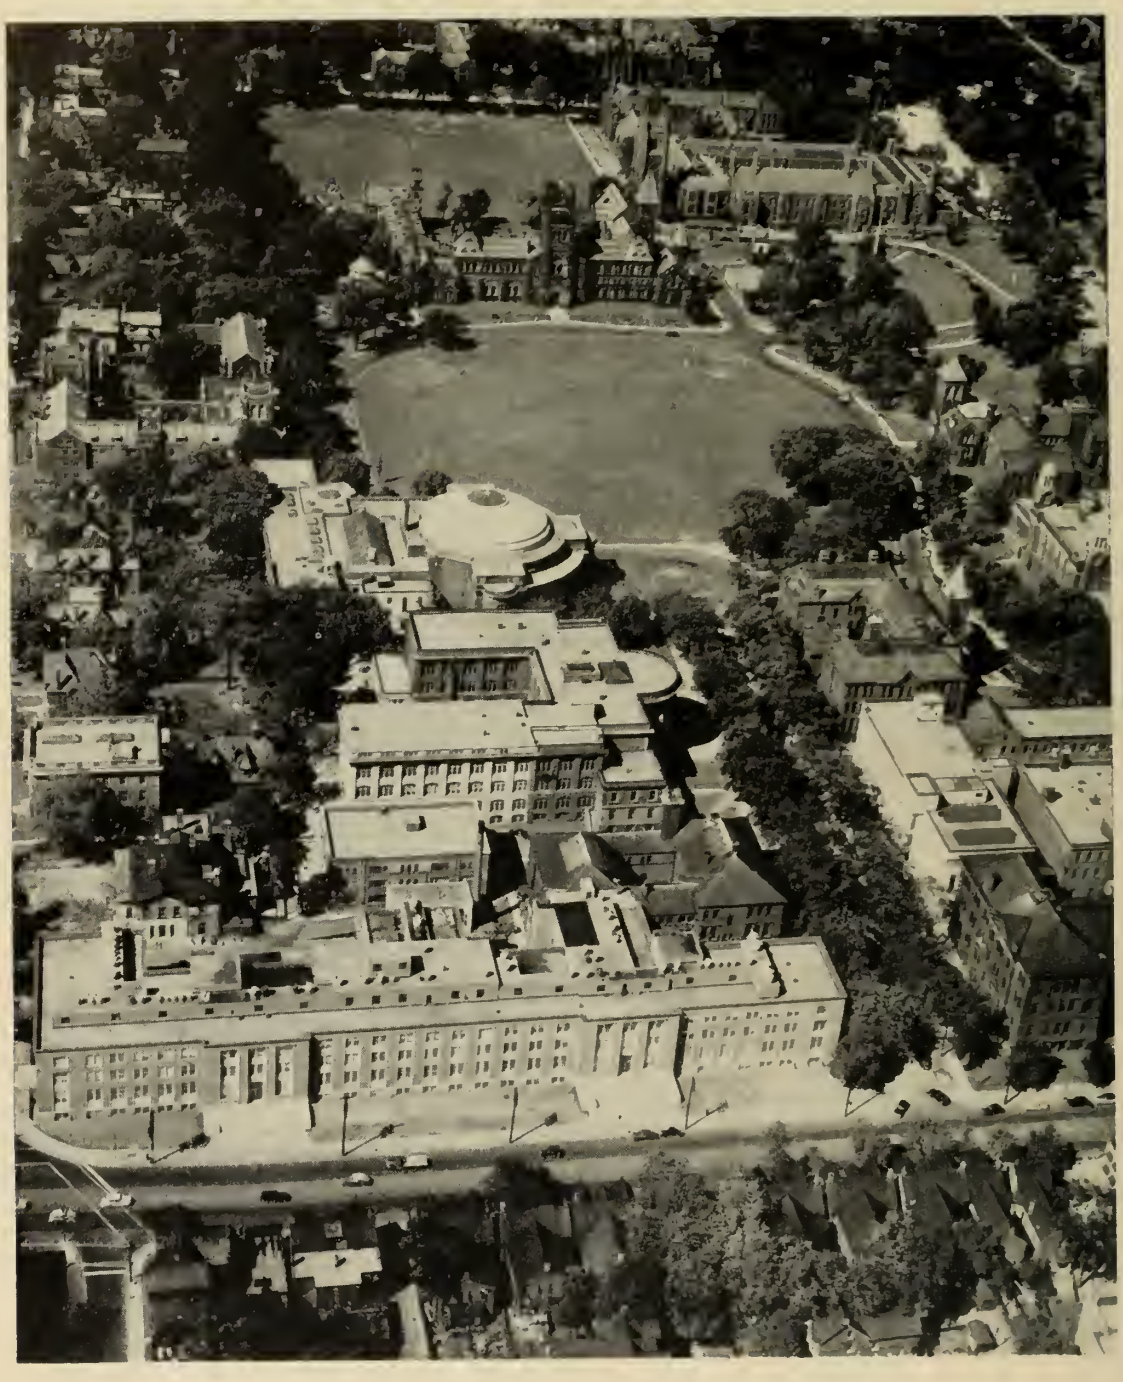

The Honourable Lester B. Pearson
O.B.E., B.A., ('19V), M.A., LL.D., D.C.L.

Chancellor of Victoria University

On February 4th, one of the University's more illustrious graduates returned to serve his alma mater when the Hon. Lester B. Pearson was installed as Chancellor of Victoria University. Mr. Pearson is a member of the class of 1919. In addition to his undergraduate days at Vic he has also served as an instructor and assistant professor in the Department of History.

As Mr. Pearson dons the Chancelor's gown he is assisted by Prof. Woodside, Victoria Registrar; Principal Bennett, Victoria College, and Principal Matheson, Emmanuel College. At the extreme right stands Mr. Leopold Macauley, Chairman, Board of Regents.

THE 1951-52 Students' Administrative Council and its Committees have passed through a year of intense activity marked by a series of crises of one sort or another.

The regular Council services all functioned smoothly and efficiently. The Housing presented less of a difficulty because of decreased registration Employment services for both men and women offered many excellent part-time and summer job opportunities. The Loan Funds offered welcome financial assistance to many students who needed extra funds to get through the year. The Council's two entrance scholarships were again won by students from northern Ontario.

The Student Service Committee organized a Red Feather collection, amounting to $1,244.47, established a Translation Bureau, sponsored a Blood Donor drive for the Red Cross, and operated a $10,000 Student Book Exchange business.

The newly formed External Affairs Committee, on trial for one year, has now been formally included in the Constitution of the Council. This Committee combines the work of N.F.C.U.S. and I.S.S. (now W.U.S.) on this campus and organizes exchange visits such as the Carabin, Laval, and Caledon weekends. The fund-raising campaign was also under this committee and was known as S.H.A.R.E.—a continuation of A.V.A. in objective but denoting the cause more clearly, Student Help for Asian Relief and Education. Over $6,000 was raised by personal canvass.

The Council continued its interest in the international aspect of N.F.C.U.S. this year, the Council President, Syd Wax, being the International Activities Chairman of that body. Funds being provided by outside sources, Syd rivalled the Flying Dutchman as he flew to the Edinburgh Conference during the Christmas vacation and even got as far as Prague (where the weather forbade a landing), and then in January went "Flying down to Rio" to attend a Pan-American Student Conference. From all of these he brought back most informative reports.

The Blue and White Society had another busy year. The football weekends, Homecoming (including the Stadium Show and Float Parade), the Art-Gallery night and the Christmas Tree all were most successful. The latter was held in the Great Hall in Hart House for the first time and everyone enjoyed the informal and truly Christmas atmosphere.

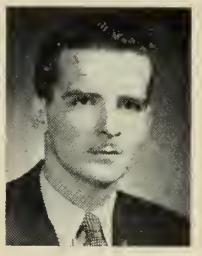

The Radio Committee after a difficult start, arranged round table discussions over CKEY, and radio dramas be the various college dramatic clubs over the Ryerson F.M. station. A volunteer committee working with the backing of the Council Radio group, drew up constructive plans for a campus radio station which are being considered by the Caput. The Music Committee again sponsored two concerts of the University Orchestra and Chorus as well as several Carnegie record hours each week.

The All-Varsity Revue was revived after a year's absence and in spite of postponement caused by the King's death, managed to put on five excellent performances.

The U.T.D.U. had an extremely successful year, organizing two tours to American universities and one to Canadian, as well as sponsoring a number of debates on this campus including the highly successful Brading Trophy debate with debaters from Scottish universities.

The newly formed "Coordinating Committee" sponsored a limited programme of Freshman Orientation which is to be expanded next year. The student Union Committee again suffered considerable frustration and little progress was made because of lack of funds.

One unpleasant problem which faced the Council during the year was the vandalism on Hallowe'en when a number of buildings were painted. The Executive Committee investigated the question and while unable to find the culprits, took action to cancel the Pep Rally planned for the next weekend.

The Publications Commission faced a succession of crises and handled them very ably or very clumsily, depending which side you were on.

The first problem was the editorship when it was found that the editor-elect was academically ineligible to register as a regular student. His resignation was accepted which resulted in a sort of Varsity matriachry being appointed, the Editor, Managing, Makeup and Feature Editors all being women. On the whole an extremely good *Varsity* was produced and

it was most regrettable that the year ended in an explosion. This was caused by the second last issue which took the form of a "humour" issue. The Publications Commission objected to the tone of some of the material and held up publication of the final issue until the Council could meet. The Council upheld the Commission and most regretfully accepted the resignation of the Editor. The final issue of the year was therefore edited by the Publications Commission and offered an explanation of the situation to the student body.

The final meeting and dinner of the new and old Councils was held on Tuesday, March 25th. and for the first time took place in the graduate dining room in Hart House, thanks to the kindly interest of the Warden. After the meeting he and Mrs. Ignatieff joined the members for an hour and all those present will treasure this happy memory of one who was always such a true friend to each and every undergraduate.

University College Women's Undergraduate Association

THE Women's Undergraduate Association directs all the activities concerning the women of University College, and cooperates with the Literary and Athletic Society on such joint activities as the UC Follies, the Arts Ball, and Red and White Nights.

The new year was ushered in with a Freshie weekend, with dances, dinners, and parties designed to introduce the freshie to college life. Open meetings throughout the year provided interesting speakers, and permitted the discussion of important issues, such as the Russian student question, as well as matters of WUA policy. The Association decided to support the Student Help to Asian Relief and Education campaign, and voted a sum of money to this purpose. Money was also donated for prizes in the very successful Undergrad Art Competition.

The Portia Debates, starting in November, gave UC women a chance to develop their skills as public speakers, and attracted a large number of debaters, especially from first year. Interest in the Portias was aroused by preliminary debates which gave newcomers the necessary experience.

In the field of athletics the women's softball team won the University championship, and three UC girls were on the championship intercollegiate tennis team. New athletic trophies were obtained for tennis and badminton.

The many and successful joint activities made this year memorable: the well-attended Soph-Frosh Banquet, The UC Parliaments, the Grad Banquet, the UC Freshman Orientation Tea, the Undergrad, the Arts Ball.

The Trinity Board of Stewards

THIS year the main concern of Trinity College has been its one hundreth anniversary. Two members of the Board of Stewards served on the College Centenary Committee. This provided the student body with participation in the planning of Centenary events, as well as with participation in the events themselves. Moving on from the Service of Thanksgiving in St. James' Cathedral, our celebrations have included the Students' Centenary Dinner, the Centenary Conversazione, the Centenary Concert, guest speakers, and a week's performance of Trinity's own "Saints' Alive". The student body is well pleased to have had such a prominent part in celebrating Trinity's one hundredth birthday.

Most of this year's college meetings were held at noon. They were very well attended, and combined good amounts of fun and frivolity with serious mature discussion. The most time-consuming item on the agenda was the question of the "Russian Visit". The matter was discussed so fully that three college meetings were necessary. A rival for time on College Meetings agendas was found in the form of the mythical "Al Jones" who was nominated to various positions and was dearly beloved by all.

ST. HILDA'S COLLEGE COMMITTEE, consisting of the resident and non-resident heads and assistant heads of each of the four years, together with the S.A.C. representative, that is, a total membership of seventeen, is the executive council of College Meeting, the governing student body of St. Hilda's. Three members of the College Committee, the resident heads of the three senior years, are the Chairman, Secretary, and Treasurer, respectively, of College Meeting. Besides fulfilling its function as a governing undergraduate council the College Committee has a second purpose, that of providing a closer connection between students and staff. Regular meetings with the Principal of St. Hilda's insure harmonious joint administration of the College by undergraduates and staff together.

THE SOCIAL ACTIVITIES sponsored by our executive commenced with the "get acquainted" party on opening day at 415 Yonge St. and were climaxed by our annual "at-home" held this year at the Club Kingsway, on March the 6th.

An embryo of a "Loan Fund", to help the more needy undergraduates was started this year. It is the sincere hope of this executive that this fund will germinate into something worthwhile.

The retiring executive extends congratulations and best wishes for a successful year to all members of the '52-53 executive.

St. Michael's College Students' Administrative Council

As this is St. Michael's College Centenniel Year, this year's Students' Administrative Counеil had its hands full, not only of the routine funetions of the undergradnate life, but with the speeial events due to the Centenniel.

Starting this momentous year, the Council attempted something new in the college—a Freshman Orientation weekend. Although it was not as eomplete a programme as one would hope for, it certainly showed the way for future Counеils.

Of eourse, orientation was not the only thing to whieh the Frosh were subjeeted. Paul Dooling and eohorts gave them the traditional initiation, ending with the Frosh party in Brennan Hall.

While all this was going on the other soeieties sponsored by the S.A.C. were getting under way (at least they all eame down and asked the Counеil for some money!). M. & D., the Freneh Club, the Oratorieal Soeiety, the Senate, and the Glee Club were all setting sights on big years.

The Counеil also had some big plans of its own. The *MIKE* beeame an institution, due in no small measure to the work of the eo-editors, Frank Ohmstead and Nick Treanor. The Christmas Danee was one of the nieest and finest danees ever seen on the eampus, and for that, many thanks, Don. And then there was the "Centennial At-Home". Will it ever be forgotten? Julian and Julie—what a team! We may have lost money on the danee, but it was the best ever.

Quite naturally February brought out the politieos, and an almost bloody eampaign was waged. However, the turmoil was brought under almost immediate eontrol by the Annual Retreat.

And then there was the eoup de graee, the Arts Banquet, where the Prime Minister, Louis St. Laurent was the guest speaker.

About this time the burden of extra eurrieular work was shorn in favor of the more aeademie side of the eollege life, and before anyone knew it, it was May and the end of the school year.

It was now June, and the Centennial Class, the Class of 5T2 was walking across the Front Campus into the future. And to that elass we say, "Good luck, and God-speed".

And to the Counеil of 1951-52, to Paul, Bud, Don, Jud, Julian, Robin, Paul, Paul, Tom, Joe and Fr. Dorsey, we say "Thanks for a job well done".

St. Michael's College Women's Joint Executive Council

The Joint Executive Council of St. Michael's College Women was formed to promote the interests and mutual co-operation of the two girls' colleges, Loretto and St. Joseph's. It is made up of members from the Students' Administrative Councils of both Colleges with the exception of the president who is elected independently, and is responsible to St. Michael's College Women as a whole.

Carolyn Gratton was president of the Joint Executive for the past year. She has been very successful in this position, with a consequent benefit to both colleges.

The Joint Executive is a unique council on the university campus and it fills a real need in the students' administration of St. Michael's College.

The Medical Society

THE Medical Society conducts a programme involving the social, cultural, athletic and other general extra-curricular activities of the medical student.

The Medical Arts and Letters Club carried on a programme of debating, speakers and open meetings on topics of general interest. Also included in its activities were the many functions of the Medical Glee Club and the Osler Society. The Glee Club gave a recital in Hart House on February 27th and was well received. The Medical-At-Home was held on February 20th at the Royal York Hotel. Seven Hundred and Twenty couples were present and in every respect this affair was one of the highlights of the University's social season. The dance was well attended by Faculty, undergraduates and graduates alike. The friendly atmosphere, colourful decorations and enjoyable entertainment made this an outstanding evening. The *Medical Journal* was expanded this year to include colour printing and increased advertising. The Journal is considered one of the finest student Medical publications in Canada. This year there was an increase in the number of articles printed and in the contributions by students and staff.

Medical students contributed $360.00 to the S.H.A.R.E. campaign to help students in India, Pakistan and Indonesia. Medical students were again prominent in this campaign. Medical students took up a collection for the Toronto General Hospital Building Fund and contributed $400.00 to this Fund. The Medical Insignia was finally completed and adopted by the Medical Faculty and the Medical Society. The design will now become the official coat of arms for all medical stationery, crests and pins. A Student-Staff Curriculum Committee has been set up consisting of three students, the Dean and the Professors of Medicine and Surgery. It is hoped that this committee will enable students to offer worthwhile suggestions for inclusion in the Medical Curriculum.

Medical Women's Undergraduate and Athletic Associations

THE Medical Women's Undergraduate Association includes all the women undergraduates in the medical course. Rather than any policy of duplication of the medical society activities, this year's executive adopted a more "fraternal" system to link the girls of the different years and to include the women graduates in Toronto.

The freshies of 5T7 were met on registration day and later entertained at an evening party with the graduating year and an afternoon tea with 5T6. Book and note exchanges were arranged and an outline of all campus activities presented. During the second week of term an informal initiation and party took place. and later in October the first premedical year were welcomed into the association at the initiation banquet. Dr. Ruth Franks, Toronto psychiatrist, was guest speaker and Dr. Elizabeth Chant Robertson, the new honorary president, was introduced. A Christmas supper party was held before one of the Daffydil performances where gifts were collected for the University settlement children. In the spring term two round table discussions were held with women graduates discussing general practice and specialization for women in Canada. The feminine section of the new Medical Alumni Association entertained at the Women's College Hospital, providing an opportunity to tour the hospital and to ask about internships. At the graduation party the usual gift spoons were presented to the ten graduates of 1952.

The Medical Women's Athletic Association had a very successful year with teams in baseball, basketball, volleyball and hockey. The Hockey Team won the inter-faculty championship in a fierce battle with P. and H.E. At the annual athletic banquet Medical "M's" were presented to Sally Sarles. Bernice Russell, Annjane Carter. Senior University T's were won by: Irene Hain and Sally Sarles. Charmaine Dunham, Shirley Kyle, Marjorie Platts, Pat Scully, Marilyn Sonley and Beth McCree, were awarded Junior T's.

UP in U. C., they say it's been a quiet year; why the Coeds hardly remember the words to "Godiva". And they may be right. It would seem that many of the extroverts remained hidden behind their books after Varsity played Western. But does this mean that all of the mighty Engineers have been sleeping? - - - - Decidedly *not*.

Even a quick glance through the back issues of *The Varsity* will bring to view a proud record - - - a record of well played sports, of one of the highest per capita contributions to Share, of a good annual election, of a top-notch Skule Nite and Skule At-Home. What 5T2 man will ever forget the Grad Ball?

Many of the 1613 members of the Engineering Society have helped form a nucleus of hard-working habitants of the famous Back Room in spending a little time *thinking* about their Society. After all, this has been the first year of "normal" post-war enrollment, of normal store operations, and of normal financial problems. Out of this pondering has come the first student request in ten years for an Engineering Society and Athletic Association fee raise, motivated by such factors, as the strongly-felt absence of the *Toike Oike* newspaper, and the recent price boosts in the store. Furthermore, the Fall of '52 should see a new constitution ready for consideration.

It's been a year of consolidation, of constructive thought, and of plain hard work; and heartfelt thanks go out to all of those true Schoolmen who have accomplished these ends - - - the Hutchisons, the Coopers and the Spences.

Athough there has been this year a certain degree of lack of personal interest in the Engineering Society, the spirit and the overwhelming enthusiasm shown by 5T3 and the lower years should clear any fears the outgoing executive might have. The future certainly looks bright.

From we who are reluctantly leaving it all behind us - - - the *Toike Oike* the Cannon, the Lady Godiva Memorial Band, the Skule Auction, the Chariot Races, (and the lectures) - - - come our very best wishes to Jack Cooper and the rest of the '52-'53 executive. We think that we have left the Society in good shape and ready to work, and we know that the Academic Session 1952-1953 is really going to hear from Skule. Good Luck!

S.P.S. Permanent Executive

THE Executive has met and has discussed many plans for keeping our class together. We have been together for four years, now and there is a desire to keep in touch with the rest of the class. The fact that we are the last class to have the opportunity of being part of Ajax is an added bond. We are part of those who speak of Hart House, Ajax; the cafeteria; big 'red'; and the 'factory' below the hill; as well as the confidence-inspiring campus of Toronto.

We have gained much from both, and we want to remember them and those who went through with us. The Executive has been guided by this desire to retain contacts when deciding a programme.

The first tie we will attempt to establish, is that of a periodic publication. This publication will be in the form of a news letter, approximately three or four pages in length, outlining the activities of the members. The first of these publications will appear in time for Convocation.

All of the members of the class are asked to write their class representative or to anyone else on the Executive, enclosing information on their location, type of work, marital status, and including any appropriate poetry or amusing incidents.

The Executive is also planning a get-together at Convocation. With the examinations over, and the degree in hand, what better excuse is there for a party.

We are anxious to have your ideas and constructive criticism at any time. This is your class, make it strong!

Full four years have hurried past,
Our gains, unnumbered stand,
So let us try our very best,
And pledge the heart and hand.

S.P.S. Fourth Year Executive

HERE we are, the last of the Ajax gang, at the end of the line (or should it be rope), all ready to set the world afire with the "gen" picked up in four years of labs, lectures and bull sessions.

It seems like only yesterday that we descended upon Ajax, bent upon making the last of the Ajax Classes one to remember. Those were the days; the breakfast line-up, and the rush to be crammed onto the last "green dragon". None will forget the residences, the all-night bridge and bull sessions, the house parties—with women—in whose honour the weeks-long beards were shaven off.

We complained loud and long about Ajax, but when we returned to the Toronto Campus, there was a longing for Ajax present, deep down in each one of us.

In Toronto we became used to fully-equipped labs, daily shaves, Artsmen and even women. For three years we laboured here and finally came to the Grad Ball, and now, graduation.

The Class of 5T2 has been active from the days of Ajax right through to graduation. We have made many friends among our classmates. Let's not forget them and the Class of 5T2. Let's stick together through the years to come.

Dental Students' Parliament

A few years ago the spring of this year seemed a long way off to the boys of 5T2. Well, fellows, graduation is here at last. We know you're happy about it and were, happy for you, but at the same time sorry to see you leave. To you we extend our sincere wishes for success.

This year saw the revival of two activities which have been dormant for some time in this faculty. As first term commenced an initiation programme for the Pre-Dent class was planned and successfully carried out. We hope this will become an annual event. Also, an effort has been made to revive the Royal Dental Society, an organization which aims to bring students, staff and alumni closer together in both dental studies and extra curricular activities.

This fall our Sports Directors did a very creditable job in organizing a golf tournament for the students, staff and alumni, who will agree that it was one of the major events of the year. Our thanks to Dean Ellis for cancelling classes that afternoon thus allowing a larger turnout to a very enjoyable nineteen holes. Our sports were not limited to ourselves however, as Dents teams participated in every major sport on the campus and gave very good accounts of themselves.

Dentantics, although hampered by rising production costs turned out to be a very fine show which everyone enjoyed.

This year's social activities got under way early with a dance at Casa Loma ending the initiation of Pre-Dent, and we are quite sure they enjoyed this part most. In January the Dental Nurses held their Snow Ball, followed by the formal Dent's At Home in February. Both were quite successful. The final fling was held after the elections in March, and with that memorable occasion passed we found that we could only look forward to exams.

Our sincere thanks to Dean Ellis and his staff for their cooperation and assistance in making the 1951-52 term a very successful one.

Law Club Executive

THE Law Club of the School of Law is an extremely vibrant organization for its size. Its main function is to conduct the business of the students of the School, but it also supervises all their athletic and social activities, and sponsors the publication of the *School of Law Review.* This is a completely student-produced magazine which provides a forum for serious legal writing.

The traditional activities of the Club include monthly addresses by prominent persons in legal and other fields, a dance in the fall, and an annual banquet in the spring. There are other less traditional but equally enjoyable pursuits, and one of this year's highlights was brought about involuntarily in a sense. The University Law School graduates are forced to spend an extra year, compared with Osgoode Hall graduates, before being admitted to the Ontario Bar. As a result, our students, goaded on by the firm belief that they were being discriminated against, saw fit to protest this fact publicly. Such activities are organized within the framework of the Law Club.

It is likely that the school will move to Baldwin House, and the Law Club hopes to appropriate one of the rooms in that labrynth for a permanent headquarters. It is equally likely that the enrolment in the school will increase in the near future. These two factors, coupled with the law students' interest in public affairs, promise to produce a Law Club which will play an increasingly important role in student government.

Social Work Students' Association

THE Social Work Students Association is just what its name implies. It's the organization of students at the University of Toronto's School of Social Work.

1951-52 will go down as a banner year. Perhaps most important was the close liaison created between the student organization and the Canadian Association of Social Work Toronto Branch. This liaison was highlighted by a combined meeting held on February 25. 1951-52 was the year when the Public Relations and Publicity Committees got together to interpret Social Work to the rest of the University by means of the Varsity and meetings with other student organizations. It was a year of work and progress.

But it wasn't all work and no play for Social Work Students. There were two big socials, the Christmas Party and the Graduation Ball. Both featured musical comedy tunes sung by a student glee club, who gave Rodgers and Hammerstein, Irving Berlin and Cole Porter the performances they deserve. Besides the two big parties there were several smaller ones.

For the coming year, the Social Work Students Association is preparing to be host to the third annual National Conference of Social Work Students. It looks as if 1952-53 may surpass the past year in activity.

To this year's Social Work graduates, best wishes for good service to the people of Canada.

Pharmacy Central Executive

THIS has been an active and progressive year for the students of the Ontario College of Pharmacy. With the opening of classes in the fall a street initiation period was held for all freshmen. At the end of initiation, offenders were hastily convicted by a "just and discerning court"—no appeals allowed. The freshettes were, as well, entertained at a tea in their honour.

The pride of the Fall season was our float entry in the Annual Homecoming parade. The tremendous support of the students was gratified by the award of second prize.

The Social highlight of the Fall season was the Fall dance held at Hart House under a cascade of bubbles and balloons. To be remembered by the graduates was the successful Pharmacy At-Home held in the Arcadian Court.

We had representative teams in Lacrosse, Hockey and Basketball. Various of our students are entered in other intramural and intercollegiate athletic competition. A football fund has been introduced to raise money for football equipment. The response is great. When properly equipped, Pharmacy will be out on the field bucking and passing its way after the Mulock Cup!

A new society to control student activities has been established in the past two years. The Undergraduate Pharmaceutical Society is composed of the three executive members from each class and a faculty advisor. There is every indication of a strong active part to be played by the society in student affairs. The SHARE and Blood Donor campaigns were given fine promotion.

The diversification of two distinct pharmacy courses has given much "colour" to the character of the society. (Pharmacy will have two undergraduate courses graduating this year and several following years.) We hope to hear of greater things from our undergraduate society in later years.

THE School of Nursing Undergraduate Association is responsible for many of the activities within the School. The Drama, Athletic, Social, Music, and Residence Committees are all part of the Association so that, as well as sponsoring such functions as the School formal and informal dances and musicals, the Undergraduate Association also sponsors the School teams and dramatics. It is this Association which elects the School Representatives to other campus groups and several of these representatives are members of the Executive. Once again the year has been a busy one and this year's graduating class wish the Undergraduate Association success in its work next year.

Physical and Occupational Therapy Undergraduate Association

THE PHYSOTS presence has been felt this year in numerous campus activities such as the Float Parade, the Homecoming tea for the graduates, canvassing for SHARE, and the All-Varsity Revue.

Our social activities began on registration day with a freshmen reception followed later by an initiation dance. We have held four dances at the "huts", combining square and round dancing, which have proved quite successful, but the highlight of the year was our very successful At-Home, where student talent was shown in the entertainment.

P. & O.T. had many teams participating in intramural sports such as baseball, basketball, volleyball, and hockey and have proved themselves worthy of recognition. Another very good Athletic Banquet was held.

And our college life would not be complete without mentioning our very interesting and entertaining undergrad meetings.

73 St. George Street

THE dignified and patinated halls of 73 have successfully withstood the combined onslaught of the elements and university planners for another year. For one more session the mellow atmosphere of the old house has been preserved, fostering the humanities among the fortunate few cabinned within its walls. The best in tradition has been adhered to and other precedents have been freshly set. Last year's examination report revealed an enviable scholastic record and graduates have been broadcast internationally to invigorate and bolster learning in such august institutions as the Universities of London and Southern California. Others have entered the after-life, invading realms of finance, industry and medicine.

Members of 73 have contributed to nearly every activity on the campus. The art circles, literary societies, debating teams, players guilds and sports groups have felt their influence. In athletics an especially strong representation was given. Three basketball teams—the Tigers, the Tiger-lilies and the Tartlets—were formed and individual members were to be found in water polo and on the U.C. and Senior Intercollegiate Soccer teams. Every member of the house participated in the favourite sport "thumb or walk" during the period of economic decline known as the Great Strike. In the house itself, bridge was often indulged in while ping-pong was rigorously governed. On the other hand house-meetings and the tutor's groups enjoyed a renaissance. Social functions, including a party for underprivileged children, were well-planned and highly successful. During Christmas holidays the Princeton boys and other distinguished alumnae of 73 returned to bestow sweetness and light upon gatherings of the present occupants.

In the early spring came the great enlightenment occasioned by the publication of timetables for the annual horrors of inquisition. No longer did unearthly sounds puncture the dewy, still, morning air. No longer did athletes prepare for corporal combat. No longer did bridge zealots emphasize the ineffable delight of finesses with thunderous table-pounding and Mephistophelian laughter. Neither did noctambulators return from adventure and revelry nor Christians debate.

Only the clatter of the solitary milkman stumbling among the empty bottles on the doorstep. The traditional crammers were said to have been suffering from chronic insomnia—as was plainly evidenced by the short periods during which their beds were occupied. Those addicted to the irremediable habit of study were immune.

5 Willcocks Street

A New University College men's residence has started this year at 5 Willocks Street, formerly La Maison Française. With the exception of six freshmen, all of the students were in residence at Holwood Hall in former years. The present residents have shown a unified house spirit and an academic record which promises to excel the old tradition of Holwood. This year's students have been selected for their intellectual integrity, and, while mention may be made of their athletic prowess and interests in other fields such as Drama, Art, and Music, beyond this the men have achieved the primary purpose of a College residence.

1852

St. Michael's College was founded in 1852 when Bishop Charbonnel, a student of the Basilian Fathers in Annonay, France, on being appointed the second Bishop of Toronto, invited his former teachers to open a college in Toronto. Father Soulerin was the first Superior, holding office from 1852 to 1865. He selected the site and determined the style of the original buildings. The Hon. John Elmsley set aside a portion of his estate for the college and upon this ground, the first buildings were erected in 1856. Father John Read Teefy, Superior from 1888 to 1903 played an important role in bringing about affiliation and federation with the University of Toronto. Father Henry Carr, Superior from 1915 to 1925 was the founder and first president of the Institute of Mediæval Studies. The Queen's Park buildings were opened in 1936. Further additions are to be started in the immediate future.

All-Varsity Revue

Under the direction of Jim Guthro, the All-Varsity Revue was undoubtedly the best show on the campus this year. The cream of the talent from all colleges and faculties was poured into one terrific show with a very satisfying result. The orchestra provided music of a calibre that we do not usually hear in campus shows. The sets were also excellent, so, the ideal stage was set for a good performance and that is exactly what the audience got. The show started at a terrific pace which carried it over the usual rough spots leaving all who saw it well satisfied at the finale. This it did in spite of the fact that the show had its ups and downs including finally a possible cancellation which proved to be a temporary postponement.

THE MADWOMAN OF CHAILLOT

Hart House Theatre

EACH season Hart House Theatre presents a series of four productions with casts chosen from all the colleges and faculties on the campus. The October production was the satirical and charming fantasy *The Madwoman of Chaillot* by Jean Giraudoux. In November two one-act plays by Christopher Fry were presented, *The Boy with a Cart* and *A Phoenix too Frequent*. The third production, in January, was George Bernard Shaw's brilliant comedy, *Pygmalion*. The annual Shakespearean production in February was the famous history, *Richard II*.

A PHOENIX TOO FREQUENT

PYGMALION

Each production ran for eight performances and over one hundred students took part under the direction of Theatre Director Robert Gill. Hart House Theatre has proved itself a valuable part of the life of the University. Besides giving students an opportunity to act and take part in the technical operation of stage production, it is also providing an opportunity for the undergraduates of the University and the Toronto public to see plays of high quality and interest.

During the University term the theatre is in constant use. In addition to the Hart House Theatre series, productions of various kinds are presented by seventeen producing groups on the campus.

THE Players' Guild productions this year successfully combined ambitious productions and fine quality performances. The season opened in October with two dramas, J. M. Synge's *Riders to the Sea*, directed by Jack Robson, and Susan Glaspell's *Trifles*, directed by Maureen Irvine. Both were presented in Hart House Theatre as part of the U.T.D.C. one-act presentations.

Next came *Noah's Flood* a miracle play by Don Michel, and Christopher Marlowe's *Doctor Faustus* directed by John Hampsden. The latter play was a full-length production, and was the highlight of the year. It was in fact so well received that it was repeated in January in Hart House Theatre for the U.T.D.C.

THE DOG BENEATH THE SKIN

The January meeting, however showed no let-down in the quality of Guild production, as they produced scences from W.H. Auden's *Dog Beneath the Skin*, directed by Tom Daly, and G.B. Shaw's *The Shewing Up of Blanco Posnet*, directed by Roger Bull.

Finally the year was brought to a close with Edna St. Vincent Millay's *Aria de Capo*, directed by Harriet Thomson.

Professor McAndrew again presented his award to the person, or in this instance to the two people whom the executive felt had contributed most to the Players' Guild activities. The recipients were John Hampsden and Willison Crichton.

The Johnny Copp Memorial Trophy

The 1951 football season will remain long in memories of Varsity fans and team members alike.

If one player was to be singled out as the individual with the happiest memories that person would be Alex Lawson. In his fourth and final year of Engineering the popular and lanky Lawson, whose home is in St. Catharines,—was converted from one of the best ends in the Intercollegiate League —where he starred as a member of the 1948 Yates Cup Champions—into a quaterback, by Coach Bob Masterson—Alex took over the important job calling the signals for the Blues, to go through a victorious and undeafeated season.

His winning of the Johnny Copp Trophy was the crowning success of a great season of play. "Lic's" experience, team play and irrepressible good humour whether things were going well or badly, were an inspiration to the squad throughout the year.

His team mates chose well in naming him "the player adjudged worthiest" for this distinct honour.

Everyone joins in congratulating Alex Lawson, and his wife and baby girl, and wishing them the best of luck in future life when he graduates this spring.

The George M. Biggs Trophy

John Evans, team captain of the 1951 University of Toronto senior Intercollegiate football champions, made history when he was awarded the Biggs Trophy for the second year in succession. Ever popular John, was the unanimous vote for this honour. The trophy is given annually to "the undergraduate who has contributed most to University athletics from the standpoint of leadership, sportsmanship and performance". and was originally presented to the University by the family of the late George M. Biggs, Medicine, 1904. Thus, Evans becomes the first Varsity student ever to win this honour twice, a fitting climax to a model University career for John R. Evans, Meds., 1952.

THE nineteen fifty-one football team had a most successful season. They went through the regular intercollegiate schedule without defeat as was the case in the pre-season exhibition games. This splendid record was possible only through the spirit and enthusiasm of team members and coaches.

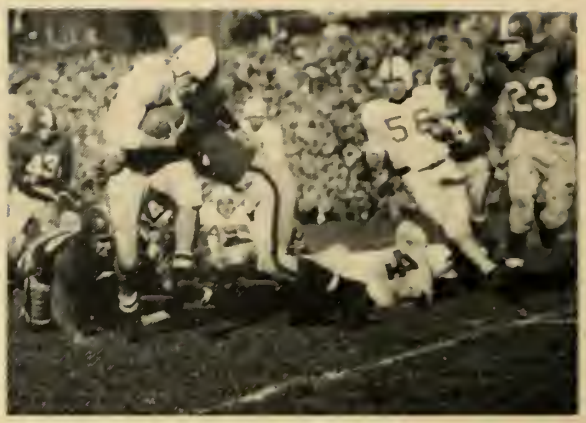

Possibly the greatest single factor which contributed to the winning of the Yates Cup was the tremendously keen team spirit, which existed from the Coaches, Bob Masterson and Dalt White, right through to the trainers. From the first day at Camp until the last minute of the final game, the spirit was undiminished.

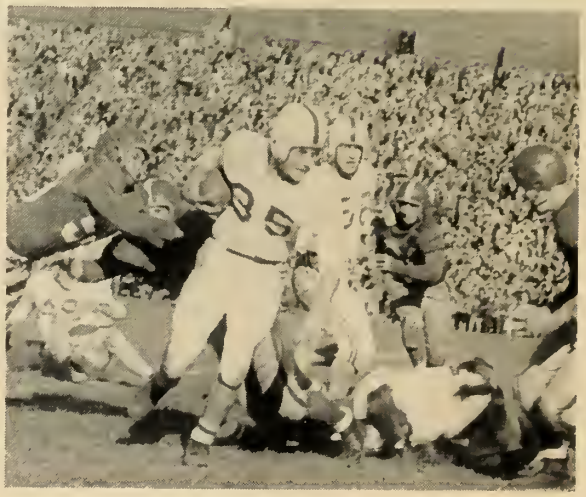

Picking star players or individuals from this team is rather difficult. The veterans from previous years were led by such players as John Evans (the captain) Jimmy Bell, Marsh Hames, Bob Garside, Al Brown and Alex Lawson (John Copp Trophy winner) to mention just a few. In the ranks of the newcomers, Steve Oneschuk (St. Catharines), Bill McFarlane (Hamilton) Bruce Johnston (East York), Bob Dale (Lawrence Park) were among the oustanding.

With so many of the nineteen fifty-one team returning to form the nucleus of our nineteen fifty-two squad, the University can look forward with high hopes to another successful year.

Western 7 - Toronto 16

Steve Oneschuck, Oneschuck, and S. Oneschuck, beat Western 16-7 as the Blues opened the home season. The Mustangs must have thought young Steve was actually triplets as he did everything but sell hot dogs. Also there were the rest of the Blues who made Steve's job easier, but it was his day. The line was all over the field opening up gaping holes for the backfielders and knocking down the Mustangs, even if they did not carry the ball. Bobby Dale Lawson and Haig completely out-thought the invaders and most of the play took place near the Purple and White goalposts. The best tackle of the day was made by a shaggy, black dog who criss-crossed the field before upsetting a Mustang. On the whole, the Mustangs never got a chance to gallop.

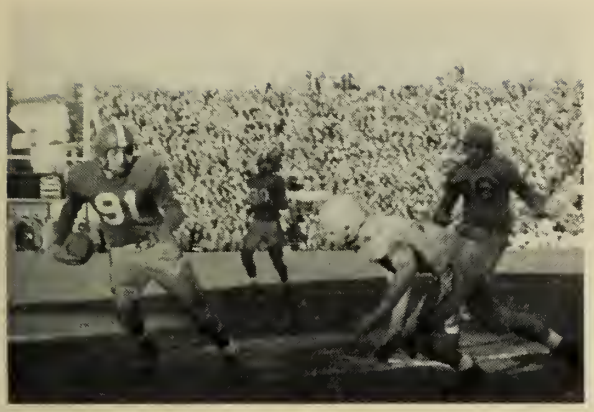

On a cold, wet day, the Mustangs almost upset the old applecart by extending the Blues to a 13-13 tie. The Metrasmen kept the jinx that they have over Varsity on their home field and in doing so, almost beat the Blues. Some of the boys must have been watching Bob Masterson biting his nails or the cheerleaders or both, as they fumbled five times, one of which led to a major by the Mustangs and had a kick blocked, which led to the other touchdown by the Purple and White. Oneschuck, MacFarlane and Bewley again provided the spark on the offense and Bob Garside led the line in holding the foe on even terms.

Toronto 13 - Western 13

Toronto 26 - Queens 2

Bobby Dale ran wild and scored three majors as the Blues trounced Queen's 26-2 for their third straight win. Everything clicked, as the line led by Al Brown, John Evans and Bob Garside, completely bottled up the Gael's attack on the ground. When Queen's started passing, Varsity blanketted the area with a terrific pass defence under Steve Oneschuck. The same Oneschuck showed some of the finest running that the Blues have produced for lo, these many seasons, and continually bulled his way through for large gains. The important factor, however, was that although there were many individual standouts, the Blues functioned like a well-oiled machine, especially with their letter-perfect blocking.

With the entire line holding off a desperate Queen's onslaught throughout the four quarters, Varsity turned back the Gaels 15-7 before a packed crowd at Varsity Stadium. Steve Oneschuck, before he was hurt, and Bill MacFarlane ran wild, when the blocking was good. Tony Adams' kicking was sensational and he continually kept the Gaels back in their own end with the odd 70 yarder. Al Brown was outstanding going both ways and scored a touchdown on a pass from the slick Lic Lawson. The Blues class came to the fore over the Queen's spirit as the game wore on and was especially evident in the last half.

Toronto 15 - McGill 7

The Redmen started out in the first quarter as if the Blues were the same team as last year. Then came the revolution, that is, the about turn. The Blues front wall was the major factor in the win and they outplayed, outhustled, and outfought the heavier McGill line. Trailing 7-0 at the end of the first half, the Varsity runners ran wild with Oneschuk, Dale and Bell supplying the points, with the first two getting touchdowns and the latter a field goal and two converts. However, Al Brown and Hank Tamowski were knocking down the ends to let the fast men scamper. Haig kicked well and was continually playing heads-up football. But, it was a team effort that beat the individually better McGills.

With Bill MacFarlane supplying the scoring punch with two touch-downs, and Bob Garside leading the line in bouncing back the Redmen's thrusts, the Blues trounced McGill 11-7 in the last game of the season, and brought the Yates Cup back once more to Varsity. Oneschuck, with his line smashes and Haig, with his towering punts again played outstanding games and Alex Lawson continually outsmarted the enemy defenders. However, as throughout the season, it was a team effort with the line fuctioning smoothly to frustrate the McGill scoring opportunities repeatedly.

THE combination of the inspiring coaching of John Kennedy and Fraser Mustard plus the fight and the team spirit of the club combined to make this season one of the greatest that Varsity has known in the Intermediate ranks. This year, the team brought back to Varsity the Shaw Trophy, for the league championship and the R.M.C. Cup, for the Canadian Intercollegiate championship.

Two exhibition games were scheduled with Ryerson Institute of Technology and the Cobourg Galloping Ghosts, splitting the verdicts. During regular seasonal play, they won three out of four to take the championship.

At Kingston, they won under adverse conditions to capture the Canadian Intercollegiate championship.

The linemen were led by captain Al George, Bob Dougan, Jim Murray and John MacKenzie, while the backfield was composed of such steady performers as Terry Housley, Bob Kimoff, Gerry Fitzhenry and Bill Burley.

Such outstanding players as Don Smith, Ted Lausky, Bob Pinkney and Bob Kimoff should be lining up with the Blues next season.

THE University of Toronto's hold on the league championship, which they gained last season, was lost this spring to the strong University of Montreal "Carabins". The Blues managed to finish in second place to share the runner-up spot with Laval University.

Bill Wade, former Varsity hockey star, took over the former Coach Wally Halder's job of master minding the Blues, and did a commendable job in piloting the team. But for a few uncalculated ups and downs early in the season, plus some untimely injuries, Wade and his squad might have retained their grip on the Queen's Cup.

Captain Earnie Frey ended up as top scorer of the team, and combined with team mates Don Rope, Jack McKenzie and Jack Wheldrake to provide most of the scoring pinch and spark for the Blues, keeping their championship hopes alive until the first week of the schedule, only to have the Carabins hose them out in their last all important game.

The squad played a 16 game schedule of which 12 were regular intercollegiate league encounters, and the remaining 4 exhibition games; 2 at the University of Michigan, and 2 at the Lake head against Port Arthur and Fort William, this latter trip was a combined effort of Queen's and Varsity hockey players; all of which they lost.

The Blues 6 appearances on their home Varsity Arena produced action packed games holding the interest of the fans throughout the season, indicating that next week should see a real increase in spectator attendance as the team will be going all out to regain their prestige, the Queen's Cup and the Championship.

THIS is the first season since the end of the war that the Intermediate Hockey Club has not won the Shaw Cup; but the season can be counted a success due to the team spirit that prevailed and the enjoyable trips the team had this season. The Blue Squad was capably coached by John Kennedy, who was also largely responsible for making this season a success.

The team won two and lost four games in league play, losing two games by one goal margins.

The team made their annual trip to the U.S.A., playing Clarkson, Tech, and St. Lawrence University, losing both games by scores of 2-1, and 4-2. Outstanding players on the forward lines were Jerry Henderson, "Gus" Bodnar, Robin Logie, Ken Lawson and Bill Yeo. The defence has such stalwarts as Captain John Fingland, "Boom Boom" Dies and Bill Morreau. With the exception of John Fingland, who graduates this year, the team will all be back and should form the nucleus of a Championship team in 1953.

THE University of Toronto Senior Basketball Team, under Coach Bob Masterson, finished a long season against strong American and Canadian competitors.

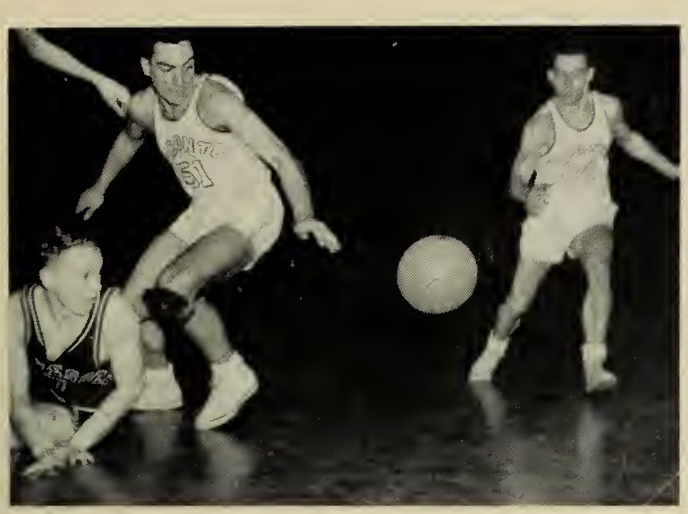

A veteran team, strengthened by newcomers Ray Monnot, Don Fawcett and Steve Oneschuk, battled through 23 games to earn ten victories. The Blues won 8 out of 9 home games but unfortunately lost to Western Mustangs, who won the Senior Intercollegiate title for the seventh consecutive year. The Blues finished the Intercollegiate season tied for second place with the new addition to the league, McMaster Marauders.

The leading scorers were Lou Lukenda, with 235 points, Ray Monnot with 217 and Captain Bill Huycke with 191, all of whom helped to amass a total of 1321 for an average of 57 points per game. The most outstanding victory was against the powerful Rochester University team who had previously won 9 and dropped 1 in top American competition, and had humbled Varsity 90—45 in Rochester. The Blues edged the Yellow Jackets' 54—53 in the most thrilling game of the season.

Next season's team will miss the services of Eddie Brennan, but will have a veteran nucleus which will be a strong contender for the Senior Intercollegiate Championship.

VARISITY J.V.'s finished the current season with a respectable season's total of 13 games won and 7 lost.

The Orphans, led by league scoring champion George Stulac and two flashy Americans. Leo Madden and Jim Russell. finished in second place behind Tri Bells. In this City Senior Men's League, they lost twice to Tri Bells and once to Y.M.H.A. for a 7 and 3 record.

In the Intercollegiate series of 6 games, two were dropped, one to Western, and the other to McMaster. As the result, Varsity settled for second place. During the Intercollegiate series, the J.V.'s most consistent scorers were; Bill Corcoran, who averaged 13.3 points per game and Jack Garbutt, who potted a total of 64 points. Both George Stulac and veteran Doug Kettle contributed respectable totals.

The J.V.'s finished the season with a team shooting average of 30% and averaged 57 points per game. The astonishing 41% average and 186 point total for 14 games by George Stulac was perhaps the highlight of the more J.V.'s play.

AFTER holding a slight lead after the morning round, the Varsity senior golfers fell apart to finish third in the seven team event, 24 strokes behind the winner McGill, and second place Montreal.

Over the Cataraqui course at Kingston, the best for the Blues crew was George Smith with 158, including a low of 75. Beattie at 168, Cater at 172, and Sheppard at 176 followed in that order.

The Intermediates fared much better in winning the 18 hole, four team event by downing second place Western by 12 strokes. Timmins low man with 77, was supported by Griffin 83, Stewart 84 and West 88 in good weather at Toronto St. Andrew's.

THE Senior Soccer Team climaxed a successful season with a 4-3 win at home over the previously undefeated McGill Redmen to avenge their only defeat. This win pulled the University of Toronto Soccer Blues into a first place tie with the McGill squad, but the Redmen lead the eastern division by virtue of their better goal average.

In the Western Division, the Blues retained the Blackwood Trophy, outclassing the other teams in that league. As usual, the games were played in all weathers, from the ideal soccer weather in the opening game at Guelph to the pouring rain and sleet at Western and the cold autumn afternoons in the home and home series with R.M.C.

The forward line, although juggled several times during the year, played well as a unit despite the changes, scoring thirty-four goals. Jose Atucha deserves great credit for his six goals as five of them were scored against the stronger eastern division teams. Manuel Atucha and Ken Jessop divided twelve goals to tie with Jose Atucha as high scorers on the team. Bobby Ross and Bob Antoni scored five each, and Gil Toppin and Newton Reed split the remaining six goals. Captain, Tom Broadhurst, scored on a penalty kick to raise the team total to thirty-five. Defensively, the team conceded sixteen goals, eight to one team, McGill.

The team was coached by Canada's "Mr. Soccer", Ted Slade, and the team tried to win a double championship for his second freshmen year as a coach. Mr. Slade coached Toronto "Blue" teams in 1937 and 1938. To him in the coming year the five graduating members of the soccer team wish him luck and a double championship.

CHAMPIONS 1951

THIRD ROW: D. A. Quirk, J. T. Trelving, T. Andreson, I. U. Bhatty, F. W. Rundle.

SECOND ROW: G. A. Logan, L. Elmer, S. B. Stainton, S. D. Rope.

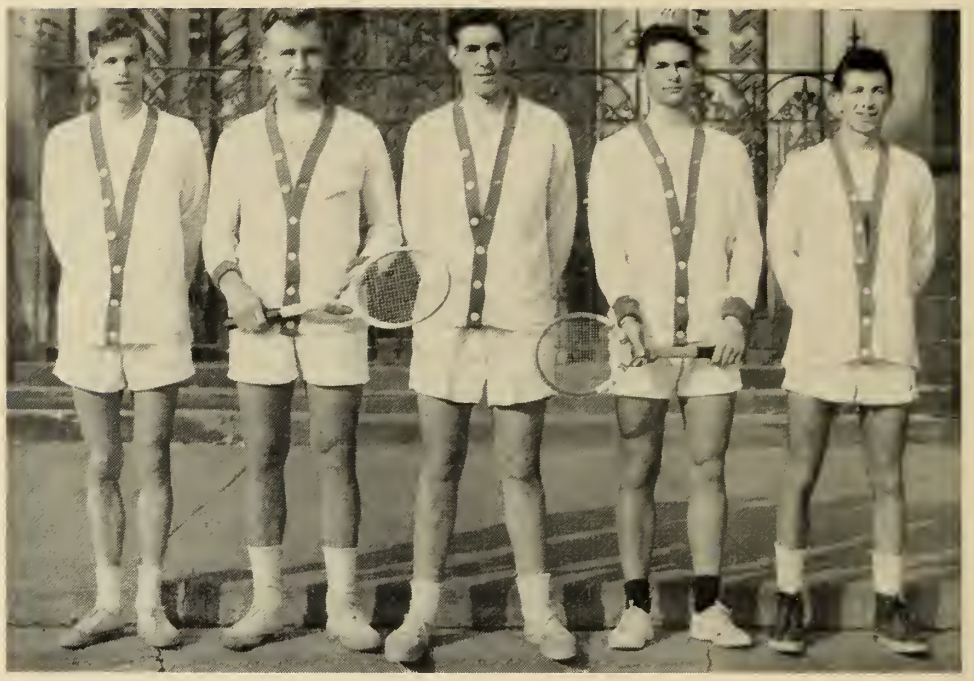

FRONT ROW: A. Bowler, M. Derzai, E. J. Kersey, H. G. Ashbourne, J. Mundy.

THE Intermediate Team joined with part of the Senior Team to play a 1-1 draw with Buffalo State. The game proved that the calibre of the Intermediate Soccer Team was not far below that of the Senior Team. In fact, during the season several members of the Intermediate Team had short trials with the Seniors, and in the coming season such players as Doug Quirk, Don Rope, Idrak Bhatty, Howie Ashbourne, and Matt Derzai may well be playing Senior.

Al Bowler led the scoring from his right wing position with seven goals. Howie Ashbourne punched in five from inside left. Matt Derzai scored two and Al Logan, Jim Treliving, Jack Munday, and Idrak Bhatty accounted for one each. Against this offensive record of eighteen goals, the intermediate team allowed only one goal defensively. This fine defensive work is a tribute to the play on Don Rope, Doug Quirk, Captain, Ted Kersey, and goal-keeper, Tom Andreson. With a record of five shutouts in six games, the little 'Blues' are worthy Intermediate intercollegiate soccer champions.

Senior Intercollegiate Tennis

CO-CHAMPIONS 1951 - 1952

J. M. Coles, G. E. Lukk, P. M. Stewart, K. Lawson, S. G. Hurowitz.
ABSENT: D. L. Coles.

FOR the first time in many years, the Varsity Senior Tennis Team tied with the University of Montreal for the Intercollegiate Championship.

At the end of the two-day tournament, Varsity and Montreal were tied for first place, McGill in third place and Ottawa in the fourth spot.

The individual players in their respective positions were:

1.	Lukk	Won 1—Lost 2
2.	Coles	Won 2—Lost 1
3.	Hurowitz	Won 2—Lost 1
4.	Stewart	Won 3—Lost 0
5.	Lawson	Won 3—Lost 0

Lukk and Stewart played No. 1 Doubles — won 1, lost 2; while D. Coles and J. Coles played No. 2 Doubles — won 3, lost 0.

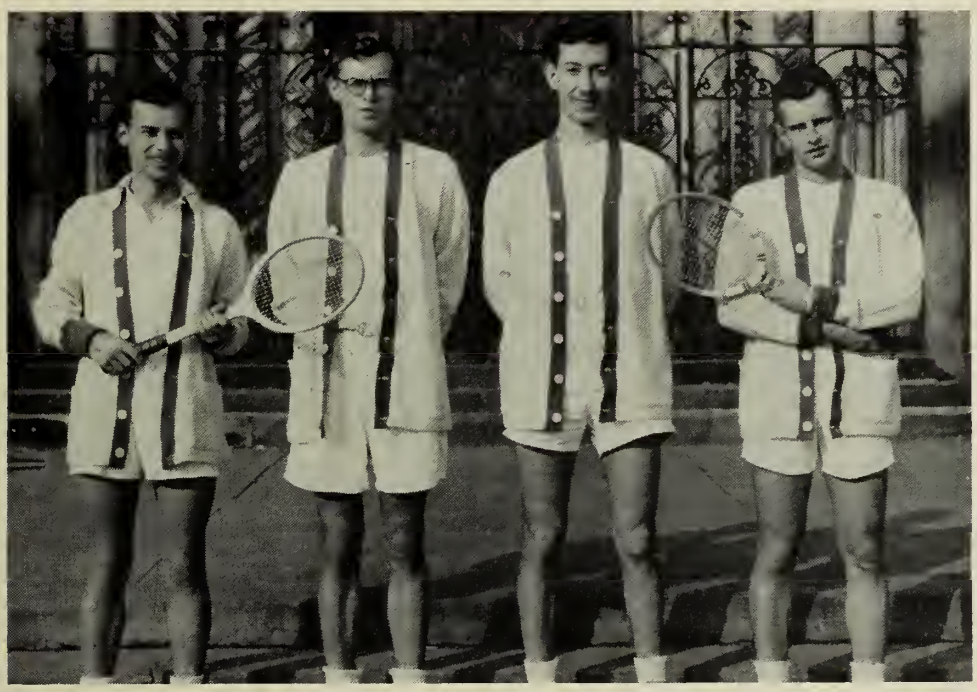

John Coles and Stan Hurowitz won two crucial matches on the last day to give Varsity their tie.

Intermediate Intercollegiate Tennis

ONCE again, the Varsity Intermediate Tennis Team won the Championship without the loss of a match. Craig Upfold, Robin Arnold and Rick Arnold played singles for the Intermediates. The Arnold brothers played doubles. They were the Doubles Champions, and Craig Upfold won the Singles Championship.

The team played in two leagues this year. During the first half of the year it joined with the women's team to enter the Toronto and District B League, playing against clubs such as Carlton, Strathgowan, and Boulevard. Lack of experience and unfamiliarity with partners' playing styles kept the team in the #7 cellar position at first, but a string of wins in the stretch pulled the team up to the #4 spot at the close of the league schedule.

In the Western section of the Intercollegiate Tournament however, just the opposite was true. Both Western and Varsity raced undefeated through 15 matches against Waterloo College, O.A.C., and McMaster, but Varsity faltered in the stretch and dropped 4 out of 5 to Western. A heartbreaking 17-18, 12-15 loss by Bob Edgar and Ed Bhatti to Ted Barber, star of the tournament, and his partner, was the the beginning of a rout salvaged only by Chester Cherniakowski's victory over the #2 singles player from Western. Final score, Western 19, Varsity 16.

Intercollegiate English Rugby

THIRD ROW: E. W. Taylor, J. Cleave, J. S. Tucker, H. A. Hicks.

SECOND ROW: G. T. L. Read, R. N. McBurney, F. R. Fischel, M. C. W. Miller, M. J. Laubitz, K. A. Riedemann, R. K. Ham, R. A. F. Montgomery.

ABSENT: P. R. Day, *Coach.*

THIS year the Rugger team played two Intercollegiate matches against McGill. McGill 6—Toronto 0, McGill 12—Toronto 0.

In the Ontario League the team played five matches, winning against Barbarians and losing to Brantford Harlequins, Irish Canadians, Nomads and Wanderers. Bob Montgomery was chosen to play centre for Ontario against Quebec, the former winning 8-6 in a good match.

As only four men are graduating, the prospects for the coming season are good. However, more participation in this sport by undergraduates will be needed if the University team is to keep up to the standards set by the other Ontario Clubs.

University of Toronto Sailing Team

J. M. Winlo; T. S. Seary; W. J. O'Hara; W. H. Lynn.

THE Varsity Sailing team, composed of two two-man crews, competed in the annual Regatta at Toronto. McMaster, R.M.C. and Queen's were the other competitors, and McMaster won the Col. Grant Trophy. Due to bad weather only one race was run, and the second day of the Regatta was cancelled.

The sailing Club also chartered an ice-boat for the winter season and competed in the weekly races of the Royal Hamilton Yacht Club, Ice Boat Division.

Senior Intercollegiate Wrestling

SECOND ROW: J. L. Amos, *Ass't Coach;* J. P. Henderson; W. Chykaliuk; W. Bush, *Manager;* D. V. Hamilton; H. S. D. Robinson; K. A. W. Wipper, Coach.

FRONT ROW: O. Loucks; W. G. Pitman; T. Hatashita, *Captain;* J. Goldenberg; P. F. Phelan.

Toronto	31	Western 34

THE Varsity Wrestling Club of eighty-five men came within inches of capturing both Senior and Intermediate Canadian Intercollegiate crowns this year. Injury to Bill Chykaliuk, outstanding 177 lb. performer, altered what seemed to be a certain Senior victory to a three-point deficit for Toronto.

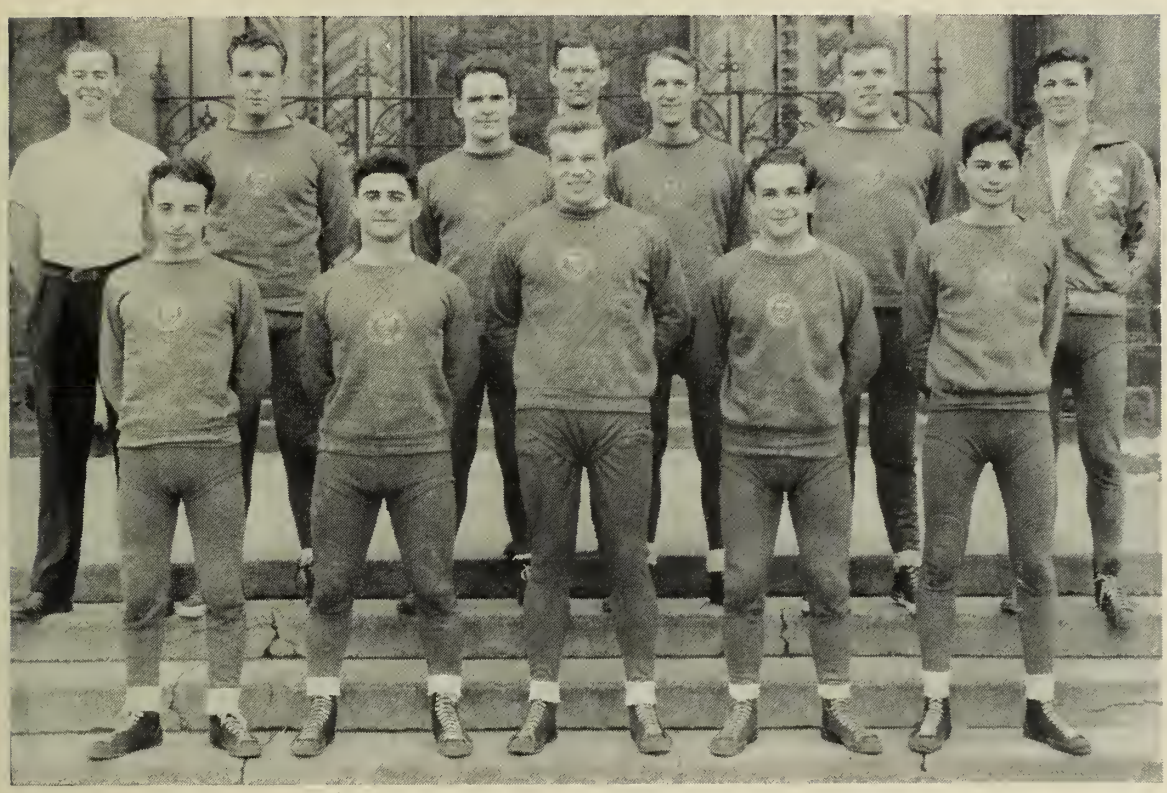

The Senior Crown was captured for the first time by Western University with 34 points while Toronto followed closely with 31. Third place honours went to O.A.C. with 30, while McGill and Queen's trailed with 25 and 23 points respectively.

The debut of wrestling as a team sport involving 3rd and 4th place wrestle-offs proved to be a tremendous success.

Captain, Tom Hatashita, of Architecture, 137 lb. Senior Champion, and Walt Pitman, 130 pounder from Trinity, also Senior Champion, produced fine records this season for their Blue team. Second place honours went to Orie Loucks, Forestry, 157 pounder, Doug. Hamilton, 191 lb. engineer, and Harry Robinson, classy heavyweight from Wycliffe College.

CHAMPIONS 1952

SECOND ROW: J. Taylor, *Manager;* E. Dryden; W. G. McCormick; J. L. Amos, *Assistant Coach;* J. F. Berard; L. P. Skitch; K. A. W. Wipper, *Coach.*

FRONT ROW: G. N. Vetsos; P. Nichols; L. V. Smith; A. Gladstone; N. Grossberg.

THE Intermediate squad came through with a decisive repeat victory. when they took six out of nine championships and accummulated 50 points, while Western took 37 and O.A.C. 18.

Champions were George Vetsos, 123; Al Gladstone 137; Glen McCormick, 167 (repeat); Captain Leon Smith, 177 Larry Skitch, 191 (repeat); Ernie Dryden, Heavy (repeat). Head Coach, Wipper and Assistant, Jack Amos, anticipate a fast powerful team to wear the Blue and White for the coming year. although Robinson, Pitman, Goldenburg, and Henderson will be graduating.

Senior Intercollegiate Water Polo

CHAMPIONS 1951 - 1952

SECOND ROW: H. Robbins; J. R. MacKenzie; J. Bate; W. J. McIlroy; B. Langer.

FRONT ROW: E. Silverstein, *Manager;* E. G. Hachborn; N. W. Mortimer; P. S. Rosen; L. Rosen; W. A. Buik, W. F. Clayson, *Coach.*

AGAIN hail to the champions: The Varsity team defeated McGill in the home and home, total points to count series. The Blue team won the first game played in Hart House pool by the resounding score of 16 to 3. Norm Mortimer was the Toronto standout scoring 11 goals, while John Bates, Bill McIlroy, Bernie Langer, Gord Hackborn and Larry Rosen netted one each. The return game in Montreal was won by McGill 8 to 5. Varsity scorers were Mortimer 4 and Langer, one. Varsity therefore won the championship 21 to 11.

University of Toronto Junior Water Polo

SECOND ROW: H. Robins; D. Carnahan; W. Andrews; W. F. Clayson, *Coach;* N. Gorfinkle; D. H. MacKenzie; R. Wilson.

FRONT ROW: W. J. McIlroy; J. R. MacKenzie; B. Langer; W. A. Buik; A. B. Roger; E. A. Silverstein.

George Stulac

The swimmer-of-the-year at the University of Toronto. He set a new intercollegiate record for the 100 yard free style event and equalled the existing mark in the 50 yard free style.

Senior Intercollegiate Swimming Champions
1951 - 1952

SECOND ROW: C. A. McCatty, *Coach;* R. A. Garside; G. M. Capraru; J. G. Stulac, *Staff Member;* B. Langer; H. H. Sutherland; J. K. D. Richardson, *Manager.*

FRONT ROW: J. A. Haig; G. W. Stulac; L. J. Rosen; F. D. Gibson; A. B. Roger; W. J. McIlroy; J. Bate.

THE Dougall Senior Intercollegiate Swimming Cup has come home to rest after four years at McGill. George Stulac was the outstanding Varsity champion of the meet, held in Hart House pool. He set a new intercollegiate record of 53.9 sec. for the 100yd. free style and tied the record for the 50. Doug Gibson again won both 220 and 440 events for which he set records last year. Allan Roger won the Diving with an average of 93.0. The meet was decided by the blues win of the last relay race. John Bates placed second by inches to McGill's long-time breast stroke champion Koppin in the meet's most exciting event. Varsity won by a total of 43 to McGill's 36 while western trailed with 5.

Intermediate Intercollegiate Swimming Champions
1951 - 1952

SECOND ROW: C. A. McCatty, *Coach;* C. C. Caldwell; G. W. Sutherland; W. C. Trusler; G. E. Hachborn; J. Stulac, *Staff Member.*

FRONT ROW: R. D. Talbot; M. Kerzner; D. E. Wigle; J. A. Catto; J. V. Mathers; R. Kimoff; D. R. F. Smith.

The Intermediate swimming team again became Intercollegiate champions in the meet which saw Varsity edge Western also in the last relay event. Great credit is due to the new swimming coach Cressy McCatty for the double championship.

Intercollegiate Gymnastics Champions
1951 - 1952

SECOND ROW: R. B. Dougan, *Manager;* R. W. Bee, *Coach.*
FRONT ROW: J. E. Dooley; S. Symons; F. Grmek, *Individual Champion;* H. J. Alexander; M. J. Dignam.

THE University of Toronto Gymnastic Team competed in the Intercollegiate Championships at Hart House this year, defeating McGill 112.5 to 107.5 the identical score of last year, with the winners reversed. Frank Grmek, S.P.S. II won the individnal championship for the second year in succession to hold the Werry Cup again. Hugh Alexander was in third place and Mike Dignam in sixth to win the Caron Trophy for Varsity.

Intercollegiate Boxing

SECOND ROW: J. C. McFarlane; H. Tilson; R. E. Reilly; P. Petcoff; Tony Canzano, *Coach.*

FRONT ROW: M. E. Wright; N. E. Green; H. H. Greenly; T. Pallandi; J. E. Betz.

(INSERT: R. S. Couceiro).

THE Boxing Team was not too successful in the Intercollegiate boxing competitions this year, however, a better showing can be expected next year.

The two main events this year were a dual meet with the U.S. Military Academy at West Point and the Intercollegiate tournament at Queen's. The Toronto team failed to gain a win in either competition although we lost three hotly disputed decisions to Queen's.

Russ Reilly of St. Mikes I was the most improved boxer, winning the Junior and the Senior Inter-faculty tournaments and also winning his preliminary bout in the Intercollegiate tournament. Russ by his achievements won the Zieler Trophy.

Pete Petcoff, of S.P.S. III, won the Massey Trophy being the most worthy member of the team. Through an injury to Norm Green (who would have been a sure winner) Pete moved up from the 155 lb. class to the 165 lb. class, and even while fighting out of his class, Pete boxed very creditably against an opponent 10 lbs. heavier and a foot taller.

Mike Wright and John Betz won their first colours having been on the team for two years.

Roberto Cuceiro won his preliminary bout in good fashion but lost a split decision to an O.A.C. man.

Howard Greenly captained the team this year.

We are looking forward to next year for better results for there are several promising boxers who will be on the team for next season, and there seems to be an increased interest on the part of the student body toward this fine sport.

Intercollegiate Fencing

SECOND ROW: Intermediate Team Champions: J. Penciner; J. E. Crawford; G. Marcus.

FRONT ROW: Senior Team: A. Slama; L. Goldenberg; Jules Alpar, Coach; G. W. Kovatch; W. C. Anderson.

Intercollegiate Skiing

THE Varsity Ski Team had a moderately successful season this year although their successes came more in local competition than in the Intercollegiate Champpionships.

This year's team was composed of Per Berg-Johannsen and Haakon Greaker, two Norwegian students, in the cross-country and jumping. Don Esson and Pete Bowen represented the team in the Alpine events of downhill and slalom. Filling the important four-way, or all event, positions on the team were Hal Godding and Jorgen Myhre, another Norwegian. Olie Friele, Bob Sparrow and Mike Gee were alternates. Bill Beck was back as head coach while Odd Michaelson coached in the Nordic events.

The team began the year well by winning the team trophy at the annual Oshawa Invitation Meet. Michaelson in the cross-country and Godding in downhill and slalom lead the team to victory over Queen's and the Army among a strong field.

Intercollegiate Skiing

SECOND ROW: O. Friele; R. E. Sparrow; W. G. Beck, *Coach*; J. M. Gee; P. Berg-Johannssen.

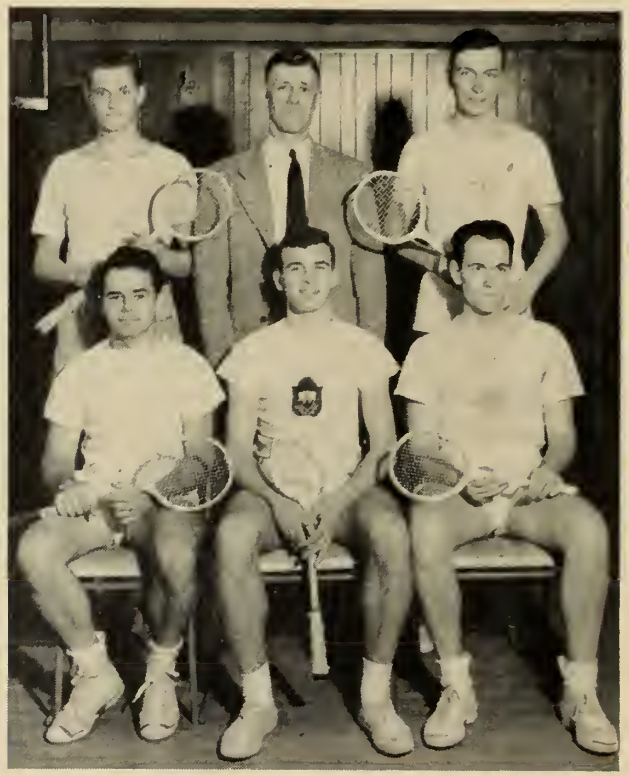

FRONT ROW: J. Myhre; P. Bowen; H. Godding; D. W. Esson; H. Greaker.

In late January the team, as individuals, competed in the Southern Ontario Championships at Collingwood and Midland. Godding and Esson performed well in the downhill with the former also posting a good slalom time. Michaelson won the four-way combined title with Godding third. Berg-Johannsen won the Skiwa Trophy for the Nordic combined championship with Michaelson and Myhre close behind.

In the Ontario Championships also held at Collingwood and Midland, the team again did quite well, Godding again lead the Alpine team with Berg-Johannsen, Myhre and Greaker all performing exceedingly well.

The last major meet for the Ski Team this year was the Canadian Intercollegiate Championships at St. Sauveur where the U. de M. were hosts. Queen's won the trophy as the best Canadian University. U. de M. was second and Varsity, a disappointing and disappointed third, followed by McGill, Sir George Williams, R.M.C. and Loyola. Godding posted steady but not winning times in downhill and slalom while Myhre, Bowen and Esson were a long way off the mark. The team finished the Alpine events in fifth spot. The cross-country and jumping team performed in a much better fashion but could not lift the team to a win after the poor placing in the Alpine combined. Toronto won the cross-country with Berg-Johannsen second, Myhre third, Greaker seventh and Godding tenth. Toronto's best showing in the jumping was a fifth by Berg-Johannsen which landed him in second place in Nordic combined. The team as a whole finished the Nordic events in second spot behind Queen's. In summary the team was just out-skied and out-lucked in all events.

Intercollegiate Squash

SECOND ROW (left to right): C. P. Cameron, Dr. R. Richmond, J. Walter.

FRONT ROW (left to right): G. L. Toppin, R. H. Gaunt, T. Dancy.

ONCE again Squash has proved to be one of the most popular sports played at Varsity. With inadequate facilities Varsity was hard put to produce a contending Intercollegiate team. In the Intercollegiate Tournament played at Montreal on February 16, McGill won eight matches, Varsity five and Western two. Team Captain Rick Gaunt, playing in the number one position was the only man to win both of his matches. Gil Toppin, number two on the squad, lost both of his matches. Clive Cameron, Tom Dancy and John Walter, all won their matches against Western but lost to McGill.

In the University Tournament Gaunt beat Dancy 3-0 in the final. Jack Liebel, Graduate champion, beat Gaunt 3-0 to retain the Coventry cup. Rick Gaunt will represent Varsity in the American Intercollegiate Tournament to be played at Harvard. He has also been invited to play for Canada in the Lapham Cup matches. (Gaunt was also winner of the Canadian consolation Tournament.)

This year, for the first time, an undergraduate Squash Committee has been formed. R. H. Gaunt was elected President, C. P. Cameron Vice-President, and G. L. Toppin Secretary. Mr. Bill Boake and Dr. R. Richmond have once again coached the undergraduate team. It is through the efforts of these men, and other graduates, that an active interest has been maintained in the development of Undergraduate Squash at the University.

Intramural Athletics

ONCE again, from early fall until spring the use of playing fields, gymnasiums, the hockey arena cushions and the swimming pool was extended to the limit to accommodate the 4500 student registrations in the Intramural Athletic programme. It was a satisfactory, although somewhat hectic year. Vic. took the Mulock Cup with an almost perfect effort against U.C.; U.C. upset Trinity for the Soccer Championship and the Arts Faculty Cup. Moving indoors Meds. once again established their supremacy in Lacrosse and Water Polo; St. Mikes made a clean sweep in Basketball taking both Major and Minor Championships, although not until an inspired Pre-Med team took them to three games in the Major Series. School again dominated the Volleyball scene winning from Meds.

Meds maintained supremacy in the water sports winning the Senior, Junior and Faculty Swim Championships. School made a clean sweep of Tennis, Gymnastics, and Boxing. U.C. took the Senior and Junior Wrestling awards as well as Senior Track.

From this summary of sports championships it is apparent that ability and interest is well divided. University College produced the best over-all results to win the T.A. Reed Trophy emblematic of the Intramural All Year High Point Championship. A major factor in this well deserved win was the placing of 84 U.C. and P.H.E. men on Intercollegiate teams. Representatives from U.C. are to be congratulated as are those from Trinity and Meds, the second and third place winners.

The Intramural Sports Committee, under the chairmanship of Rod Whitehead of Trinity College, again proved a valuable aid in the operation of the programme. Student participation in administrative functions has long been a guiding force in the success of intramural athletics at this University. Such participation includes the work done by the athletic boards of the colleges and faculties; membership in the various standing committees; and of course, the contribution made by the hundreds of team managers and officials required for the many sports. The University of Toronto Athletic Association appreciates the co-operative services rendered by these students who make the athletic activities possible.

Victoria College Athletic Union

SPORTS this year at Vic have met with tremendous success, at least from the point of view of championships. Last fall the football team brought the Mulock Cup back to its rightful place in Victoria College. Also in the fall, top position in both the Senior and Junior Harrier was gained by Vic runners, and our golf foursome won the intramural championship, as well as the best individual round. Then in the spring, the Senior hockey team won the Jennings Cup, to bring hockey honours to Vic for the first time since before the war. Along with these team championships, Vic men won individual titles in boxing, wrestling, tennis and track. Other sports in which the Scarlet and Gold made creditable showings were soccer, basketball, squash, lacrosse, swimming, water polo; volleyball and gymnastics. Significant in the light of Vic's excellent display this year is the fact that despite a drop of about 125 in enrolment, participation has remained at the same level as last year. That is, we kept our 5 major and 16 minor basketball teams, 4 hockey and 4 volleyball teams, and two teams each in soccer, lacrosse and harrier.

Thus the V.C.A.U. of 1951-52 can look back on a very successful year, and wishes all Vic teams the best of luck in their efforts to bring athletic honours to the "Old Ontario Strand".

TRINITY COLLEGE ATHLETIC ASSOCIATION EXECUTIVE

Hon. President, Prof. J. W. Scrivin; *Hon. Vice-Presidents*, Professor C. A. Ashley, Rev. F. W. Beare, E. G. Strathy, Esq.; *President*, R. J. Whitehead; *Vice-President*, G. J. THIS year two Trinity teams—the soccer and hockey "A's"—managed to reach the interfaculty finals in their respective sports. The soccer final with U.C. was the big event of the Michaelmas term, as the rugby team had been knocked out by the football Redmen the week before, and the College looked for revenge in the Arts Faculty Cup competition. The game was well worth the drown of almost 2,000 who watched it. But the Trinity team was dead tired after three playoff games in a single week, and at the final whistle U.C. had the cup and a 2-1 victory over a really game Trinity squad. It was the fifth consecutive year that the soccer "A's" have been in the final.

The hockey final playoffs were a different matter. The scores escape us. What happened we don't know. But a really good, until then, Trinity team went down the drain as quickly as it could. The gallant little "B's" did a wonderful job in fighting their way to the semi-finals.

The football team had a good season, winning five, getting a tie in one and losing to U.C. in the Muloek Cup semi-final. Basketball fell off after a good start but the waterpolo "A's" got to the semi-finals.

Next year will see the revision of the interfaculty rules, dividing the university into large and small colleges. We cannot agree with the change entirely, because we mourn the passing of any real university interfaculty team championships which it will entail. Trinity came second in the T.A. Reed Trophy competition this year, and for this orchids go to T.C.A.A. President Rod Whitehead, and Manager of Athletics Doug Andison.

St. Michael's College

ATHLETIC DIRECTORATE

Paul Price, Gene Neville, Jud Gibbs, Don Clune, Leo Madden.

As is the case every year, St. Michael's men entered the Intramural Sports picture with boundless numbers and enthusiasm. In football, lacrosse, hockey, soccer, water polo, track and volleyball, the St. Michael's teams made their presence felt in no uncertain terms, but it remained for the basketball teams to bring home the bacon in this Centennial year. From early in the season, the St. Michael's "A" Team was favoured for the Major League crown and the way that they raced through the play-offs to reach the finals, they looked like champions. In the finals, they met the surprise team of the year, Pre-Meds. In the first game of the finals, it looked as though the Medsmen had backed into the wrong series for the Mikemen smothered them with their accurate shooting and close checking. In the second game, a boy named Tile cast a spell on the double blue and the Cinderella Team topped the favourites by an embarrassing margin, but this only served to show what real champs are made of as the College team roared back to form and pulled away in the deciding game to cop the Sifton Cup.

Of the many St. Mike's teams in the Minor League, the More House squad came through a long series of play-offs to annex the Minor League crown and the 5T0 Civil Cup.

The participation of the men of St. Mike's in all sports, intercollegiate and intramural, is evidenced by the fact that we were right in the thick of the T. A. Reed Trophy race all of the way, finishing in fourth place just a few points back of Meds and within range of the winners from U.C.

Medical Athletic Association

THE year just passed has been a very successful one as far as Meds Athletics is concerned with an increased number of teams and players entered in the Intramural sports programme under the amiable direction of P.S. "Fat Fil" Rosen.

Meds Senior Lacrosse team with all new faces but one, kept up its winning ways and garnered the Dafoe Cup for another year to make more successive championships than we can remember—ho hum.

Meds III Year Volleyball team gained the finals for the fifth successive year but were nosed out for the championship by a star-studded Skule team for the second year in a row.

In the Run and Kick games Meds had mixed success with the soccer teams doing quite well and the football teams---well. . . . . In the same grove Meds hard water teams spent all winter working hard at the Arena toward building character and providing diversions from their studies for eager students and only occasionally playing hoekey. In an occasionally losing cause "Old Bill" Zatelny was always a tower of strength administering with due ceremony many a "coup de glace" to the heedless.

Things were very different in the Soft water sports, however. Fat Fil, his brother Larry and a galaxy of stars combining to win the Junior, Senior and University Championship Swimming and easily tucked the Water Polo Championship into their trunks—such trunks.

In basketball, Meds did very well, as eagey players and even cagier coaches combined to give Meds one of the best basketball seasons within living memory. Pre-Meds reached the Major League finals and extended the favoured St. Mike's squad to the limit in the final round. Golf and tennis also produced excellent aggregations of athletes carrying the black and red into the fray.

In squash another in a long line of stront teams was produced and won the squash championship quite readily.

This year the Meds Athletie Stiek goes to Philip "the Gazelle" Rosen for his outstanding leadership as President, Viee President and 11 Year Rep. on the MAA as well as being a scintilating performer on Meds football, water polo and swimming teams and in the Daffydil Chorus line.

Our eongratulations!

Engineering Athletic Association

S.P.S. did not win the T.A. Reed Trophy this year but the Men of Skule fought nobly for the Old Red Skule House. In the world of Football, the Junior Skule squad reached the semi-final in the Mulock Cup series, giving Vic stronger opposition than they met in the final game. The senior Soccer team kicked the round football about with slide rule precision and reached the semi-final in the hunt for the Arts Faculty Cup. They won the semi-final from Trinity in overtime on a disputed penalty kick but a Trinity protest forced a replay, and Skule dropped this one by a single counter.

S.P.S. Thirds retained the Victoria Staff Trohpy and the interfaculty volleyball crown. The engineers also swept the intramural tennis competition, winning both Junior and Senior championships, capturing the Victoria Tennis Club Trophy.

In track the Skule runners emerged victorious in the Junior Track Meet and also claimed the Toronto Cricket Club Trophy, signifying the Indoor Track Championship.

Howard Greenly's boxing teams won intramural titles, the seniors winning the Davidson Trophy and the juniors taking the championship for which there is no trophy. The individual gymnastic champion was also a skuleman.

So, the Skulemen, may not have captured the Reed Trophy but they had a big year, and brought home a lot of silverware in the attempt.

Trophies and Awards

SPECIAL BRONZE "S": Awarded to A. S. Lawson.

"Awarded annually by the Athletic Association to the graduating student who, in the opinion of his classmates, has rendered the most outstanding athletic service to the University and the Faculty."

Dentistry Athletic Association

THE PAST YEAR has not been just another year for the Faculty of Dentistry, for the enrolment of younger blood has given us a great lift in the field of athletics.

As a result we are getting a greater number of participants, in the various sports, than we have had in the past several years.

The athletic directorate would like to wish these men a bright and successful future in this field of endeavour and congratulate them on their fine showing throughout the year.

Special mention goes to all the team managers who work untiringly in the background and who are essential in any smooth-running team sport.

To Nyle Deifenbacher and the members of next year's directorate we wish a successful year.

Women's Athletics

INTRAMURAL competition in 1951-52 has been particularly keen and has seen several championships change hands.

The twelve teams entered in the softball series battled through to the finals in spite of wind and weather. St. Mike's and University College played three hard-fought games before University College emerged victorious, for their first softball championship since 1929. University College also won the tennis, with Joan Mulveney U.C. II, taking the crown.

The intramural swimming cups also changed hands, Victoria losing the team title to P.H.E. while the individual and diving championships went to Louise Willard of St. Hilda's . The Archery was again won by Mary MacDonald of P.H.E.

There were twenty-three teams in the basketball series, divided into six leagues. The games started on October 17th and the playoffs on November 27th. The four semi-finalists who faced each other in Hart House were P.H.E. II, P.H.E. I, Nurses and U.C. Sr.-Jr. The first named won the championship with almost the same team as last year when they played as P.H.E. I.

After Christmas, hockey, volleyball, badminton and skiing had their turn in the intramural field. The Meds won the Harston Hockey Cup for the first time since 1930, taking two straight games from P.H.E. in the finals. Irene Hain and Sally Sarles were outstanding for Meds in this series.

The volleyball title went to St. Hilda's whose excellent team defeated P. and O.T. in the finals. There were thirteen teams in the series with nine colleges and faculties represented. University College again won the badminton series with Daphne Walker, U.C. I, taking the individual honours. The Proudfoot Cup for the individual ski championship went to Joan Ellis, U.C. III, who also had an excellent record in open competition in Ontario.

Membership in the Bowling Club was reduced somewhat this year but an intramural competition was held and won by University College. The Club also entered a team in the Intercollegiate Telegraphic Tournament but made a somewhat dismal showing, standing tenth out of twelve entries.

Regular intercollegiate competition took place in six sports only, this year, hockey having dropped from the picture due to lack of competition from the other universities. An All-Varsity team was organized which played two or three exhibition games with local teams.

The archery title again went to O.A.C. with Toronto second. At the tournament held this year at the Toronto Tennis Club, the tennis team swept the board winning all matches in the round robin in both singles and doubles.

This was also Toronto's swimming year as the team took the championship by collecting 45 points at the annual meet held for the first time at Western. Beryl Lewis, P.H.E. I, set a new Canadian as well as intercollegiate 50 yard back stroke record and the 150 yard medley relay team also set a new mark.

Women's Intercollegiate Tennis Team

The "Bronze Baby" basketball tournament was held at Kingston this year, and the lady seemed to like her surroundings for there she stayed after three years in Toronto. Queens' defeated Western the first night while McGill defeated Toronto by one point. The next day, Toronto easily took Western in the consolation game, while Queen's won the championship by outbattling McGill to a 36-34 decision in eight minutes of overtime. The Intermediate team played several exhibition games and gained valuable experience.

The intercollegiate volleyball was held at McMaster this year and the home team again took the title. The Toronto squad had the doubtful consolation of having beaten the champions soundly in Toronto earlier in the week.

Because of the death of the King, it was necessary to rearrange the badminton tournament to be held at McGill. Instead of the usual two-day round-robin, a winner-loser schedule was run off in one day. The Toronto team won all their matches, both in singles and doubles and retained the laurels won last year.

University College Women's Athletic Association

THIS YEAR the girls of University College entered into the sports of the college with enthusiasm. We realize that sports play an important part in rounding out a college career; they give, besides satisfaction and much needed exercise, opportunities for meeting girls of all colleges. They also help to develop in us a sense of team spirit which is so essential in these days.

The various teams of the college were well supported, and on the whole quite successful. The Junior-Senior basketball team reached the semi-finals in interfaculty competition and also won the U.C. rose bowl. We are very proud of our baseball, tennis and badminton teams as they carried off top honours, winning interfaculty trophies. In almost all sports, U.C. made notable contributions to inter-collegiate teams.

The U.C.-P.H.E. Athletic Banquet was again held in West Hall of University College. At this banquet which is given for all girls who participate in athletics, the cups and honour crests are presented.

Whether on the winning or losing end of the floor, pool, or rink, the girls representing the Red and White have endeavoured throughout the year's athletic schedule, to keep the spirit of good sportsmanship ever before them.

Victoria College Women's Athletic Union

FOR the first time in years no intramural championships have been won by Victoria. Nevertheless it has been a very successful year. There was a large participation in all the sports with the Freshies leading the way in both spirit and numbers.

Victoria provided good opposition in all the sports even though its teams never made the finals. There were not so many individual stars this year, except in swimming, but this made for more team play, more fun, and caused greater energy to be expended by all.

This year the Alumnae of Victoria presented a cup to the winner of the College tennis tournament, in which about thirty-six girls participated. There was good participation in all the other intramural sports, and a few individual athletes brought fame to the College by their inclusion in intercollegiate teams. One Freshie, Suzanne Morrow was included in the Canadian Olympic Team, and won sixth place in the Olympic Figure Skating Contest at Oslo.

We have had a very successful year, with a greater amount of participation, and with many friendships made, which will be cemented in the years to come.

St. Hilda's College

GOOD, fun, enthusiasm, and keen participation have always been the chief features of St. Hilda's sporting activities, and this year has been no exception.

The tennis team consisting of Barbara Allmond, Joan Stirling, Joan Matthews, and Daphne Cross played well in the University meet. Daphne Cross won a place on the Intercollegiate Tennis Team by reaching the semi-finals of the University meet, and she and her partner went on to win the Intercollegiate Doubles championship.

Baseball drew enthusiastic support from players and spectators alike. The first team reached the semi finals in their league. 5T5 won the baseball inter-year championship—the first to be held in the College and are the proud possessors of the new Baseball Cup.

Basketball games were well played and most enjoyable. 5T2 won the inter-year championship in the intra-college meet.

St. Hildians maintained the standards set them in previous years in swimming. The Swimming team did fairly well in the Intramural meet. Jane Rogers and Jessie Marriner placed first in the synchronized duet competition. Louise Willard won the diving cup, and scored the highest number of individual points, and won a place on the University swimming team.

The turnout for hockey and volleyball has been very good. To date both the first hockey team and the first volleyball team are undefeated, and the other two teams in both sports have been playing well.

Alpha Omega Alpha

ALPHA Omega Alpha is a non-secret College Medical Honour Society, membership in which is based entirely on scholarship, moral qualifications being satisfactory. Undergraduate members are chosen from the two final years of the Medical Course.

Organized at the College of Medicine at the University of Illinois, in Chicago, on August 25th, 1902, by William W. Root, it is the only order of its kind in the Medical Schools of the continent.

The spirit of the society is set forth in its motto, "To be worthy to serve the suffering"; and in a modern interpretation of the Hippocratic Oath. It is the duty of its members to promote its ideals and to foster the scientific and philosophic features of the Medical Profession and to look beyond self to the welfare of the profession and public. It is also their duty to cultivate social mindedness as well as an individualistic attitude toward responsibilities; to show respect for their colleagues, elders and teachers; to foster research; and in all ways strive to enrich and ennoble the profession of Medicine.

THIS year the Kappa chapter of Pi Lambda Phi pledged seventeen terrific fellows. Since the beginning of the school year we have thrown several big parties to highlight the social season, including the Charity Ball on Feb. 2, our biggest social event of the year. Our At Home tea on March 9 was also very successful and gave the parents of the members a chance to inspect the house.

Early in February the new executive was sworn in, consisting of: Earl Farber as Rex; Bernard Waltman—Archon; Lionel Shipper—Marshal. Dave Weinberg—Keeper of the Exchequer; Lloyd Fogler—Corresponding Scribe, Joel Barkoff—Recording Scribe, Don Sterling—Correspondent to the Tripod, the national magazine of the fraternity.

Pi Lamba Phi's bright red door is the attraction of the street, and causes good natured comment all round. All in all this year has been a very successful one for Pi Lambda Phi.

Rho Pi Phi Fraternity was originally founded by thirteen lonely but farsighted Fraters (at the Massachusetts College of Pharmacy, Boston, in the year 1919), who saw the need of banding together of men who had mutual interests and sought recognition on the campus. Today, after thirty-three years of progress, the Ropes have blossomed into over five thousand Fraters with chapters throughout the U.S.A., and in Canada our own Nu Chapter, Toronto.

We in Nu have also progressed by leaps and bounds from five Fraters, who brought the Charter to Toronto in 1926, we now number approximately one hundred in the Rope Alumni, eight Fraters in the Active group, and six pledgees, who are preparing themselves for admission into the Fraternity. With the four year course now almost fully established at the Ontario College of Pharmacy we expect a rapid build-up of the Active chapter will take place over the next several years, and with these younger men moving up into the Alumni group we see our greatest years just approaching.

The past year has been a very memorable one for Lambda Deuteron Charge of Theta Delta Chi Fraternity. In September the Fraternity held its 104th annual convention at Bigwin Inn, Lake of Bays, Ontario, with those from Toronto acting as hosts to the American brothers. This successful affair proved the prelude to a very busy college season.

Many successful parties have been held at the Charge house, 144 St. George St., during the past year including an "Apache Party" at which the costumes of the brothers and their girls were original to say the least.

As usual, both old and recent graduates have dropped in at the house to renew old friendships and to keep in touch with campus life at the University.

In June, fourteen brothers will be graduating. To those who are leaving we wish every success in the future.

DONALD LAMPMAN WATTS

Mr. Watts will be an Honour Philosophy graduate from Trinity College. He obtained his preliminary education at Trinity College School before entering Trinity. Since coming to university, he has contributed very greatly to the success of numerous Trinity functions, his extra-curricular activities covering a very broad field. He has taken an active part in the Trinity College Literary Institute, Trinity dramatics, the Trinity Review, the Historical Club, the Brett Club, and the University of Toronto Drama Committee. In athletics, he was a member of the Trinity soccer and basketball teams for four years. Ron is a member of the Alpha Delta Phi fraternity and was the chapter president this year.

Rhodes Scholars

HUGH IAN MACDONALD

Mr. Macdonald is graduating from University College in Commerce and Finance after an outstanding undergraduate career both academically and extra-curricularly, all of which made him a logical candidate for a Rhodes Scholarship. In final year, he was president of the Commerce Club and was a member of the University College Literary and Athletic Society. In athletics, he played intramural hockey with U.C. for four years and on the intercollegiate scene, he was for two years, a member of the Intermediate Track team and this year a member of the Senior Intercollegiate Track team. Hugh lives in Toronto and he attended North Toronto Collegiate Institute.

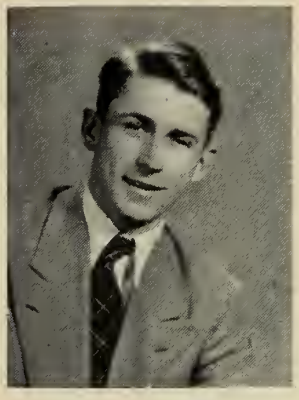

Clubs and Organizations

JOHN ARMOUR
Director

Blue and White Society

GEORGE HAYMAN
Chairman

THE function of the Blue and White Society of the Students' Administrative Council is to foster all-university spirit—both social and cultural on the campus of the University of Toronto.

The Chairman of the Blue and White this year was George Hayman, III yr, S.P.S. representative on the Council, and John Armour, the Director of the Society. Over 120 students participated actively on the varoius committees and sub-committees of the Society. There were two football dances held in Hart House with an average attendence of 2200, higher than last year. These football dances had various added attractions such as exhibitions and performances by visiting Glee Clubs.

The Homecoming Weekend organized through the Blue and White and the Alumni Association was a succesful one, and the Stadium Show once again drew a crowd of 6,000 people, both students and graduates.

The Varsity Art Gallery Night was also well attended. Demonstrations, conducted tours, movies, all helped to make this an enjoyable evening for many students, some of whom had never before spent an evening at an Art Gallery.

Just before the Christmas vacation, the Varsity Christmas Tree was held in the Great Hall of Hart House, due to the kind permission of the Board of Stewards. The singing of Christmas carols by the students and the Hart House Glee Club, and the exchange of token gifts between faculties were delightful features of the evening.

The Blue and White Soliety is also endeavouring to foster a closer liaison with other universities to facilitate arrangements for the football week-ends etc. The distribution regalia, ribbons etc, is also in their hands.

A busy and succesful year was had by all, and students benefited by the tremendous amount of effort put forth by the committee members of the 1951-52 Blue and White Society.

University of Toronto Band

THE Blue and White Band of the University of Toronto has for seasons past provided a great deal of enjoyment for spectators at the football games in the fall, the hockey games and many functions during the school year.

The Band this year also made a week-end trip to Ann Arbor to see the University of Michigan band perform.

Under the very able leadership of Mr. James Guthro, a graduate in Music, and this year a student at the Ontario College of Education, the band was once again a tremendous asset to the colorful student activities and to the all-important "All-Varsity" spirit.

The University of Toronto Symphony Orchestra and All-Varsity Mixed Chorus

KEITH GIRARD
Conductor

THE University Symphony Orchestra and Chorus has had a most successful year. Two concerts were held in Convocation Hall. The Orchestra and Chorus, conducted by Keith Girard, and assisted by Bruce Snell, provided enjoyment for many people, both undergraduates and friends.

The first concert was held on Sunday, December 9th, and featured as soloists, Miss Barbara Franklin, Soprano, and Mr. James Beer, Bass. Included in the programme were works of Faure, Bach, Mozart, Bryan, "A well-integrated ensemble, playing with care and taste" was the verdict of the music reviewer of THE VARSITY.

March 9th was the date of the second concert. Once again both Orchestra and Chorus combined to present a delightful evening. The guest soloists were Margo MacKinnon and T. L. Roy, soprano and baritone respectively. Featured works by Purcell, Bartok, Faure and James Guthro, a member of the orchestra. The Faure "Requiem" was the major work of the evening.

The Orchestra and Chorus are sponsored by the Music Committee of the Students' Administrative Council, and students of the University have every right to be proud of their achievements.

External Affairs Committee

of the

Students' Administrative Council

THIS committee was established this year to replace the local committee of the National Federation of Canadian University Students and the International Student Service. Its executive was made up of Graeme Ferguson, Joan Presant, Peter Alley, and Dr. Williams of the Psychology Department.

A sub-committee handled international affairs for NFCUS, and Syd Wax, its chairman, represented Canadian students at conferences in Rio and Edinburgh. At the latter, a secretariat was established to co-ordinate the activities of the Western National Union of students.

Another committee under Mary McIlwraith took care of NFCUS activities on the campus, and Elizabeth Richardson provided information on inter-university exchanges. The Host Committee was headed by Carol Rodgers and Frank Thompson. It did an excellent job in helping foreign students on the campus meet Toronto students. A similar job was done by Dorothy Lieberman's Week-end Committee, which organized the Carabin Weekends with the University of Montreal, and held joint week-ends with other Ontario Universities at Caledon Farm. EAC's publicity was handled by Barbara Screaton.

This year a successful campaign was held to raise money on the campus to help students in South-East Asia. A considerable quantity of medical supplies and educational equipment has been shipped to this area from the University of Toronto and I.S.S. in the past, and this year we continued our assistance.

This year the drive was known as the SHARE Campaign, and it was headed effectively by Tim Armstrong.

All in all, over seventy-five students and faculty members worked on the External Affairs Committee. With their co-operation it was possible for the committee to represent the University of Toronto in the national and international student field, and to send material aid to students in other parts of the world. As well, through seminars, discussion groups, social affairs, and conferences, the committee assisted the educational purpose of the university in promoting national and international understanding.

BRADING TROPHY DEBATE

University of Toronto Debating Union

THIS year saw the aetivities of the University of Toronto Debating Union extend to the international field as well as the sponsoring of interfaculty debating on the campus, which again, was very successful in produeing more interest in debating and in fostering better relationships between the colleges.

On Thursday, February 4th, Toronto played host to the Scottish team of Ian MacGregor of Edinburgh and Tommy Tomlinson of Glasgow and a Toronto team of Neville Taylor and John Barton represented the Canadian universities in the Brading Trophy Debate. John Morden aeted as Speaker of the House. Although they lost the debate 60 to 31, the Scottish pair were awarded the Brading Trophy by the judges, the deeiding faetors being their ease in presentation and in language.

In addition to being aetive in the Inter-University Debating League, the U.T.D.U. sponsored three tours for Toronto debaters whieh ineluded debates with Universities in the United States. John Medeof and Jim Jerome visited Montreal for Debating League engagements and were greeted by arrest on suspieion of theft. After release, they went on to win one and lose one debate in Montreal. Dwight Fulford and John Morden went on a five-day tour of New England, winning all of their debates from Wellesley College, Harvard, Prineeton, Georgetown and Howard Universities. A western tour to Chieago and middle western Ameriean universities was earried out by Miss Anne McGinn, the first woman ever to be included in a debating tour, and Bob Sheppard.

The inereased interest in debating whieh was stimulated by last year's U.T.D.U. has been eontinued and furthered by the efforts of the present Debating Union.

International Students' Organization

THE I.S.O. is not an old, long-established group by University of Toronto standards, but its short history has been one of extensive activity.

The aim of the I.S.O. is to help to integrate foreign students on the campus, to provide a common meeting place for them and Canadian students, and to assist in their adaptation to Canadian University life.

The I.S.O. never ceases to function. During the summer months there are many students who are obliged to stay in Toronto, their homes being too far distant. Last summer besides organizing activities for these students, I.S.O. assisted Friendly Relations with Overseas Students, which was responsible for a group of some twenty Europeans who spent the month of July in Canada. Outings were arranged to Caledon Hills Farm, and to the Hydro Electric Power Commission's plants on the Niagara Peninsula. Week-end excursions, wiener-roasts, the joys of the old S.S. Cayuga, Prom concerts, helped to fill the summer months.

This year has seen a continuance of club policy to hold, monthly, one social evening and two Coffee Hours. The latter take the form of illustrated talks, speakers, or discussion groups. As usual, I.S.O. was active in helping with the organization of the International Ball, an annual highlight on the campus. A Christmas dinner was held, and the executive is now planning the annual spring banquet, and May camp, held after the examinations.

We look forward to continued activity and expansion of outlook, which I.S.O. has never failed to provide.

The Commerce Club

THE Commerce Club is now completing its thirty-first consecutive year as the official undergraduate association of the Commerce and Finance course. This year the Club was fortunate indeed in having behind it the youth and vigour of Professor Beard, who capably acted as Honorary President and actively advised the Club.

The Commerce Club has two basic purposes underlying its activities. On the one hand, it provides a focal point for all students in the course who meet at social and recreational functions: on the other, it brings the members of the course and leading figures of the business world into closer contact. These purposes are fulfilled mainly by regular meetings in the form of luncheons and smokers dealing with current economic and general business topics, and featuring addresses by prominent business and professional men. These were attended by one hundred members on an average.

Reaching out further, several tours were organized during the year, for example to the Toronto Stock Exchange and General Motors at Oshawa.

The sixth annual Finance Frolic was again featured at the Club Embassy on January 15, and highlighted the year's social activities for both graduates and undergraduates. A Book Exchange operated in the Economics Building by the Club handled a record volume of business this year.

The Commerce Journal, *a* journal of economics containing fourteen articles written by prominent men from business, labour and the university was published again this year. The staff of the Journal which is separate from the Club Executive, is to be highly complimented for its excellent work.

La Cercle Francaise

THIS year the Cercle Francais of University College has again succeeded in its endeavour to keep the inimitable Gallic Spirit, without ever becoming overly academic in tone. The entertainment at the monthly meetings has ranged all the way from serious "poèmes dramatiques" to the most frivolous of skits, and the attendance has remained as high as it was last year.

The club's most notable new enterprise was the tour of the annual play. After its presentation in Hart House Theatre, Racine's "Les Plaideurs" was taken to the universities of McMaster, Ottawa and Montreal. The actors received most gratifying welcome and praise, especially in the French-speaking universities. In Montreal they had the distinction of being the first English-speaking troupe ever to present a French play there.

The magnificent costumes made for the play are being left as a legacy to future productions, and the Cercle receives a heritage of honourable reputation.

Ukrainian Students' Club

THE Ukrainian Students' Club was organized in 1940 by students of Ukrainian descent. With the cooperation of other Ukrainian groups and the general Ukrainian public the Club succeeded in overcoming numerous difficulties and finally established the Students' Loan Fund. Many a graduate will ever be grateful for the financial aid received from this Fund.

The threefold aim of the Club includes the cultural, social and athletic spheres of activities.

During the year, we were honoured by having several distinguished guest-speakers on Ukrainian literature, history, culture and current events.

The monthly socials, which provide a great deal of recreation and an opportunity for an acquaintance promoting cooperation and better understanding among the members, have become the traditional feature of the Club.

With regard to its outside activities, the Club takes an active interest in contributing its share to the other organizations on the Campus.

Last Fall, we prepared the Ukrainian section of the International Ball Programme which was sponsored by I.S.O. Besides, the U.S.C. supervised the decorations for this memorable occasion. Later in the year, a group of students provided an entertainment for the members of the I.S.O., at one of their socials. An attempt to teach the members a few Ukrainian folk dances was the highlight of the evening.

The early Graduation Banquet terminates our Club activities for the year.

In short, the U.S.C. endeavours in all its undertakings to promote friendship, mutual understanding and to cultivate among its members a consciousness of good citizenship.

Newman Club

FOUNDED in Toronto in 1913, The Newman Club of the University of Toronto aims at creating "a home away from home" for Catholic students. It is a religious organization established to serve the spiritual, intellectual, and social interests of Catholic students attending non-sectarian Universities.

The name is taken from John Henry Cardinal Newman, who has been chosen as patron of all such Clubs, in view of his work for Catholic students in the Universities of England, especially Oxford. The Club motto, "Cor ad cor loquitur," is taken from the Cardinal's coat of arms.

Newman Club is under the direction of a resident chaplain, Reverend Father J. E. McHenry, and a student executive body. It has its own Chapel—the students' Parish Church—and Hall—the meeting place for students from all faculties.

It is most essential that Catholic students avail themselves of the facilities and Catholic contacts available at the Club in their various extra-curricular activities. The religious activities include philosophy groups, annual retreats, and communion breakfasts. Very active participation is taken in debating, serious discussions, and drama. Another feature of intellectual activity is the active association of Newman Club with The International Movement of Catholic Students embodied in Pax Romana. Music appreciation, choral singing, bridge, chess, ping pong, and badminton create that informal social atmosphere characteristic of the "home away from home".

Hillel Club

THE Hillel Foundation aims to further the knowledge and appreciation of Jewish religion and culture; to establish an all-inclusive community framework for Jewish students of varying interests, opinions and beliefs; and to co-operate in the interfaith programme sponsored by the religious groups on the campus. The Hillel programme with its varied religious, cultural, social and interfaith activities, is designed to that end.

The highlights of the 1951-52 season were: the Hillel Regional Institute and Conference in Montreal; the Dedication of the Scrolls of the Law on two Sabbaths during the year; the addresses by Mr. John Roy Carlson, Mr. Will Herberg, Dr. Israel Knox, Mr. Pierre van Paassen and Dr. Trude Weiss-Rosmarin. The House Series included lectures given by Professors Edmund Carpenter, John Irving, David Savan and others.

Hillel sponsored also religious services, seminars, Hebrew studies, musical evenings, a dramatic production, an art class and a choir group.

Lecture discussions were held at Trinity College led by the Director, Rabbi Aaron M. Kamerling, and Assistant Professor of Oriental Languages, Rev. Carmino de Catanzaro. Topics dealt with were: "The Election of Israel"; "The Nature of Man"; and "Free Will and Determinism."

The social events attracted large gatherings of the student community.

H.M.C.S. "CRESCENT"

University Naval Training Division

Under Lieutenant Commander H. U. Ross and an able group of divisional officers, the one hundred and seventy-five cadets attached to H.M.C.S. "York" have spent the winter months not only in technical training but also in a greater number of social events than previously. Again this summer, training cruises will be sent to Europe, the Mediterranean, Mexico and California. This makes prospects for an interesting time, quite bright.

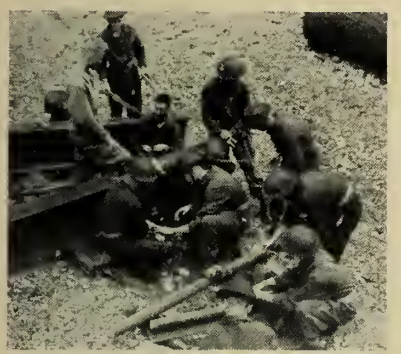

ON THE BRIDGE OF H.M.C.S. "SWANSEA"

Canadian Officers' Training Corps

DURING the summer over 250 Varsity Men trained at various Army Corps Schools across Canada to qualify as Officers in the Canadian Army. The Officer Cadets are now granted the Queen's Commission on the completion of their second year with the contingent and complete their third year training as Second Lieutenants with Canada's Active Force. Many of these officers will have the opportunity of training with the 27th Brigade in Germany during the following summers.

This year saw more than the usual number of campus parades. The Contingent was called out on the occasion of the Royal Visit and a memorial service for his late Majesty, King George VI in addition to the traditional Armistice Day ceremony. The C.O.T.C. Rifle Club held weekly shoots at the Hart House Range and a Mess Dinner was held in honour of the new intake. The season's activities were climaxed by the C.O.T.C. Ball which was held in Hart House in February.

A graduate of this Contingent, Lt. E. J. Mastronardi has been awarded the Military Cross for conspicuous gallantry in Korea. The death of the Honorary Colonel, Colonel H. J. Cody CMG. ED. was a great loss to the Contingent.

Royal Canadian

THE R.C.A.F., through its Reserve University Flight organization established at a number of Canadian universities, trains undergraduates during their academic years for service in its Regular or Reserve force.

Candidates are selected on entry for aircrew or ground training on a basis of quotas allotted, and individual preference and suitability. Undergraduates during training serve as Flight Cadets. On graduation from their universities, and satisfactory completion of their Air Force training, Flight Cadets are commissioned as Pilot Officers.

Winter training for Flight Cadets consists of a series of lectures in appropriate subjects. During the summer, Flight Cadets are posted to various stations throughout Canada wherever they can best receive the technical or aircrew training for which they have been selected.

The accompanying illustrations show some of the many activities enjoyed by Flight Cadets during their summer training.

Victoria College Liberal Arts Club

Honorary President: Kathleen Coburn
President: Donald Urquhart
Associate President: Joyce Upshall
Vice-President: Josephine Boyd
Secretary: Anne Weldon
Treasurer: Don Landon
Director of Music: Mary Rutherford
Director of Publicity: Bob Jackson

THE Liberal Arts Club enjoyed a very satisfactory season. Probably it was the most successful club at Victoria as to the number of meetings held and the attendance at them. This is as it should be since the club exists to provide for student needs not covered by other campus organizations.

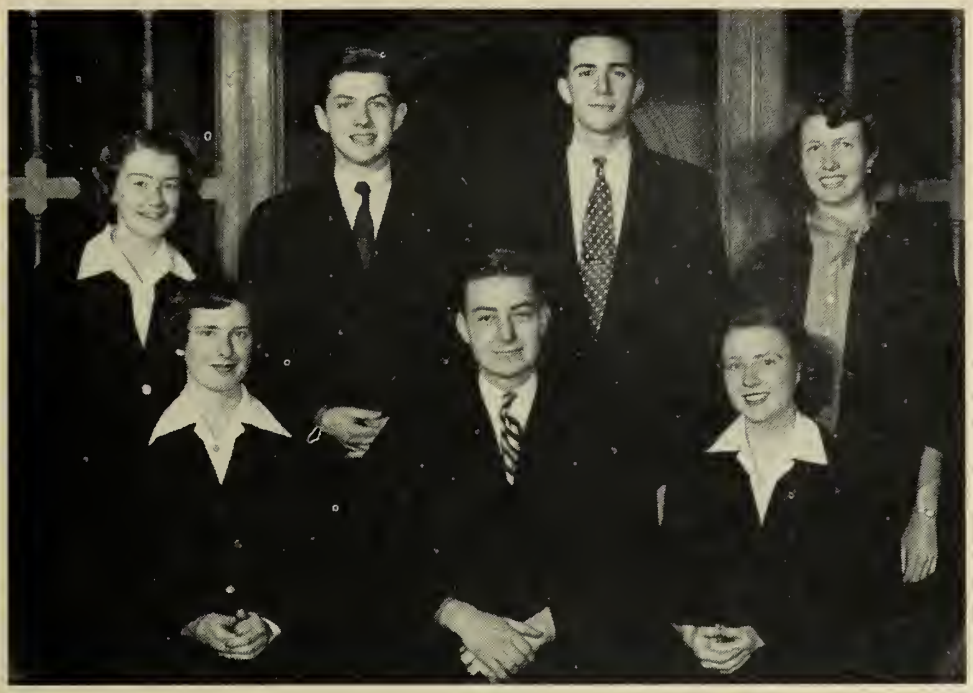

The season began with an Open Meeting which featured a series of skits satirizing the club. The rest of the year's activities could be divided under the three headings of literature, art, and music.

Under the first category would be included a series of Poetry Readings and of Writers' Groups. The Poetry Readings featured Northrop Frye who read from Blake, Frank Peddie who did scenes from Shakespeare, Kathleen Coburn who read from Coleridge, and E. J. Pratt who told us about his latest poem. The Writers' Groups are for students interested in creative writing. The guest-critics this season were Prof. Jenking, Prof. Frye, Prof. Robins, Prof. Coburn, and Miss Bogan.

Under the category of music would be placed the weekly Record Hours which wereheld until Christmas and the Student Composers' Concert. This concert is one of the club's main activities and features selected compositions by undergraduates.

Finally, this season the club took over the publicity for the series of art exhibitions in Alumni Hall. In addition to this, it sponsored talks by the artists Rody Kenny Courtice and Paraskeva Clark. An exhibition by student artists was also arranged by the club.

In all, therefore, the Liberal Arts Club is able to look back on a busy and enjoyable season.

Victoria College Music Club

WE like to remember that the Vic. Music Club has one of the firmest and longest traditions of any society at the College, and we feel that the 1951-52 season has seen a strengthening of that tradition.

Of course, as Angelina says in *Trial by Jury*, "Fairest days are sun and shade". There have been periods of shade: when our beloved fellow member, Bert Hornett, was taken from us; when we were worried about programme ads and ticket sales; when we failed to put spirit into rehearsals. But we shall always have sunny memories of pleasant associations with our new Honorary President and his wife, Dr. and Mrs. Love; of Charles Wilson and the Glee Club Concert (especially that encore of *"Twas the Night Before Christmas!"*); of our big double bill, *Trial by Jury* and *H.M.S. Pinafore*, under the direction of Godfrey Ridout and Geoffrey Hatton, that expert team which is getting to be a habit with us ("and a good one, too!"); of our cast parties, gatherings at Diana Sweets, and the gala At-Home.

These and many other features explain why we so often see the familiar faces of graduate members at rehearsals and parties, and why we know that we, too, will be coming back to Music Club activities for many years to come.

Vice-President—Robert Jackson

Business Manager—John Baylis
Publicity Manager—Kendall Cork
Stage Manager—Wilf. Pegg
Social Directress—Jeannine MacDonald

THE Victoria Dramatic Society is glad to report that her year has been, on the whole, a success both financially and critically. The only real complaint that can be registered is lack of time for more activities.

The first success of our year came with that well known farce "If Men Played Cards as Women Do". Jim Turnbull, Jack Rutherford, Bob Jackson, and David Peddie amused those who turned up for the first meeting of the club, with this well directed (Jim Turnbull) one-acter. Prof. Frye was one of those who helped to make succeeding meetings interesting.

Hart House viewers of Vic. plays were treated to "X equals O" by John Drinkwater, "This Property is Condemned" by Tennessee Williams, and "How He Lied to Her Husband", by Bernard Shaw. Doug. Quirk, Rupert Brook, Bruce Parsons, and Ray Carl acted in "X equals O" which was directed by Conroy Dowson. Bob Jackson directed "This Property is Condemned" which starred Eleanor Warnock and Doug. Quirk. Jo Shone, aided by her "lover" Art Pennington, lied to her "husband" Jim Turnbull, under the able direction of Dave Peddie.

Last among the one-act plays of the year was "The Farewell Supper", a comedy by Arthur Schnitzler. The Victoria Women's Association was very appreciative of the acting of Jo Shone, Ray Carl, John Bacon, and Doug. Hamlin. The play was directed by Ruth Bray.

"An Inspector Calls", by J. B. Priestly was the three-act presentation of the year. Donald Glen directed, and Ken Breen, Barb Walker, George McCowan, Doug. Quirk, Glorya Gillies, Jack Rutherford, and Anne Bradley brought the characters to life.

The year has been a busy one but the executive hopes that next year may be as profitable to the members as this one, and if possible an even better one.

Trinity College Literary Institute

THE T.C.L.I. is an ancient and venerable organization, older than the College itself which, as every schoolboy knows, is precisely one hundred years old this year. One might suspect that the Institute would exhibit some of the symptoms of old age, including loquaciousness, fossilisation, and a certain propensity to bore listeners. That most Men of College so regard it is indisputable, but whether the fault lies with the Executive of the Institute or with the taste of the majority of the Men of College is the question.

Long, long, ago, debating was one of the most popular of indoor sports, and it was possible to run student government on parliamentary lines and combine it with debating, with the assurance that a large proportion of students would take a vocal interest. However it is an undeniable fact that debating no longer holds the interest of any but a few enthusiasts. This year's Executive, recognizing and acknowledging the trend, refused to kick against the pricks, and adopted a new policy. Firstly, there was no attempt to raise artificial enthusiasm by lavish advertising, promises of food, well-known speakers, and ris qué topics. Secondly, as many debates were held as possible, with a view to giving all those who wished to speak a chance to do so, and thus the sacrifice of some quality to quantity was inevitable. The result vindicated our appraisal of human nature, for the attendance at debates did not decrease, proving conclusively that student apathy has been sadly underrated by the institute, as well as most organizations on the campus. It is no milksop thing that can be banished by the superfluous application of factors exogenous to debating, but is on the contrary the very cornerstone of the student moral fibre. In short the student has the courage of his apathy, and clings tenaciously to his fifth freedom i.e. the right to do nothing at all, from which nothing short of a national catastrophe could affect a dislodgment.

Little debating was done with other Colleges this year, the only notable example being a tour to West Point and Boston by Messrs. Fulford and Barton who debated the resolution "That the United States should join Canada". At the biggest debate of the year Mr. Robertson Davies and Professor Lyndon Smith opposed each other on the motion, "That the Canadian Environment is Conductive to A Distinctive Culture". This was called the Centenary Debate, but the title is slightly misleading, for no debating was done till the later portion of the evening. However Strachan Hall was filled for the occasion and the main speakers were good. Two joint debates with St. Hilda's were held. There remains the Annual Dinner of the Institute at which Mr. Lister S. Sinclair will be the guest speaker.

The activities of the Lit. other than debating might bear brief review. The Music Committee distinguished itself by purchasing no records for the first half of the year, and the record player not to be outdone, became inoperative for the greater part of the second half, thus inconveniencing the half dozen men of College who take advantage of the music facilities. The Arts and Letters Committee defunct last year through lack of attendance at meetings, remained in this happy state of oblivion this year, and so courageously pointed the way to many other organizations which have heretofor been unwilling to take the same step. The reading material in the Junior Common Room is the only function of the Institute which one might say with certainty is patronized by the majority of the students. It is our opinion that this interest can be fostered by the purchase of more picture magazines.

In closing, we are tempted to pause briefly and ask the question, "What of the future"? However, after some thought we rephrase the question to read "The future, what of it?"

St. Hilda's College Literary Society

THE Lit. has taken its accustomed place in the foreground of St. Hilda's activities this year. A lively interest was shown in both debating and dramatics, the former including not only the inter-year debates, but also four invitation debates, with Trinity and St. Michael's. The nonsense debate topic at the opening meeting caused campus-wide reaction—Resolved that men should be compelled to marry at the age of twenty-five.

Light topics continued to be debated in the debating club so that speakers had a chance to practise before attempting the formal Lit. debates. The calibre of debating was outstandingly high, and the first year women showed exceptional interest and ability that bodes well for the future.

Molière, Barrie, Sheridan, and A. A. Milne were represented in the four plays of the inter-year dramatic competition. Both audience and actors gained enough in knowledge as well as enjoyment from this varied programme, and once again the standard was kept high.

The end of term brings the annual dinner and the eagerly awaited announcement of awards, the debating shield, and the dramatic cup for inter-year competition, and the debating ring and best actress cup for individual merit. It has been another highly successful and memorable year.

United Nations Club

OFFICERS 1952-53

President	Rolland de Corneille
Vice President	William Dawson
Secretary-Treasurer	Penny Ketchum
Director of Public Relations	Wilfrid L.S. (Bud) Trivett
Members at Large	Walter Eze
	John Medcoff
	Jane Grey
Chairman, Steering Committee	John B. Tinker

The latest thing in Campus Clubs, The United Nations Club, was formed last October. Under the aegis of Michael Hind-Smith, Director of the Toronto Branch of the United Nations Association, an enthusiastic group of students launched this venture in grass roots world government. On United Nations day the constitution, prepared by a steering committee chaired by John Tinker, I Law, was adopted.

The aims of the U.N. Club as set forth in the constitution are to further knowledge of the United Nations its aims and work; to stimulate intelligent interest in and support of the principles upon which the United Nations is founded; to impart an awareness of the vital role played by the United Nations in our lives and to understand our responsibility to the United Nations.

To carry out these aims, the Club conducted two series of programmes. In four consecutive meetings, we considered the various aspects of a problem of current heightening interest. In the first term the topic was, "The Admission of Communist China to the United Nations" and in the second term, the explosive problem of the Suez Canal Zone. At each of the preparatory meetings, a guest speaker addressed the Club on certain phases of the subject. This was followed by informal discussion and refreshments, etc. The members then divided into eleven groups, one for each member of the U.N. Security Council, and proceeded to study their chosen Nation's point of view on the problem at hand. In the fifth meeting, having spent four meetings in preparation, the U.N. Club held the first Model Security Council meeting ever held on any Canadian Campus. All the procedure of the United Nations was observed and the issue was debated anew in the formal and sometime strained atmosphere of genuine United Nations Security Council meetings.

In addition to gaining an insight into the function of United Nations organizations, the student who becomes a member of the U.N. Club enjoys both warm friendship and stimulating discussion. Participation by all members is the keynote of the Club's activities. Our motto is: "You are the U in U.N."

> "We stand in need of some durable plan which will forever put an end to our hostilities and unite us by the lasting ties of mutual affection and fidelity."
>
> Isocrates:
> Circa 400 B.C.

The campus United Nations Club organized the first model Security Council ever to be held on a Canadian University campus. To publicize this event, Public Relations Director Bud Trivett, floated the above banner over the middle of the campus by means of balloons filled with helium. The banner was anchored in the top of the trees. Despite the damage by wind and rain we still think it was the best publicity stunt of the year.

St. Michael's College Co-operative

THIS HAS BEEN a big year for the Co-op in many respects. It saw the expansion into a new field of Co-operative Laundry. Although at the moment it is confined to a shirt and dry-cleaning service, it is hoped it will expand into a complete laundry service right on the campus.

In the field of education to the co-operative movement, a series of discussion groups proved highly successful, and a venture into the news world resulted in the "Co-op Rag", a somewhat spasmodic news sheet dealing with matters of interest to the members of the Co-op. Movies and guest speakers also formed an important part of the Co-operative's activities this year; these were aimed at making clear the value of the movement both on the campus and in the larger sphere of consumer economics.

Plans for the future of the Co-operative are a little hazy at the moment. We know definitely that next year we will be operating from temporary headquarters until the new building is completed. More than that we dare not say.

This year will also leave us with a loss—of those members whose interest in the Co-operative has been outstanding throughout their whole period at St.Michael's College, to them we can only say thank you sincerely, and we who are still here will try to foster in the coming years just such a co-operative spirit as you leave behind.

Students' Administrative Council Honour Awards 1951-52

The HONOUR AWARD of the Students' Administrative Council is granted to those students of the graduating year who have contributed most notably to the undergraduate life of the University as a whole. The recipients are determined by an Honour Award Committee on the basis of nominations received from the various colleges and faculties. The award is symbolized by a gold key and certificate which is presented by the President of the University following the Convocation ceremonies.

University College

MY colleagues on the teaching staff of University College join with me in offering congratulations and best wishes to the members of the graduating class. You are looking forward to new adventure. We trust you always will.

Perhaps your high hopes for the future are not untinged with some regret at leaving. We too are sorry to see you go. If we have been fortunate enough to leave some slight imprint on your lives, most assuredly the contribution you have made to ours with your enthusiasm, frankness and, at times, your healthy scepticism, has been by no means small.

If something in the way of parting exhortation is expected of me, let me urge that 'our democratic way of life' be an ideal of constantly increasing significance to you. Your College has offered you a very special opportunity for learning tolerance, mutual understanding and cooperation. Your obligations and responsibilities will be the greater for having enjoyed this privilege.

While University College has reason to be proud of its many distinguished graduates—prime ministers, chief justices, outstanding leaders in Church and State—its pride is no less great in those whose goal has been set by Thomas Huxley in these simple terms: "We live in a world which is full of misery and ignorance, and the plain duty of each and all of us is to try to make the little corner he can influence somewhat less miserable and somewhat less ignorant than it was before he entered it"

Victoria College

THE time when the University bids you, its students, farewell at graduation comes all too quickly. While we rejoice with you in the completion of your undergraduate work, yet, we are reluctant to let you go for it is as though we were bidding farewell to a member of the family. However, as you face this graduation, there are some things that should be said to you. It marks for you a time of transition from one area of community life to another. For several years now the pattern of your existence has been largely determined by the programme of University life. The work and recreation, the associations and friendships, the values and goals of classroom and campus have shaped your days—and nights.

Now you move on to another phase of your life in human society. Many and varied are the fields of human activity you have chosen and to which you will go. Many and varied will be the experiences that await you there. It is my hope that there will be an effective "carry-over" from your University life. This means that I hope the friendships you have formed here will continue to enrich your life; that the disciplines which you have undertaken in the University, sometimes at real cost and sacrifice, will continue to form the pattern of your days; that the values which you have found to be good here will continue to motivate your life; that the interests you have formed will grow and expand and fill your life to the full; that the skills with which University training has provided you may be found to be adequate and worthy. My wish for you, then, at graduation, is that you will leave Victoria and Toronto with a capacity to think clearly, to stand by convictions and to act responsibly and with integrity. These surely are the marks of an educated person, and these are an indication that you have made the most of University days. My colleagues at Victoria College join me in these greetings and extend to you our heartiest good wishes. You will still belong to the family when you leave us and I hope you will always be loyal and affectionate members of it.

ON THE OLD ONTARIO STRAND

FOR the first fifty-six years of its history Victoria University was located in Cobourg. The Upper Canada Academy was opened in 1836 and on October 12 of the same year the Royal Charter was granted by King William IV. In 1841 the Charter was extended to include degree-conferring powers and the name was changed to Victoria College. The first degree in Arts in Ontario was conferred by Victoria College in 1845 on Oliver Springer.

A Faculty of Medicine was added in 1854; a Faculty of Law in 1860, and a Faculty of Theology in 1871. A department of Science was organized, and Faraday Hall, opened in 1877, was the first building in the province erected and devoted exclusively to scientific work.

In 1884 the name was changed to Victoria University. Egerton Ryerson was responsible for securing the Royal Charter and he was the first Principal of Victoria College in 1841. In 1850 Samuel S. Nelles took charge of the College. Under his wise and far-sighted guidance the work of Victoria grew and expanded as additional faculties were added. Yet for all his foresight, it is doubtful if Principal Nelles could have imagined the proud place Victoria holds today, boasting a registration of 1,321 students, and federated with one of the largest Universities in the Empire. The process of that federation and expansion we shall now trace.

FEDERATION WITH THE UNIVERSITY OF TORONTO

The federation of Victoria University with the University of Toronto became an established fact in 1892. Victoria was a pioneer in setting up the system of education by which the provincial university and three independent denominational universities and colleges have, in the course of time through their federation agreements, established the Faculty of Arts of the University of Toronto as it exists today.

Since 1892 Victoria University has conferred degrees in Divinity only and her power of conferring degrees in Arts, Medicine, Law and Science has remained in abeyance. From 1892 to 1928 the organization of Victoria University consisted of two faculties, Arts and Divinity. The task of putting university federation into operation and of moving from Cobourg to Toronto was accomplished by Chancellor Nathaneal Burwash, who had succeeded Dr. Nelles in 1887 and held office until 1913. His name is perpetuated in Burwash Hall.

During the difficult war years, and during the period of expansion in 1920-30 when there was a large increase in the number of students and when many new buildings were added, Chancellor R. P. Bowles guided the destinies of the institution.

GROWTH AND REORGANIZING

Residence accommodation was provided in Cobourg, but for the first eleven years in Toronto, Victoria had no residence for students. The Annesley Hall Women's Residence was opened in 1903. The Birge-Carnegie Library was completed in 1910. Burwash Hall and the Victoria College Men's Residences, the gift of Mr. Chester D. Massey, were opened in 1913.

In 1926 Mrs. E. R. Wood presented her residence "Wymilwood" to Victoria for use as a women's Students' Union and Residence. Lady Flavell very graciously and generously furnished the building. This building is being taken over by the University of Toronto and the facilities heretofore offered by "Wymilwood" will be replaced in a portion of the new Victoria College Students' Union now in course of construction.

Emmanuel College and the Emmanuel College Men's Residences were first occupied in 1931. Victoria now has residence accommodation for about 250 women students and about 260 men students.

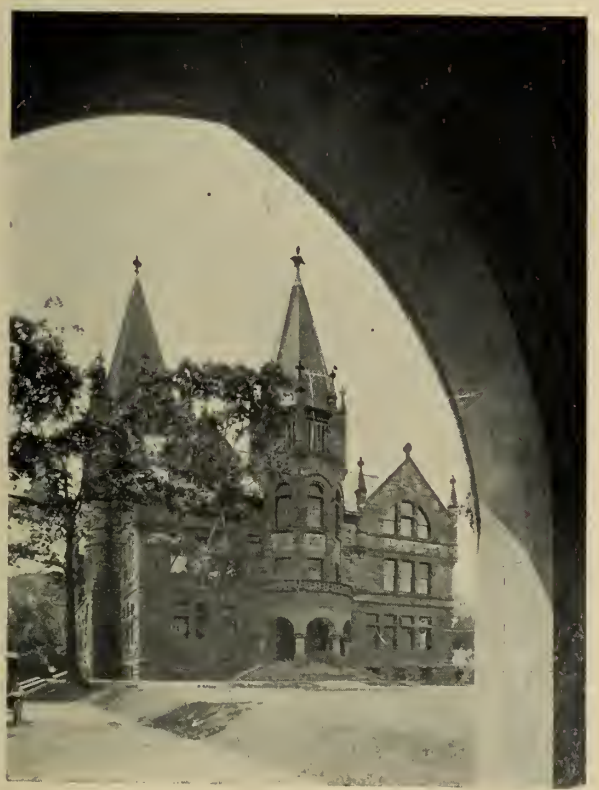

Church union in 1925 affected both the work and the organization of Victoria University. The Victoria University Act of 1928 provided for two colleges, Victoria College in Arts and Emmanuel College in Divinity. In 1930 Dr. E. W. Wallace succeeded Chancellor Bowles.

IN WAR AND PEACE

In February, 1941, Principal Walter T. Brown of Victoria College was appointed Chancellor and President of Victoria University, succeeding Dr. Wallace who had resigned. In 1944 Dr. Brown's title was changed to President and Vice-Chancellor of Victoria University. In June, 1949, President Brown retired because of ill health.

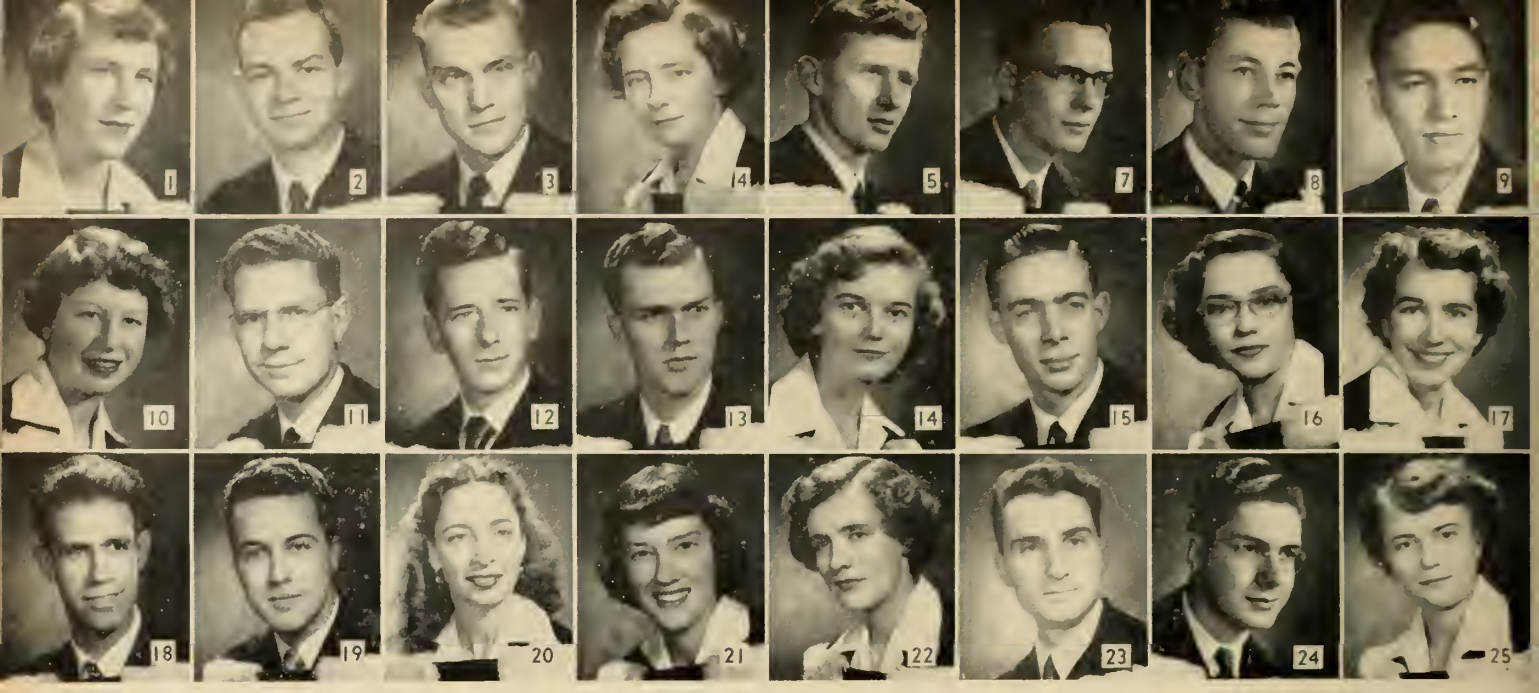

From May, 1941, until May, 1944, a number of Houses of the Men's Residences were occupied, first by members of the R.C.A.F. taking the Radio Technicians' Course, and later by members of No. 1 and No. 2 Canadian Army University Courses.

During the session 1951-52 there are 1,221 students in attendance at Victoria College and 100 in attendance at Emmanuel College. On the Victoria University Roll of Service there are the names of 1,408 men and women, graduates, under-graduates, former students and members of the staff of Victoria College and Emmanuel College. Seventy-seven of these made the supreme sacrifice.

In 1950 Rev. Dr. A. B. B. Moore was appointed President and Vice-Chancellor and was installed on November 15. Professor H. Bennett is Principal of Victoria College and the Rev. Dr. A. D. Matheson is Principal of Emmanuel College.

On February 4, 1952, the Hon. Lester B. Pearson'17 was installed as Chancellor of Victoria University, succeeding Major-General A. C. Spencer whose term of office had expired.

Trinity College

REV. R. S. K. SEELEY
M.A., D.D., LL.D.

IT is with special pleasure that I write a word of greeting to the Graduating Class of 1952, for you are the Class of the Centenary Year. No other class can ever take from you that distinction, and your graduation marks a hundred years of learning and wisdom passed on from teacher to student within our walls. How different you are from the first graduating class of this College. You are ten times more numerous than that little group. Their courses had comprised a few standard subjects—you have had open to you every branch of knowledge. They went out into five or six professions. You are going into many spheres of activity. You show in fact how far the College has advanced in the hundred years of its existence. And yet all these differences are superficial. That first class went out as a group of men of sterling character ready to do their part in building up a young country and putting at its service their gifts and talents and potentialities. I do not think that you are very different from them. Like them you have learnt what living in a community means. You have learnt to be self-reliant and yet conscious of your debt to the community as a whole. You have learnt to share your abilities and gifts that the whole may be enriched. You have learnt that freedom means responsibility and that no one can live for himself alone. You have learnt to respect the opinions of those who differ from you, to admire the talents which vary from your own. And I believe you to be men and women of purpose who are determined to give to the community rather than to receive. So you are a part of our tradition, and we look forward to the contributions which you will make to the larger world into which you now go.

We would like to thank you for what you have given to our life here. Your contribution leaves its mark upon our society, and it is not an insignificant one. We shall be mindful of it and others will be the richer for it.

We do not bid you goodbye, because you are always members of our family and we welcome you now into the fuller life of our graduates and alumni. We do wish you God-speed, and may success crown all your undertakings.

St. Michael's College

REV. FATHER L. J. BONDY
C.S.B., M.A., Ph.D.

TO the Graduates of St. Michael's College: You will go down in the Annals of the College as the Centennial Graduates. You have already shown that you appreciate the honour. and it will probably serve to bind you more closely together in the years to come. May I point out to you that this distinction carries with it a certain responsibility. St. Michael's is now one hundred years old and begins its second century in what seems to me a very healthy state. This is not due to chance but to a conviction ever living in the hearts of staff and students that the College was and is doing a work of great importance not only to those who are or have been students here but also to the much larger number who come under their influence. The spirit that animates St. Michael's is not easily analized but I can at least point out what I consider its salient characteristics. First, a deep love of Christ and a living desire to be faithful to Him and His teachings in whatever walk of life you may be called. Secondly, a reverence for and a devotion to truth at all its levels. It will now be your responsibility to keep this spirit alive in your hearts and to spread its influence around you. You will not find it an easy task.

There have been few times in history when Christ has had so many positive enemies. Lying and deception are widely recognized as legitimate tools in the pursuit of political or economic success. Even among scholars, the very existence of truth as an absolute is often challenged. If you should yield to pressure and accept a compromise on either of these points, it will be difficult to recognize you as a true product of St. Michael's. May the God of truth give you the determination and the strength to live by the principles that have animated your student years.

President's Message

M. PAUL FORRESTELL

THROUGHOUT our college years we have all striven for one end and that end was to successfully complete our college education and receive our degree. Yet this degree is not an end in itself, but rather the education, both moral and scientific, that we have received at St. Michael's and the University is that end. Today, marks the completion of the university phase of that education and we stand as graduates upon the threshold of a world that awaits us with almost frightening consequences. It is our duty to face this world with all the moral and intellectual armaments that our college career has provided and to aid in making it a better place to live. This in itself is a very difficult task and if we intend to fulfill our duty we must continue on in the search for truth and goodness and must strive to apply these principles to our every action. Then and only then, when we apply these principles to our lives, will we be truly repaying the debt we owe to our college and our fellow man.

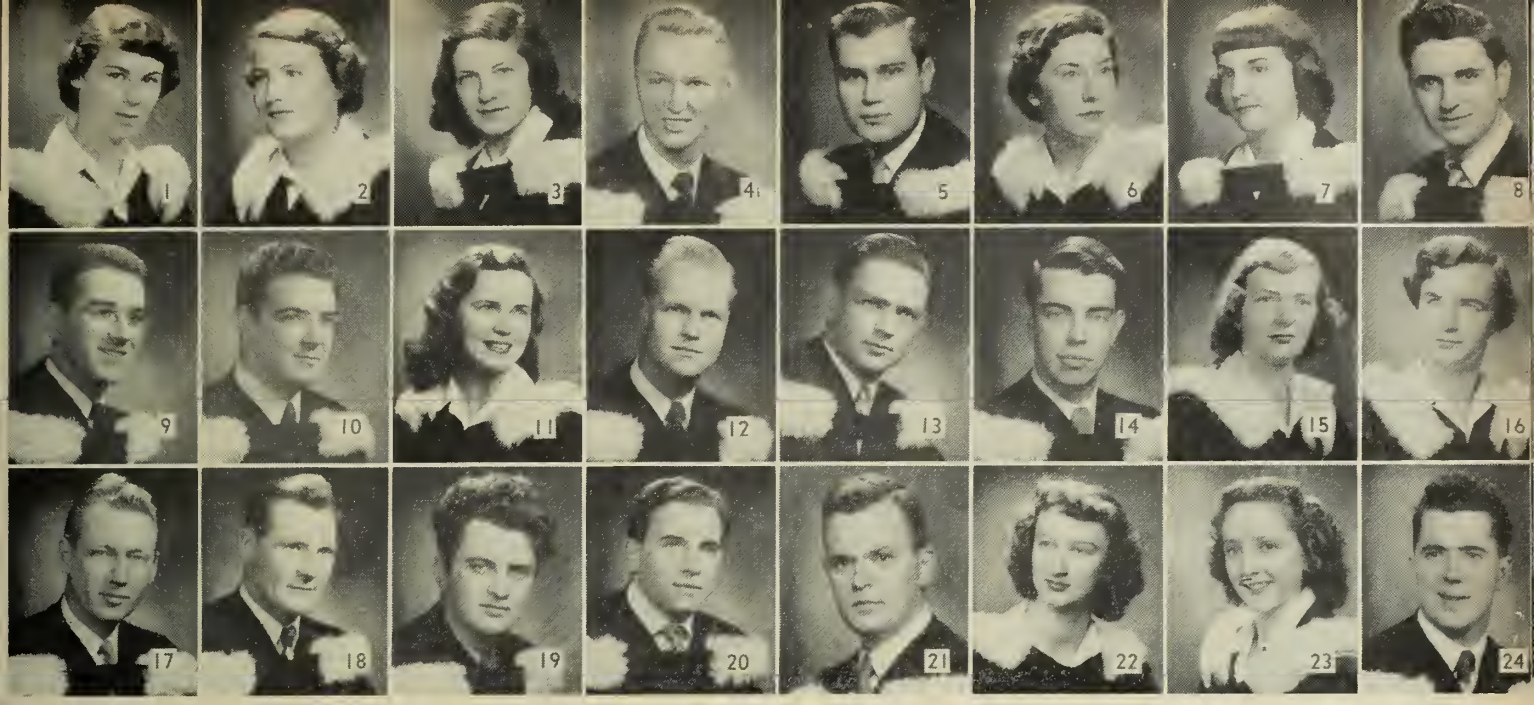

For one hundred years St. Michael's College has been graduating students imbued with the three principles emblazoned on their crest—Goodness, Discipline and Knowledge. We are truly a significant graduating class as we symbolize the one hundred years of activity at St. Michael's College. The deepening tradition and excellent education given to us by the Basilian Fathers at St. Michael's has left us with a great debt to repay. We thank the faculty for their unceasing efforts and devotion in presenting to us the treasure that is St. Michael's.

Yet another debt is owed to the University of Toronto for the opportunity given to us. We are graduates of one of the finest Universities on this continent and the calibre of the faculty and quality of education leave us with the duty to prove ourselves worthy of this honour.

On this day, we also realize the great debt of gratitude owed to our parents, friends and advisors who had made our stay at university possible. Without their aid, advice and inspiration all would have been impossible. To them all, we offer our sincerest thanks and ask them to share with us in the happiness of this day and the success we hope for in our lives.

It is with regret that we leave the companionship of so many true friends. However, this bond of friendship, cemented by the spirit of St. Michael's, shall always remain with us. Here the true value of friendship has found its home.

To my fellow graduates I offer my sincerest thanks for all that you have given me by your companionship, advice and aid. Today, as graduates of St. Michael's, we face a hostile world and to you I wish every success and happiness in your future endeavours. As the Centennial Class we have a very special bond that shall draw us closer to St. Michael's and all that its hundred years of achievement signify, but also, it shall draw us closer to each other.

Commerce and Finance

C. A. ASHLEY
B.Com., F.C.A.

SOME students come to the University already possessed of intellectual curiosity; some develop it during their first years; and some it surprises in their final year. To discover it, or to provoke its activity, is one of the most rewarding experiences of the staff. If we could but measure it, how much more satisfactory it would be than our present entrance standards!

Sir Hector Hetherington says that in Universities ". . . we miss the summit of it all if there be no moment when the mind of the learner takes fire, when he has sight of a kind of perfection attainable in this activity, so that here at least he has hold of an ideal standard, and wants with all his heart to do this as well as it can be done." To find something one thinks worth doing and to do it as well as one can is a far surer way to contentment than is the pursuit of happiness. We hope that you have found this contentment in the University, and that you will continue to find it throughout life. We hope and believe that we have escaped the danger against which Bernard Shaw warned of "producing hardy bodies and timid souls."

Basking in the reflected glory of Mr. Macdonald's Rhodes Scholarship, we shall watch with interest, and we expect with satisfaction, as you find and establish your places in the community.

THEOLOGY

Knox College

REV. W. W. BRYDEN
M.A., D.D.

YOU are entering your ministry in a singularly unstable age. A distinguished historian has said: "The great ages have always been unstable when not too unstable." This is true but only so when there has emerged among the hazards of this world, a new and profound sense of the sovereign power of God which completely transcends all earthly powers. The tragedy of this age is that such a belief is not as yet very perceptible. Countless adverse influences have wrought into our very souls and personalities a strange instability in our belief in God. Our wavering desires and diverse self-centred interests have become a substitute for faith in God.

A famous theologian has written: "We never truly believe in God until we have come to that place where we cannot believe in anyone or in anything but God." This is not to disparage men or world institutions, because if Christian experience has taught us anything, it has taught us to have respect for all kinds and conditions of men, and to appreciate the value of proper world orders. But it does mean that our security is in God alone and not in ourselves, and that there is no power except God's exclusive power which can "overcome this world". Good works and well wishes are fruitless unless they proceed from the Creator, the Preserver, and the Redeemer of men. In that fact we must put our entire trust. To believe that God is sovereign is to be convinced that God's power has the measure of every power of this world because it is uniquely His own, and despite appearances to the contrary, His purposes therefore cannot be mocked nor can anything in heaven or on earth prevent their fulfilment. This is the foundation of the Christian faith and the strength of the Christian life.

This Sovereignty of God has another application. God calls men to tasks which, humanly speaking, are impossible. St. Paul said: "I have planted: Apollos watered: but God maketh the seed to grow." No work or gift of man can create faith. Let us remember this in all our preaching and pastoral work.

This is the message I would leave with the members of this year's graduating class.

Wycliffe College

REV. R. ARMITAGE
M.C., M.A., D.D.

IN a house at Blackheath, where missionaries from all over the world have found welcome and hospitality, Max Warren, one of the most able and invigorating evangelical statesmen of our Mother Church in England, has hung this motto of challenge on the wall:

"No man is safe unless he swings his life between a risk and an opportunity".

This is a good word for the Wycliffe graduating class of 1952.

You go out into a world which is rich in opportunity: opportunity for service: opportunity for witness. With St. Paul it is for each one of us to say: "I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to everyone that believeth."

We recall again how St. Paul to the Church in Philippi wrote of his brother and fellow-worker and fellow-soldier as having "hazarded his life for the work of Christ".

No man is safe unless he swings his life between a risk and an opportunity.

Trinity

REV. C. R. FEILDING
B.A., B.D., S.T.D.
DEAN OF DIVINITY

TO the Divinity Class of 1952: You go out from here with the warm regard of many friends. We have enjoyed your company in the common life of prayer and study and we have confidence that whatever was good in that life you will perpetuate in other fellowships in other places in the future. All of you can recall a childhood spent during the great depression which began in 1929; you have all lived through a World War; you have all experienced the disappointments which followed the end of hostilities; none of you was brought up in a world of self-satisfied security. It is perhaps for reasons such as these that your generation has been marked by a rediscovery of theology which would have startled the students of twenty-five years ago. I hope you will go on exploring the rediscovered territory and never allow yourselves to become isolated on the first peninsula where you have managed to secure a foothold in the last three years.

At the turn of the century, theologians were learning critical honesty in dealing with sacred writings; they had, as it were, rediscovered truth. They were followed by students with an intense political and economic concern, the protagonists of the social gospel; they had rediscovered justice. Next came the theologians' and pastors' concern with psychology and the sufferings of the one individual man; they had, one might say, rediscovered love. Today our concern is for the fellowship of love and faith in which the individual may grow; we are in fact rediscovering the church. If we have consolidated these discoveries of yesterday and today, we shall be equipped for the discoveries of tomorrow, and when you look at these pages in the years to come, I hope you will be able to bring this paragraph up to date.

REV. A. D. MATHESON
M.A., B.D., D.D.

TIME runs swiftly. Before you realize that it is so you will be out in the midst of life's activity, and doing your part in the work of the Church.

Your years of study at Emmanuel have given you an introduction to those disciplines that have been regarded for centuries as basic to the work of the Christian ministry. We sincerely trust that you may maintain the habit of study, and press on into areas which you have as yet only begun to explore. We expect that along with a passion for truth you will witness also to the tenderness of the Gospel, and that in your lives you may exemplify the love of Christ.

It has been good to know you, individually and as a class. As you go to your several appointments we shall continue to be interested in you and yours, and in the quality of your service. We have strong confidence that you will accomplish an effective ministry.

Carry with you the great affirmations of the Christian faith. Speak with a note of authority which comes from beyond yourself, for you have been called to the Master's Service.

Remember that people need encouragement and often a word of comfort. Both you and they must needs face the world with courageous heart. And well you may, for He whose you are has said "Lo I am with you alway".

MEDICINE

J. A. MacFARLANE

O.B.E., B.A., M.B., LL.D., F.R.C.S.

Faculty of Medicine

ANOTHER class has completed successfully the undergraduate course in medicine, and I am delighted, in the name of those who have been responsible for your teaching, to offer congratulations and best wishes for a happy and useful career in your profession. It has been said that the average doctor does not attain his full promise or maturity until he is forty years of age. It will be obvious, if this is true, that you have accomplished perhaps only one-sixth of your course, that you will continue to learn and mature at least for another sixteen years, and indeed most of us believe we must continue to learn during the entire span of our active professional life. Many of you will take further work in hospitals for one, two or more years. This phase of your life should, and almost certainly will, be a happy one, particularly if you can cultivate that frame of mind of which Sir William Osler spoke in a lecture to the students at Yale. "The load of tomorrow, added to that of yesterday, carried today, makes the strongest falter." He was, of course, speaking of the virtue of living for the day, and having completed a good day's work, leaving the morrow to look after itself. I believe it may be a mistake to plan too ardently and conclusively for the future. All of us seek happiness. You are fortunate in the beginnings of that quest. You have chosen to serve at a shrine where many of your predecessors have found it, and you live in a land favoured in time and circumstance. Those of you will be the happiest who can put away the ills of the past and the uncertainties of the future, and live as did Osler the full life of the present.

FACULTY OF MEDICINE

Physical and Occupational Therapy Division

A. ZINOVIEFF
M.R.C.S., D.Phys., Med. Eng.

THE sincere congratulations of the Staff of this Division go out to you on your graduation.

The really interesting part of what you have trained for is now to come, for you will have the great satisfaction of contributing materially to the rehabilitation of the sick and the injured. Although to you personally, the contribution that you make will naturally be the main interest and of the greatest importance, you must at all times remember, that successful rehabilitation is dependent on good team work, and it is well for you to establish the best possible relationship and understanding with the other members of the team.

To those of you who will make your profession a career, I would say that, only by continued study can you attain first class proficiency. Your reward will be the gratitude of patients who have appreciated your understanding of their total problem and the result of your efforts in helping them to achieve health and happiness.

ENGINEERING

Applied Science and Engineering

K. F. TUPPER
O.B.E., B.A.Sc., S.M.

IN the history of engineering education, few classes have graduated at a time when employment was so brisk. As I write, in December 1951, it is reported that there are at least two vacancies for each member of the 1952 class. Each graduate will have his choice of several offers.

I regard this happy situation as a mixed blessing. We like to know that our training and skill is wanted by society. It is good that there is work to do.

Nevertheless, I must caution the 1952 graduating class against getting erroneous ideas about their value to their employer and to society and a false idea of the appropriate price for their services. There is no doubt that the law of supply and demand is operating to push the remuneration for young graduates to new high levels. Engineers may expect ultimately to be paid exactly in proportion to the value of their contribution to society. The young man whose starting price is set high by competition may expect that his financial progress over the years will be a little slower until the rising value of his services catches up with his salary.

It will perhaps come as a surprise to learn that industry has a large investment in its young engineers. The cost simply of hiring them runs into the hundreds and sometimes into the thousands of dollars per engineer hired.

During the first two years of employment, few firms expect to recover more than a fraction of the amount they pay out in salaries. This means that at the end of two years of continuous employment the employer still carries a net deficit—often as much as three or four thousand dollars—which must be offset by services rendered in the future. The employer recognizes a break-even point occurring perhaps sometime during the fourth year of employment. He obviously does not like a high turn-over rate during these early years. Please bear in mind if you flit from job to job that your fickleness is just as apparent to your new employer as it is to the one you have left.

I feel confident, however, that the vast majority of our young graduates in engineering will soon adapt themselves to conditions in the outside world. I am also certain that they will be a credit to their profession and to their alma mater.

IN this world today the men and women most likely to succeed are those who are willing and who know how to use their hands as well as their heads.

In a letter written by Thomas Jefferson in 1805 he said—"Of the importance of turning knowledge of chemistry to household purposes. I have long been satisfied . . . . The chemists have filled volumes on the composition of a thousand substances of no sort of importance to the purposes of life; while the art of making bread, butter, cheese, vinegar, soap, etc . . . . . remained unexplained".

It is the hope of the staff in the Faculty of Household Science that you who are graduating from this Faculty and your sister graduates in Household Economics in the Faculty of Arts have learned not only to apply your knowledge of chemistry to the home but that your background in the humanities as well as the various sciences will become a part of your everyday living.

Many doors are now open to you. Some of these lead to community nutrition, dietetics, teaching, demonstrating, textile development, journalism and so on, but all of them, because of the ideals on which your course in Household Science was built, should give you the opportunity, either directly or indirectly to improve family living in Canadian homes.

And now on behalf of the staff members of the Faculty may I express to you our best wishes for future success in whatever career you undertake.

M. DOREEN SMITH
Secretary

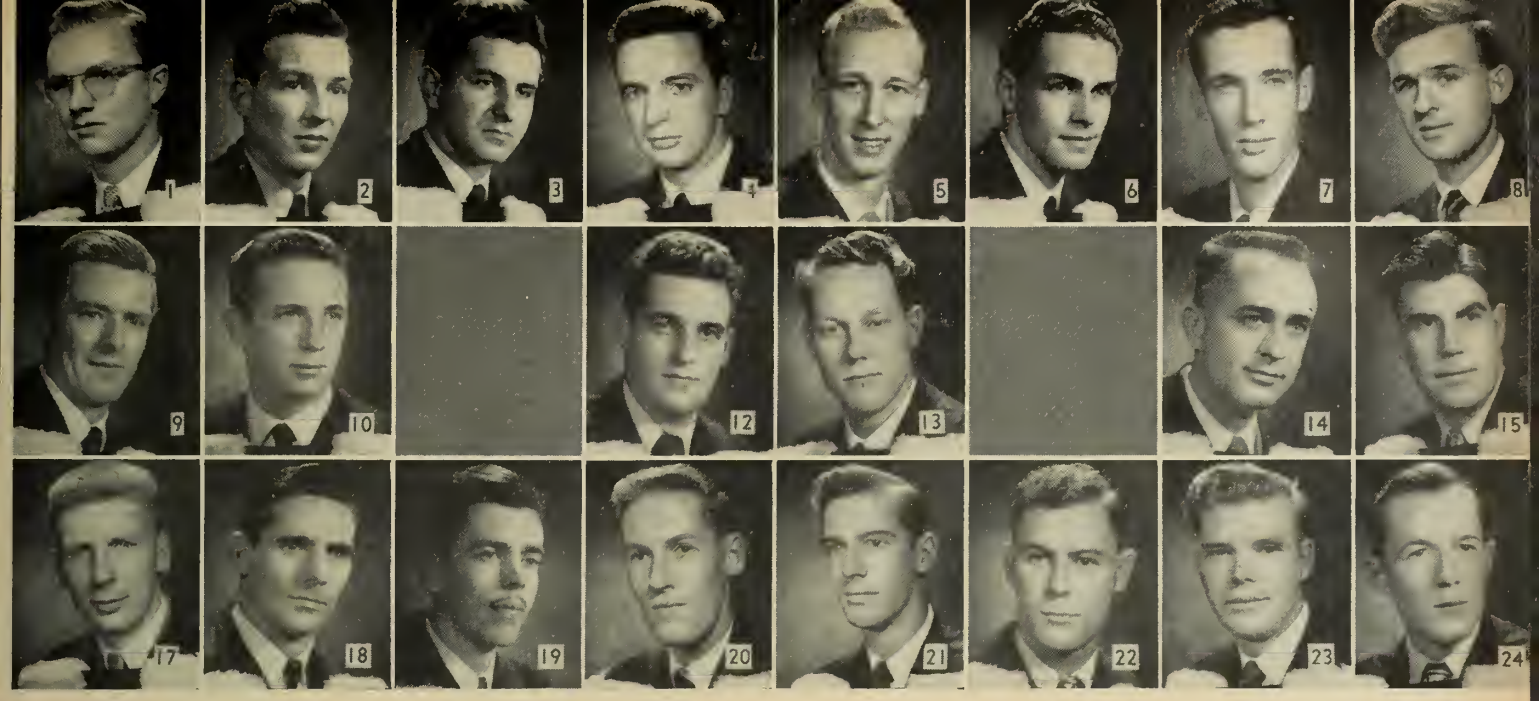

Faculty of Forestry

J. W. B. SISAM
B.Sc.F., M.F.

YOU, who are now beginning your forestry career, will, I am sure, find ample opportunity for employment and advancement within your profession during the years ahead. In spite of the large numbers that have graduated from our forestry schools in recent years, these opportunities are probably greater in Canada today than ever before, not only in connection with the extensive surveys and woods operations that are being carried on, but also in programs of protection, management and research that are concerned primarily with ensuring future supplies of timber and the proper use of the forest resource in our economic development.

This favourable condition and the general progress that has been characteristic of Canadian forestry in recent years have come about largely as the result of the efforts of the foresters themselves, individually and collectively. This must also be true of future progress. Advances can take place only if members of the profession are giving constant attention to the many problems affecting proper forestry practice, each in his own field, and together making every effort for their solution. It has taken more than one hundred years for certain European countries to attain their policy of carefully guarded and intelligently tended forests. So much the harder must we work to attain our goal in a country only now beginning to be forestry-conscious. To this end, you of the present graduating class and your contemporaries will have some responsibilities, as on your efforts will depend very largely the pattern of our forestry practice in the years to come.

The good wishes of your Faculty go with you in the new venture on which you are now entering. We shall watch your careers with interest, and look forward to your revisiting us whenever that is possible.

Faculty of Music

SIR ERNEST MacMILLAN

B.A., D.Mus., LL.D., Mus.Doc., D.Litt.

ONCE again the members of the Faculty of Music join with me in extending hearty congratulations to the members of the 1952 graduating class. We hope that when you leave us you will take with you happy memories of your student years, and if possible return from time to time to let us know how you are faring. You have all, I am sure, worked hard and faithfully with the course set down. and I hope you have also found it possible to take an interest in many branches of music which cannot be included in the curriculum. I trust you will meet with every success in your future activities and be guided by the inspiration that comes from study of the great composers.

CONSERVATORY OF MUSIC

DENTISTRY

Faculty of Dentistry

R. G. ELLIS

D.D.S., M.Sc. (Dent.), F.D.S., R.C.S.(Eng.)

ROBERT LOUIS STEVENSON once wrote: "It is better to travel hopefully than to arrive". Stevenson had travelled widely, and had learned by experience that there is more real satisfaction to be found in life while working toward an objective, than in marking time at the site of the objective. The first thought that I would leave with you, then, is that you will travel on hopefully from one objective to another beyond the day of your graduation.

One of the great men of dentistry, the late Dr. G.V. Black, who contributed much to the science and art of his profession, in counselling a group of young graduates on their graduation reminded them that "A professional man has no right to be other than a continuing student". You are all graduating in a professional field, and I would ask you to heed Dr. Black's challenge. It applies to engineers, architects, forestry graduates, and dentists alike. In accepting this challenge, give the broadest interpretation to those words. If you do so, you will be "a continuing student", not alone in your special field, but also in its significant relations with the rest of truth. I would remind you that "the greatest legacy of a sound education is the acquisition of a vigorous curiosity, a critical spirit of enquiry, and a thirst for further intellectual and aesthetic experience".

The third observation I would make relates to the specialized nature of the courses you have pursued. Indeed, our age has been referred to as an age of specialization, and great controversies have centered around the philosophy of specialization. For the benefit of those who would be reminded, a specialist is one who knows more and more about less and less, and ultimately is said to know everything about nothing.

I sometimes wonder whether the extension of specialization to the great assembly lines in industry, where a worker specializes, let us say, in the insertion of one bolt as each automobile or washing machine or what have you, passes his station, has any relationship to the social and international problems of our world today. Has our viewpoint become so limited that we find it difficult to appreciate the other fellow's point of view? And yet, it is understandable that with the frontiers of knowledge being extended continually, through research, we can acquire mastery only over limited fields. These circumstances demand that we study the inter-relationship of our specialized field with the rest of truth.

In conclusion, let me observe that on your graduation day you should be ready to begin the next phase of your education, namely, that which you pursue on your own, for the rest of your life. In bidding you God-speed, may I reiterate that we couple with our congratulations the wish that from this day forward you will "travel on hopefully", that you will be a "continuing student", but not let your horizons become restricted through the process of specialization.

School of Law

C. A. WRIGHT
K.C., B.A., S.J.D., LL.D.

LAWYERS have been criticized for looking backward rather than forward; for acting as a force of reaction rather than a creative branch of society. From the very nature of law and its desire to preserve the benefits of the past against the passions and pressures of the moment, some of this criticism has a certain validity. But the great men of law have always been creative and never content to leave the law as it came to their hands. To hold fast to what is good and to build on a firm foundation is one thing. To imitate blindly, to accept as inevitable the solutions of yesterday for the problems of tomorrow, is to deny the sovereignty of human intelligence and at the present time to invite chaos.

As you approach graduation, we of the Faculty would like to think that you had acquired from your studies here, three things. First, that as lawyers entrusted with the peculiar privilege of administering the law, you will feel a sense of individual and collective responsibility to society so to act as to improve that law, not for the benefit of individual clients but for society itself and for the attainment of a better and more peaceful ordering of men and nations.

Secondly, amidst the tensions and hysteria that now bid fair to supplant reason and calm judgment, we would particularly hope that you have learned the necessity of combating that greatest enemy of true legal order—fear of the unfamiliar and the strange. Such fear, which frequently masquerades as an exaltation of past virtues, can carry within it the prejudices and hatreds of the hour and as such represents the antithesis of law and order. In the words of an English lawyer,

> "Fear brings back the primitive concepts of the function of the courts: not necessarily, nor indeed often, personal fear, but fear of changes; fear on the part of the upholders of the old order; fear of the effects of the discoveries of new truths; fear of emerging into the full light. Where such fear is, justice cannot be; a court becomes an instrument of power; judges are soldiers putting down a rebellion; a so-called trial is a punitive expedition or a ceremonial execution—its victim a Bruno, a Galileo or a Dreyfus."

And lastly, we would wish for you the capacity of understanding the motives, aspirations and desires of the human mind and heart—particularly of those with whom you may disagree or have little sympathy. Whether in the solution of quarrels of individuals, groups, or in the larger scheme of nations, such understanding is as essential, as it is difficult to find, for any solution of lasting value.

These are the qualities of mind we would like to accompany you as you leave the School of Law. You will need them in your work; and the world stands in need of you and that work.

School of Law

School of Architecture

H. H. MADILL

O.B.E., V.D., B.A.Sc., F.R.A.I.C., Hon. Cor. A.I.A.

FIVE years ago when, as members of the class of '52 you entered the School of Architecture, you embarked on a course of study which you will never consider complete as long as you follow the profession of architecture. Your University course may be considered the first phase in your education and your graduation the first milestone in your architectural career. Your academic course has, I trust, laid a broad foundation which will enable you to make your own contribution in the creative work of the profession as opportunities present themselves.

The next phase on which you will soon embark is the period of practical experience which you will complete before being eligible for registration and the practice of your profession in your own right. During this second phase you will be in the employ of an architect, and as graduates you will be expected to assume responsibilities for the adequate remuneration which is offered today. It must be remembered that it is less than forty years since the apprenticeship system of architectural training was in vogue. Under that system, in lieu of pay, the student received instruction from the principal and senior assistants in the office. You cannot expect similar assistance today and it should not be necessary. You should rapidly become familiar with office practice and with the architects' dealings with clients, contractors and consultants.

As undergraduates you were members of the Architectural Society and participated in its activities. I urge you all to become members of the Architectural Alumni Association. The Alumni can be a medium to help bridge the gap between the intellectual atmosphere of the School and the hurly burly of practice. Much can be accomplished through a close association between the Architectural Society and the Architectural Alumni—the Architectural Year Book and the "big name" lecture series, to mention only two. We can look forward to many activities under joint sponsorship in the future.

Every member of the staff joins me in wishing each of you every happiness and success in your chosen profession.

PHARMACY

Ontario College of Pharmacy

R. O. HURST
Phm.B.

A profession is only as solid as is its foundation and now that you are about to graduate you will become part of the foundation. A foundation is only as strong as its weakest part. Your college therefore urges you to look well to your duty. Good character and good judgment are two of the greatest forces for business building. All of our finest institutions are built to a great extent around these two qualities, and many of our Canadian pharmacies which are well and favourably known across this Dominion are characterized by the building force of the sterling character of the owner.

Pharmacy in Ontario is moving into a new plane of service and effieieney. Your college is projecting for 1952 a dual aetivity in the form of a periodical Bulletin serviee to the pharmacists of the Province, and a series of refresher courses. Even though you may feel modern and up-to-date in your academic knowledge, I suggest that you continually prod yourself with the idea that many advantages come from being well informed about new developments in your profession. You can help to make these services a success by being interested.

My final plea is that you all work toward a stronger alumni body in pharmaey. It is true that membership has improved in the last few years, but we are far from the goal of having a healthy representative body under one alumni.

Every graduate in pharmacy should be just as conscientious in his patriotism toward his alumni association as he would be toward his home or his country.

We wish you well in your new responsibilities and trust that as an ardent alumni we may see you often.

School of Physical and Health Education

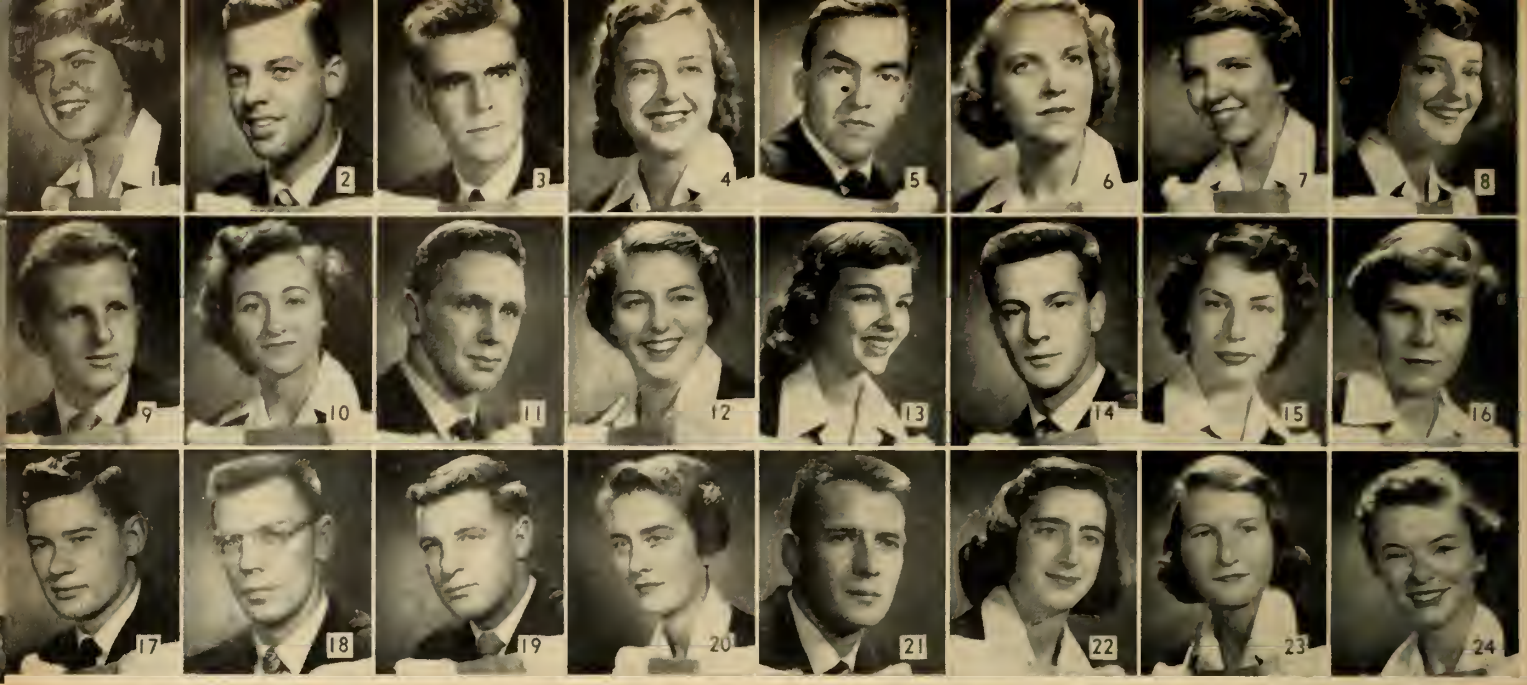

H. A. CATES
M.B.

IN congratulating you—the class of 1952—on your graduation and in bidding you farewell, I am tempted to ask "When you came here three years ago, what did you expect from your University?" This question has been asked before and in reply the late Professor J.E. McFadyen of Glasgow answered it thus: "Briefly two things—information and inspiration or stimulus; the latter even more, perhaps much more, than the former". I suspect that three years ago, your quest was almost exclusively for information. You came here for vocational training because—much as it may be regretted—a good deal of such training is available only at universities. In consequence, the University faces a real threat to its ultimate spiritual function, if it allows its energies to be extended and indeed dissipated by the mere processes of training for a job. This will not happen.

It is to be stressed, however, that a vocational study can, and ought, itself to have cultural value. The measure of that value will depend on the ability of the vocational staff to offer day by day inspiration and on the readiness of the student to benefit by it. It is in this recognition of its duties that your School—and the University at large—have striven to serve you. How well they have succeeded, your future careers will reveal. Our challenge to you is—"What has the University a right to expect of you?"

In conclusion, may I remind you that by joining your Alumni Association and giving it your active interest and support, you have an opportunity to keep warm your friendships. By visiting us when you can, you encourage and help to keep strong your School.

Adios!

School of Nursing

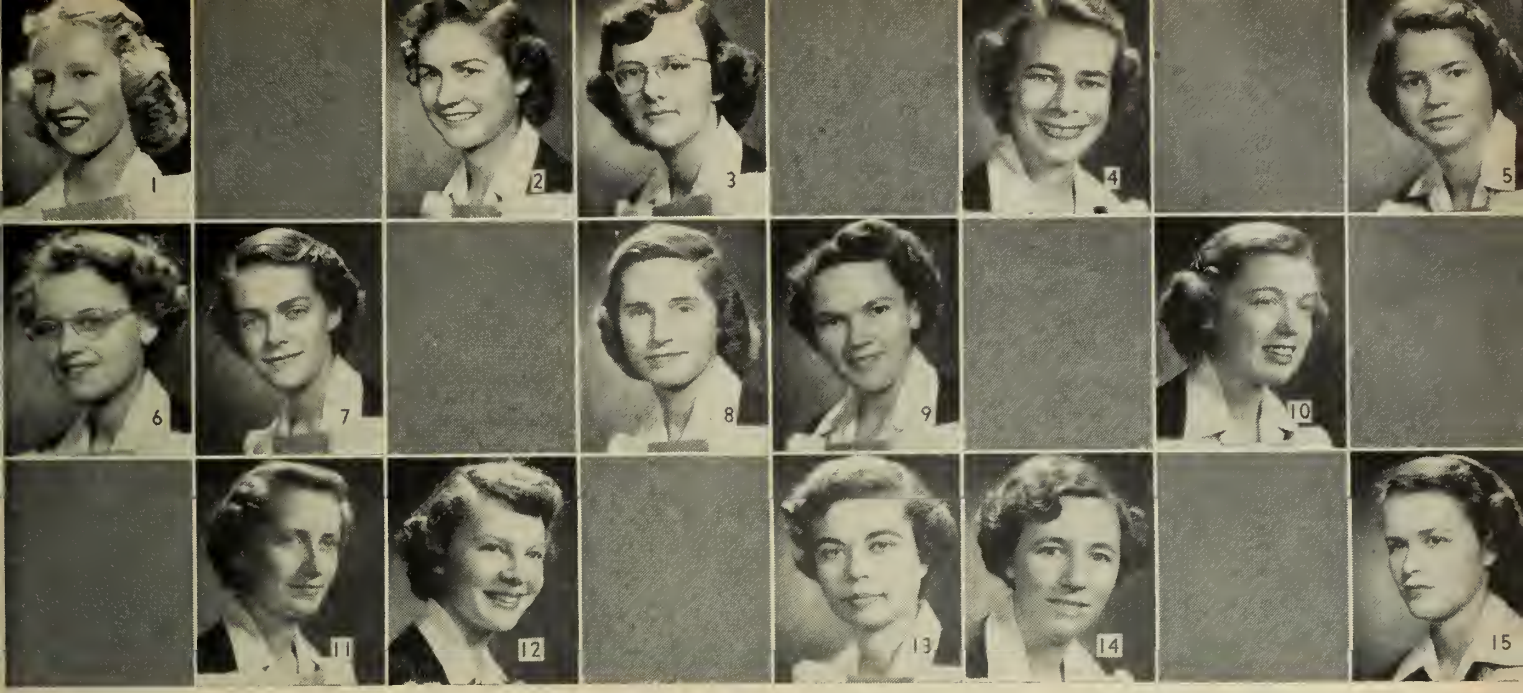

MISS E. K. RUSSELL

B.A., B.Paed., D.C.L.

THE greetings that we write from year to year to the graduating classes seem to resemble one another closely, and yet each message is new in spirit for each one is meant particularly and personally for the group to which it is addressed. Thus we salute the class of 1952.

Very quietly you approached this, your final year, over-shadowed, quite properly, by the seniors of a year ago. But, at the appointed time, you stepped into your own role of leadership with assurance and strength and thus you have brought great satisfaction to all. In doing so, you have served your school well, and also have served yourselves, perhaps more than you can yet realize. You have learned some of the greatest lessons that university life can offer in that you are able to think clearly, to make wise decisions, and thus to accept the responsibilities that follow these decisions. Surely you will carry this same ability to the wider community into which each one steps as she leaves her school.

We shall follow you in thought and maintain a deep interest as you enter the ranks of what is perhaps the most important section of the membership of any school or college, namely, the alumnae. All members of staff join in warm congratulations and sincere wishes for your future happiness.

THE DEEP RIVER GALS

KICK-LINE ON VACATION

University Extension

J. R. GILLEY
B.A.Sc.

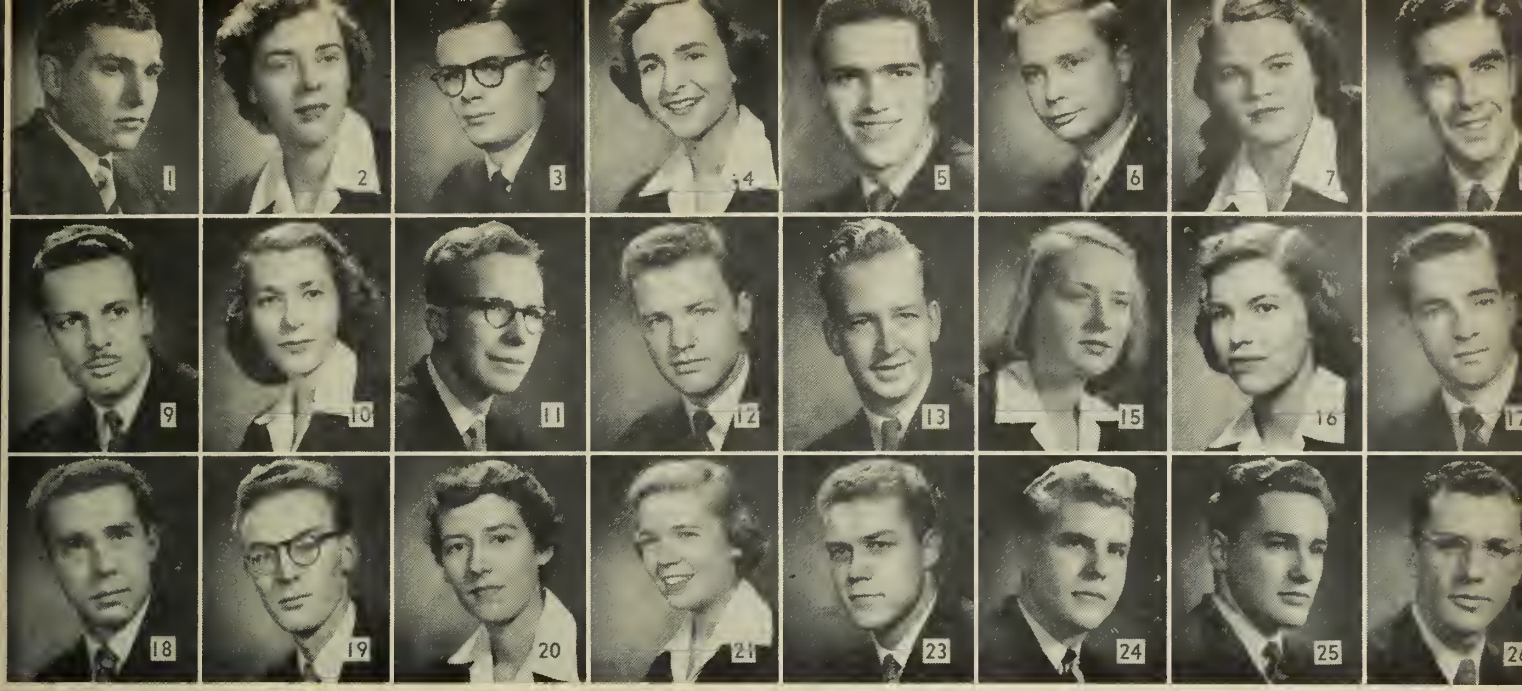

THROUGH the Pass Course for Teachers, the University of Toronto has opened the door to a university education to many who would otherwise find it impossible to attend the regular academic sessions. It has provided facilities for those who have the determination to pursue an Arts Course by attending lectures in the evenings and in the summer sessions.

Those who are graduating have not only gained an appreciation of the value of a liberal arts education, they have prepared themselves for a fuller part in the life of the community. In placing the facilities of the University at the disposal of these fifty-two men and women who graduate this year, we have endeavoured to assist them to explore some of the treasures to be found in books and to receive inspiration from gifted lecturers.

The students who graduate from the two-year Diploma Course in Institutional Management have a rare opportunity to take their places in the important posts open to them. The increasing number of people who travel each year for recreation and pleasure require the services of those specially trained for our valuable Tourist Industry. The countless number of institutions that have always been an integral part of our way of life provide openings for these 60 men and women who leave the University this year.

Every autumn, greater numbers of young men and women enrol in the Certificate Course in Business. Two nights a week for three winter sessions these students attend academic lectures given by members of the University staff. Certificates are awarded in June to all successful candidates.

To the graduates of all these courses I extend heartiest congratulations and good wishes.

School of Social Work

C. E. HENDRY
M.A., M.H.

"IN social work one is engaged in a crusade as much as in a career." This affirmation, contained in an earlier *Torontonensis*, epitomizes the central spirit of its author, the late director of this school, Dr. Harry M. Cassidy. Actually his whole life was an inspiring demonstration of a career within a crusade. Those of us who were privileged to know him as students and as colleagues and who gathered at his final graduation service in Convocation Hall on November 3, 1951, will not soon forget the deep meaning of his character and his leadership.

It is good and proper that a School of Social Work such as ours should be set in the framework of a great university. Professional persons having responsibility for leadership in the development of social policy and social administration affecting the health and welfare of the people need the discipline of scholarship quite as much as the mastery of technical skills. If you have not discovered this already it is a discovery you are certain to make if you move far enough and deep enough into the reality of the human situation.

You are going out into Canadian life at a time when Canada's physical resources are undergoing phenomenal and unprecedented development. As a nation, at long last, Canada is coming into its own. It holds an enviable and highly respected position in the family of nations. Its enduring strength and its claim upon continuing respect, however, depend ultimately on the conservation and development of its human resources.

As a graduate of this School your responsibility lies in the area of human resources and human relations. As a professional social worker you are a custodian of human fulfilment. It is in this special role that the members of the faculty join with me in wishing you Godspeed and great effectiveness in the discharge of your professional duties.

School of Social Work

Caledon Hills Farm

The Year in Review

September 25 As Registration commenced, students were faced with fee increases of as high as seventy dollars in some courses.

September 29 Blues defeated McMaster 14-6 on touchdowns by Steve Oneschuk and Bob Rumball.

October 3 Jack Gray resigned as editor of the Varsity due to his questionable status as an occasional student.

October 4 Victoria College Union announced that the 79 year-old tradition of the Vic Bob was to be terminated as it was to be incorporated with the much more recent Scarlet and Gold show to be presented as the Bob Revue.

October 6 Blues defeated McGill in Montreal in the Intercollegiate opener 15-7. Steve Oneschuk and Bobby Dale tallied the majors as the Blues came from behind in the second half.

October 9 U.C. won the Junior Interfaculty Track Meet, edging Skule by a narrow margin.

October 13 Her Royal Highness Princess Elizabeth and Prince Phillip visited the university and were welcomed by over 10,000 students, staff members and their families. The Royal Couple arrived at three minutes past noon and were welcomed by Chancellor Vincent Massey, President Sidney Smith and Warden Nicholas Ignatieff on the steps of Hart House. They then entered Hart House, walked through the quadrangle to the Great Hall where they signed the visitors' book, and then left by the East door and walked through the underpass to the Lieutenant Governor's suite in the Parliament Buildings where the exhausted princess rested before her afternoon round of visits elsewhere in the city.

When Western comes to town, it is a big day at Toronto, but until the Princess and the Duke had disappeared beneath the underpass, Western was a forgotten issue for all but the stalwart men of Masterson who were quietly laying plans to steal the Mustang from beneath Johnny Metras and, when the final whistle blew in the late afternoon, that is exactly what they had done, to the tune of 16-7. A terrific defence, a 108 yard touchdown march in six plays, and the all-round play of Steve Oneschuk highlighted the game.

October 16 The meeting of the External Affairs Commission was concerned with nothing but the Russian Student Visit question as this topic was snowballing on the campus, being rolled on by a few students and the Varsity.

October 17 Barbara Browne was appointed Editor of the Varsity to replace Jack Gray who had resigned two weeks ago.

October 18 The Hon. Lester B. Pearson was appointed Chancellor of Victoria University. He is a Vic graduate who is at present Canadian Secretary of State for External Affairs.

October 20 Masterson's Men in Blue trounced Gaels 26-2 as freshman Bobby Dale scored three touchdowns.

October 23 U.C. Music Club cancelled their operetta because of financial difficulties due to losses sustained in last year's production of "Naughty Marietta."

October 25 McGill won the Senior Intercollegiate Track Meet with 74 points, while Varsity, the host team, was second with 59 points. The Varsity Intermediate Track Squad captured the title in their division led by Doug Wilson.

October 27 Homecoming Weekend was celebrated by grads and students with Float Parade, receptions and the football game. The Blues power eventually overcame the Queen's spirit to emerge 15-7 winners. Al Brown and Bill MacFarlane counted the Blues' majors. The Dali theme won the Float Parade award for Art and Archeology.

October 31 S.A.C. blasted members of radio committee as the chairman stated that he was merely a bystander as his committee members ran the show.

November 1 The Campus awoke to evidence of Hallowe'en vandalism, with painted signs on University College ("Skule Stables"), Whitney Hall ("Passion Pit"), Croft Chapter House ("Skule Forever"). Trinity, Knox and the steps of Victoria College ("Pink 'n Yellow"). Sand blasting may be necessary to clean the stonework.

November 2 Dr. Harold M. Cassidy, director of the School of Social Work passed away after being seriously ill for the past month.

The S.A.C. cancelled the proposed pre-McGill pep rally in an effort to curb further vandalism.

The Intermediate football Blues won their first Intercollegiate championship since 1933 by defeating the Western Colts 12-1, as Don Fawcett ran 105 yards for a touchdown.

November 3 The Mustangs scared the Blues as they held the men of Masterson to a 13-13 tie. End Al Brown saved defeat by blocking the Western convert attempts.

November 6 The "Russian Question" again loomed prominently in the pages of the Varsity.

November 10 Blues downed McGill Redmen 11-7 to climax an unbeaten season and win the Yates Cup. Bill McFarlane scored both Varsity touchdown adn dropped a pass which would have been a third. The Blues' line came up with their best performance of the year, defensively, and the standout was line-backer Bob Garside. Steve Oneschuk and Al Haig were also outstanding in the Torouto victory.

November 13 Four Blues footballers were named on the Intercollegiate All-star team. They were guard Marshall Hames, tackle John Evans, halfback Steve Oneschuk and halfback Bobby Dale. The second team included no less than six Toronto players, and the first coach spot resulted in a tie between Bob Masterson and McGill's Vic Obeck.

November 30 Vic shut out U.C. 25-0 in the Interfaculty football final to win the Mulock Cup.

December 5 University College defeated Trinity in the soccer final to win the Interfaculty championship for the first time in over 50 years.

December 6 Forty University of Montreal students arrived to-night for the annual Carabin Weekend visit. The round of activities included a tour of the subway, a visit to Santa Claus, a series of parties and disenssion groups, a day at Caledon Hills Farm with square dancing in the evening and a farewell tea at Wymilwood on Sunday.

December 7 Varsity hockey Blues downed McGill, 5 to 1.

December 8 The Blues dropped this one to Laval, 6 to 3.

December 12 Senior Meds lacrosse team won the deciding game in the Dafoe Cup final. The Medsmen came back after dropping the opening game to take the title for the fifth consecutive year. Dr. "Axe" Haliburton whose play in the four previous years was largely responsible for the long string of championships, returned this year to coach the embryo physicians to yet another title.

December 21 Students prepared for Christmas festivities and Syd Wax prepared for Edinburgh trip.

January 11 Laval picked up right where they left off before the holidays to down the Blues, 4 to 3.

January 12 The Varsity pucksters salvaged one point out of their trip down the St. Lawrence by tying the University of Montreal, 4 to 4.

January 14 Syd Wax arrived home from Edinburgh Conference which was held from January third to eighth.

SHARE campaign started to-day. The initials of the campaign title stand for "Student Aid to Asian Relief and Education", and is a sequel to last year's highly successful AVA campaign.

January 13 Trinity College opened their centennial celebration with a Service of Thanksgiving at St. James's Cathedral.

January 16 Trinity Centennial edition of the Varsity appeared to-day.

January 21 University Christian Mission opened with an address by Canon T. R. Milford, the leader of the Mission.

January 23 Syd Wax flew to Rio De Janeiro to attend the Pan-American Conference of Student Unions.

January 24 Chancellor Vincent Massey was named Governor General of Canada to become the first Canadian-born appointee to this office.

The Scottish team of Ian MacGregor of Edinburgh and Tommy Tomlinson of Glasgow were awarded the Brading Trophy for international debating over the Toronto team of Neville Taylor and John Barton.

January 25 Toronto and McGill tied, 3 to 3, in the hockey opener at Varsity Arena.
The Senior Basketball team faired much better in Montreal defeating the McGill team, 71 to 54.

January 26 The deplorable condition of undergraduate English was revealed in President Sidney Smith's annual report and so was born the term "Remedial English" which became the talk of the campus for the rest of the term.

The Blues basketball team repeated last night's performance with a 54 to 52 win over Queen's.

February 1 The tables turned as the hockey Blues down the Carabins, 9 to 4, and the basketeers dropped a 58 to 46 decision to Western.

February 3 Syd Wax returned from Rio via the jungles of northern Brazil.

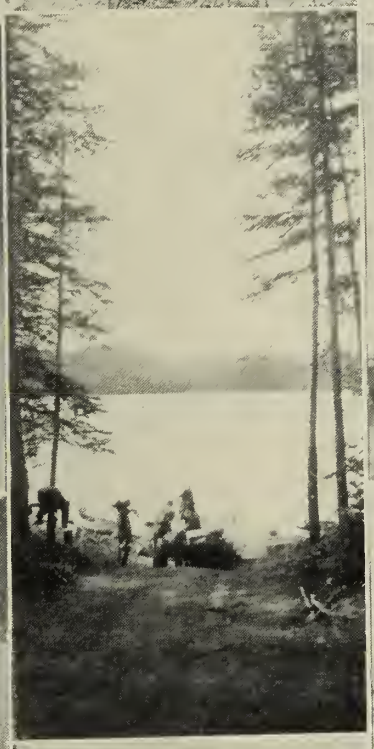

February 4 The Honourable Lester B. Pearson was installed as Chancellor in Victoria College ceremonies to-day.

The Year in Review (Concluded)

February 6 His Royal Highness, King George VI, passed away this morning. The Vic At-Home and the Newman Club Ball were postponed and the UNTD Formal was cancelled. The All-Varsity Revue was later postponed until after the funeral.

February 16 Varsity finally downed Laval, 5 to 4, at Varsity Arena as Jack Mackenzie netted three goals.

February 18 Laval returned the compliments by reversing Saturday's score.

February 22 More hockey as the Blues edged the University of Montreal, 5 to 4 to keep the flickering hope of the championship alive.

February 23 Varsity won the Intercollegiate Swimming championship, topping McGill 43 to 36, with George Stulac setting a new intercollegiate record.

McMaster Marauders downed the basketball Blues, 72 to 69 at Hamilton.

February 27 University of Western Ontario had little trouble repeating the treatment, 53 to 43 at Mutual Arena.

February 28 Victoria College Senior hockey team downed Trinity A's, 12 to 3, for their second straight decisive victory in the intramural finals to take the Jennings Cup.

March 1 The Varsity basketball team made it no contest with a runaway 70 to 40 win over McGill.

March 5 The publication of the Varsity was suspended following the appearance of the humour issue which prompted an investigation by the Caput and the Students' Administrative Council. The most talked-about articles in the issue were Wax's trip to Moscow and the feature on Remedial Sex. The Editor-in-chief and staff resigned.

March 12 The Students' Administrative Council accepted the resignations of the Varsity staff.

March 16 The Hon. Louis St. Laurent was guest speaker at the St. Michael's College Centennial Arts Banquet at the Royal York Hotel which was held as part of the St. Michael's College Centennial celebration.

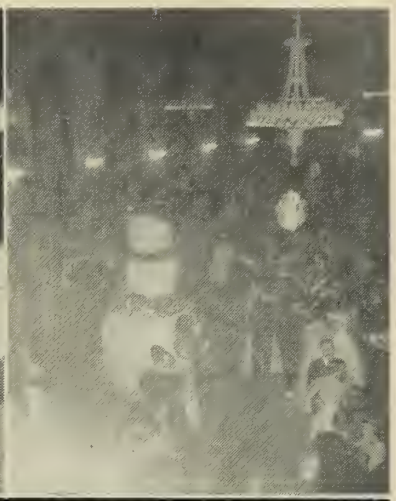

March 18 The final issue of the Varsity was published and edited by the Publications Commission of the S.A.C.

March 19 St. Michael's College took the deciding game from Pre-Meds to win the Intramural Major Basketball championship.

June 2 Due to the difficulty encountered in obtaining the required material and a severe staff shortage, Torontonensis was not ready for graduation.

Where do YOU go from here...

Whether you intend to go on to university or wish to enter upon a career immediately after graduation, you are faced with a big question: What do I want to be? Well, perhaps you have a talent with things mechanical or electrical. Your aim could then be for university and engineering or directly into an industry where opportunity for advancement holds great possibilities for your future. The electrical industry is an industry that is steadily expanding — always on the lookout for aggressive young men who want to go places! The history of the electrical industry shows that there is no limit to the possibilities for young students with imagination. This holds for both the university as well as the high school graduate. The Northern Electric Company, as in the past, will continue to welcome into our organization, young men with enthusiasm, courage and determination to reach positions of responsible leadership.

PUBLIC SERVICE

We are very proud of the men and women who represent this Company in the field.

Stress has been laid upon the definite policy followed in the development of our field forces. This policy is based on the rigid selection and thorough training. It is based also on the belief that the buying public is entitled to and needs now more than ever before, intelligent, well-informed, conscientious advice and service in connection with the arrangement of life insurance estates, regardless of their size.
